# PLUS-ONE PROGRAM (POP)

For the 2021 - 2022 school year, qualified junior and senior students may enroll in a 7th class. A POP class will take the place of study halls. The purpose of this program is to offer students the opportunity to take an additional credit course that is directly related to a student's particular interests in the field of Science, Fine & Performing Arts, Business, Technology and Math.

The POP program is open to students who are highly motivated, have good time management skills and can handle the academic rigor of seven academic subjects. **To qualify for a POP class a student must have a Career AGPA of 3.3 or higher.**

If you are interested in the ***Plus-One Program*** you must complete the following information, attach it to your course selection form and return it on the date designated for your year level.

| _____ | _____ | _____ |
