Reduction in Teaching Staff

General

Under Section 10-220 and 10-4A of the Connecticut General Statutes, the Board of Education has the responsibility to maintain good public elementary and secondary schools and to implement the educational interests of the State. However, recognizing also that it may become necessary to eliminate professional staff positions in certain circumstances, this policy is adopted to provide a fair and orderly process should such eliminations become necessary. Procedures for reduction in force are outlined in each collective bargaining unit contract.
