Scoliosis Screening

Each year Warren Hills conducts a screening program for scoliosis biennially for all pupils ages ten through eighteen, as required by law. Scoliosis is defined as a condition of the spine in which the spine may curve to the left or right. It is most commonly found during the time of rapid growth and may progress if not treated. The purpose of the screening program is to recognize scoliosis in its earliest stages.

You are invited to be present, if you desire. If you do wish to be present for the examination, please call HS 689-3050 ext. 2 or MS 689-0750 ext. 2020 to make an appointment. Whether or not you are present you will be informed of any problem that is identified.

If you DO NOT want your child to be examined by the school nurse, please complete and sign the form below and have your child return it on the first day of school.

Thank you for your cooperation.

Sincerely,

Bonita Duryea, RN - High School
Kristyn Sbriscia, RN - High School
Michelle Gaffney, RN - Middle School
Linda Katstra, RN – Middle and High Schools

School Nurses

CUT HERE

Please complete, sign, and return to homeroom teacher on the first day of school.

I DO NOT want my child examined for scoliosis while enrolled in the Warren Hills Regional School District. Child will be monitored by family physician.
