Weather cancelations can and will occur. Save yourself a needless trip by checking the club website before games or practices to determine the status of fields. The website will be updated by 7:30am on weekends and 2:00pm on weekdays with a determination on field playability. This status may be updated throughout the day as weather conditions develop. Always check right before leaving for your game for the most recent information as bad weather sometimes develops right before game time. Referees have the authority to cancel matches and close fields on site if weather conditions deteriorate at kickoff time or after a match has started. Players in Charlottesville may also call the weatherline for a status update at 434-817-7246 (RAIN).
