Current High School: Beaverton ← Whitford ← Mantclair

Questions:

Current proposal doesn't address migration from elementary → middle → high school

Mantclair, Whitford, Beaverton HS kids will enter high school
knowing very few of their class mates.
Most of the whitford students will go to Southridge

Entering HS knowing none of your classmates is not good.
What can be done to improve?
Or show this is not the case with a map: elementary → middle → high school

Boundary Comment: Dividing neighborhoods divides a community. the most recent version of the proposed map DIVIDES Raleigh Hills at Garden Home and SLICES Vista Brook These are strong, involved neighborhoods. We have all been together since --well forever. We moved to these neighborhoods on purpose to be part of the entire community. With some shifts to the other schools, we've done the math, looked at neighborhood boundaries, considered large dividers such as freeways and there are ways to keep our Raleigh Hills / Raleigh Park community together. We are happy to noodle with you. The current proposed boundaries are divisive and emotionally damaging. Please reconsider. thank you

Current High School: Beaverton high school

Boundary Comment: Our school, Raleigh hills K-8 (founded in 1892) was it's own district (#95) until it joined Beaverton school distict in 1959 and we have been a clean feeder since. We have a unique & family-like culture in our school & community. Although my kids will stay at Beaverton, I am concerned that the 90 kids in Vista brook, garden home, & whitford park are going to be split to Southridge. That is approx 10 students per grade heading to a whole new school w/ strange faces after 9 years in a small, nurturing enviornment. This loss of tradition & continuity saddens me & I suggest keeping RHS as clean feeder & Montclair Elementary as clean feeder

Boundary Comment:

The first map that came out was a shock. However at least 90% of friends, neighbors, and students would be going to Southridge. Our family & son understood and could accept it as this would be a shift/change but most of the people we knew where changing with us. Now with the last few changes it is the opposite a vast majority of friends & neighbors are staying at Beaverton while a few are going to Southridge. This has really upset our sense of community. Based on the enrollment & Transition Estimates it Appears Beaverton is being required to endure the most change. Whitford Park, Vista Brooke & Garden Home are being Split Apart.

School Boundaries

I am a freshman at Beaverton High School and I don't agree with the boundary changes. Coming from a small class of around 23 kids at St. Cecilia was hard, I had to make all new friends and adapt to a new school. Around 2 weeks into school I started making new friends, homecoming was coming up and we were all planning on going together. This close knit group of friends is the same group I hang out with now, well into January. The social aspect of high school is a key thing most adults forget about when say, changing district boundaries. High School isn't just about the classes and, well school, it's also about getting involved and joining clubs, playing sports, and having fun.

Sports is another thing that I am involved in at BHS. This winter I'm playing basketball then I hope to do track, and cross country in the fall next year. Half way through the season I've made great friends that are upper classmen and I've bonded with my team. I'm not sure if you could see the difference of a basketball team that just started playing together versus a basketball team that have known eachother for years. It's huge difference and right now my team is just started to get close but when junior or senior year comes around, we will be familiar with each other and an overall better team. That won't be able to happen if we all end up getting split and put into different schools.

When a class of freshman all start school everyone is open to new things and to making new friends, that's how I made my friends. Even now as new students come into our class I can see they struggle. Everyone has their own groups by now and own plans, I saw the other day a new girl get turned down to join their lab table in STEM Physics. If the boundary changes make us move schools as junior's then there will be hundreds of that one girl walking around, trying to make new friends and fit in. I feel that it would be completely barbarac for the district to make juniors of all people move schools. Junior year is critical, you have friends and teachers you can trust, need college recommendations from the teachers who have known you for 3 years and have more important things to worry about than making new friends. How well do you think a teacher would write a college recommendation if they knew you for a few months versus 3 years? Even I know how that would go down.

It would make complete sense for the district to make incoming freshman change schools because they would be doing it anyway. There's no reason to make upperclassmen move schools and rob them of their high school experience. As a freshman I'm already stressing out about this because I would be in Southridge district, while some of my friends would stay at Beaverton. Most importantly, my best friend would be in the new school district. I get you just want to get rid of the overflow schools have but can't you do it slowly? Is there a reason on why you won't just take incoming freshman and leave the upperclassmen alone?

Respectfully Submitted by Sydnie Rissel

Questions: My middle school daughter at Raleigh Hills (K-8) will be split up by the proposed boundary from the rest of her classmates although we live blocks from each other.

There are only around 50 graduating 8th graders at Raleigh Hills - how can you split up a class that is already so small? We rely on each other. Can we have the option to choose or can you figure a way that McKay feeds to Southridge and Raleigh Hills is a pure feeder to Beaverton?

The new boundary that cuts off S. of Scholls Ferry is even worse / more alienating of just a few Raleigh Hills student families - it would leave them with even less of their classmates.

Name: Stacey Fisher

Current High School: Beaverton

Questions: My primary concern is the splitting of our Raleigh Hills community. As the boundary stands now, my Garden Home/Whitford Park neighborhood will be split out to go to a different HS than the majority of our community. This will affect my children in that their friends & support will not be there when they move into HS. Alternatives would be for a sort of grandfather clause to give current RH families the ability to stay w/ their community. Other alternative would be to make RH a pure feeder to BHS, it is only a few children split out of the current proposal & would be a small adjustment. Our community is a close-knit, supportive group. I ask you to consider this in your design of boundaries.

yellow - general.

~~Transition Comment~~ comment: I am deeply disappointed with the process for this evening. I wanted to hear others comments, I wanted to feel some sense of being heard & I wanted to have the feeling that my time here was well spent. I feel none of those things. The room is noisy, chaotic, & the directions have been late to come & prior. I had planned on bringing my middle school son to this meeting so he could experience a public process. I'm so glad he did not come, because I am embarrassed → for our school district.

The facilitator seems like a nice man who has built trust & a collaborative work group with the boundary committee, but he has fallen short of the expectations for creating a space for the public to be heard. I'm leaving feeling tense and upset. This is sad to me. (I don't have comments or concerns to raise about the actual boundary lines - but I wanted to trust the process & sadly, I do not).

Current High School: Beaverton

Boundary Comment: Hi there! First of all, we've been very happy w/ Beaverton School District. Our daughter & older son go to Raleigh Hills K-8 & have had good experiences & great teachers. Next year, we'll have all 3 kids of ours @ RHS – Hannah in 5th grade, ~~M~~ Micah in 2nd & Ori in Kindergarten. We live in Garden Home, 1 mi. from RHS, and we've stayed in our neighborhood because of the many positive things we heard about Raleigh Hills. If we're rezoned to Southridge, we'll be forced to pull ALL 3 children out of RHS and have to transition them to Whitford or McKay, which would be a major disruption. Having all 3 of our kids at the same school is more than a convenience; it's crucial for the siblings & how they support and look out for one another. Furthermore, Raleigh Hills →

as a K-8 provides a unique environment that isn't found at McKay or Whitford Middle.
We've already had to transition our kids into Beaverton SD (from Portland Jewish Academy). We don't want to put them through that experience again soon.
We thank you for all your hard work and would urge you to <u>Keep RHS & BHS connected</u>!

Thank you,

Roy + Claire Kaufmann

Boundary Comment: My child Attends Raleigh Hills school where at the end of her nine years she will have currently six kids from her class have to attend one high school while the remaining kids in her class ~~with~~ go on to Beaverton High School. Raleigh Hills is not just a school it is a community. we currently have over 50% free and/or reduced lunch and we All take care of each other. It would be tragic to take away this small area of Raleigh Hills while keeping the rest intact. please reconsider the small pocket on either side of Garden Home Rd. being a part of the Raleigh Hills community and attending Beaverton High school. It appears to many of us that this very small number of kids would only Benefit from staying with their community.

Boundary Comment: My primary concern is that the current boundary proposal splits our small close-knit community of Raleigh Hills and isolates our neighborhood - Garden Home/Whitford Park. ~~We~~ I request you consider alternative proposals to splitting out essentially a handful of children away from their support system.

Alternatives include allowing families impacted by the Raleigh Hills split ~~that~~ to have the option to remain with the rest of their RH graduating class to allow for continuity. I strongly believe this will contribute to their academic success and emotional development.

Boundary Comment: I have one child already attending Beaverton High an 8th grader who will start at BHS next year and a 4th grader at Raleigh Hills. While currently my address is falling in the BHS boundary, there is a group of Raleigh Hills kids that are now being sent to Southridge. Raleigh Hills is a very close school community and for a small group of kids to be sent to a different High School is unjust. To pull apart a group of kids who've been together for 9 yrs. is unfair. The Raleigh Hills community has already been through so much, we rallied around our school when we were labelled a failing school, we stayed together and overcame that obstacle. We are looking at only about 90 kids K-12 that we would like to attend BHS with the rest of their community. Please consider keeping our school community together.

Current High School: Beaverton

Boundary Comment: As a mother of 3 children and a very involved volunteer at Raleigh Hills K-8 my concern about the boundary changes stems from the impact these changes will have on our neighborhood community. RHS is a very close school community and many of these children have been going to school together from ages 5-14. The new boundary will have a very small pocket from our school community (an estimated 8-9 kids per grade) going to South Ridge. I am concerned of the emotional and social impact on these children. Research has shown how important continuity, security and community is for children and such changes can be damaging to their emotional well being and academics. Furthermore this pocket of students is being divided by Fanno Creek Trail cutting a sub-division in half. It seems to me that major roads ~~and~~ should be dividing factors not neighborhood paths, furthermore small school communities that have historically fed into Beaverton should be preserved.

Current High School: Beaverton

Boundary Comment:

we currently attend, and have attended Raleigh Hills K-8 for 11 years. The enrollment area for this school covers several small very closely knit neighborhoods. ~~our kids have~~ many preschool age children start off in the Garden Home Rec Center and go on to attend school together until their 13th year of life. It is a significant span of time for families to build community and friendship together. There is a small neighborhood pool in the Vista Brook neighborhood that many families in that neighborhood, Whitford Park and Royal Woodlands have spent their summers together at for years. R.H. ~~is~~ is a small middle school program and, being an option school, will not even send all of their middle schoolers on to Beaverton. It is a technology focused school that has been very succesful in its technology focus, turning out kids who are comfortable with technology and quite proficient with it. Beaverton HS is a Future Ready School and it seems short sighted to not send these well prepared students from Raleigh Hills on to BHS where they can continue their progress and help students who may not be as prepared (as my son a BHS 10th grader has done) keeping the Raleigh Hills enrollment area continuing to feed into Beaverton is a key factor in maintaining the amazing community we have built. These small stable neighborhoods (Vistabrook, Whitford Park, Royal Woodlands) also provide good stability and parent volunteers to BHS.

Boundary Comment: - Raleigh Hills students will be unevenly split up with the proposed high school boundary.

- A very small 8th grade class will be disadvantaged when they are already coming from a small middle school to a large high school. The more friends they come to high school with the better.

- Our small community relies on each other for help - that would end. →

Can you provide an option for rdeigh hills students ~~that~~ that are close to the new boundry to choose the school of their friends.

Date: 1/21/2016

Name: Heike Mendez

Current High School: Beaverton

Boundary Comment: My child attends Raleigh Hills and is currently in 5th Grade and will be attending their Middle School program. We are currently zoned for Beaverton and the boundary changes have not affected our household. However, our school boundaries are being split by this new proposal.

We moved here 3 years ago and one of the deciding factors was the close community of Raleigh Hills with the school at its center. Our neighbors are a small and close group. We play together, achieve together and raise our children together.

Looking at the numbers is a very sadening fact. We will loose 85 children out of 580 that will be split to attend Southridge. If you think about this by grade you are looking at approx. 9 children per grade that will have to integrate at Southridge and will have to try to integrate into a group of about 420 peers. The social disconnect these students will feel will have a big impact on their academic achievements as many studies have shown.

I would like to see some change in the boundary or some kind of option for students within a certain milage from school boundaries.

Thank you for ~~spending time~~ giving us a chance to bring forward our concerns.

Heike Mendez

Date: 1/21/16

Name: Jennifer Segerholt

Current High School: Beaverton

Boundary Comment: Raleigh Hills middle school K-8 is a unique small + close knit community that will be split up by the current proposed boundary. My daughter will have gone to RH's with the same group of 40+ students for 9 years and currently she will be one of 6 kids that will have to go to Southridge.

She will live across the street from kids she has attended school with for 9 years and they will go to different high schools.

Raleigh Hills (because it is such a small tight knit community) students will have challenges when entering high school with more than 400 kids they don't know, and now they will be split from their small tight knit group of Raleigh Hills friends.

** If you cannot address the boundary to incorporate all RH's students at the same high school (this is first choice) Then →

Can you please consider the opportunity for families (impacted by the Raleigh Hills split and/or within less than .5 miles of the boundary line) to have the option to remain with the rest of their majority graduating 8th grade class at Beaverton High School.

Boundary Comment: I have one child at Beaverton highschool. He is a freshman. He will have to move to Southridg his junior year. He will have invested two years and to move his junior year would be very hard. I feel the junior and senior years are the most important as far as choosing programs that will help them get into their college of choice. Having to move his junior year and starting all over is, I'm sorry, but ridiculous. We live on Garden Home and 88th and have been in our neighborhood for the last thirteen years. We chose and sacrificed a lot to be in this neighbor in the intent that our kids would be going to Raleigh Hills K-8 and Beaverton for highschool. We are being split from half of the community. Raleigh Hills / Garden Home has been a strong community for many years. To split us up is like splitting up our family. ~~[illegible]~~ When my husband lost his job a couple of years ago, it was the Raleigh Hills / Garden Home community that helped us through this hard time financially and emotionally. Please really re-consider keeping Raleigh Hills / Garden Home area together. We wouldn't have survived without it.

Thank you.

WELCOME...to a special meeting of the Beaverton School District. The Committee welcomes your participation and feedback. Please give us a brief description of your questions. Be sure to hand this completed form to a Committee Member before leaving.

Date: 1/21/2016

Name: JEREM MITCHELL

Current High School: BEAVERTON

BOUNDARY ~~**Questions:**~~ ONE GREAT ADVANTAGE AND STRENGTH OF PUBLIC SCHOOL IS THE OPPORTUNITY FOR FAMILIES AND CHILDREN TO DEVELOP CLOSE FRIENDSHIPS AND A SENSE OF COMMUNITY BEGINING IN ELEMENTARY SCHOOL AND ENDURING THROUGH HIGH SCHOOL AND BEYOND. CURRENTY, MY SIX CHILDREN ATTEND ~~MONTE CLAIRE~~ MONTCLAIR ~~AND~~ ELEMENTARY AND END UP IN BEAVERTON HIGH SCHOOL. AS THE NEW HS BOUNDARIES STAND, THAT SENSE OF COMMUNITY AND THOSE FRIENDSHIPS WILL BE "SEVERED" AT SUCH A CRUCIAL TIME IN A YOUNG PERSON'S LIFE. HALF OF THE MONTCLAIR STUDENTS END UP AT SOUTHRIDGE WHILE THE REMAINDER GO TO BEAVERTON. IS THERE ANY WAY TO KEEP THE ELEMENTARY SCHOOLS FEEDING INTO A SINGLE HIGH SCHOOL? IT WOULD SERVE AS A GREAT STRENGTH TO THE COMMUNITY OF THE HIGH SCHOOLS WHICH IS SO CRUCIAL, INSTEAD OF PIECING TOGETHER FRAGMENTS OF DIFFERENT SCHOOLS AND TRY TO THEN CREATE COMMUNITY.

Name: Margaret Sivertsen (leaving at 6:45 for Girl Scout Leader meeting)

Current High School: Beaverton HS

Boundary Comment: Our community at Raleigh Hills was established in the 1900s. Many of our families have chosen to live in our elementary school boundaries for the K-8 option and the Beaverton High School education. These same families could have afforded a private school education but chose our diverse community education to create more well rounded, caring, educated children and future adults.

The current boundary option splits our Raleigh Hills K-8 families between Southridge and Beaverton

→

High School. In fact our immediate neighborhood is divided by a park district trail (Fanno Creek (Vista Brook).) Three neighbors will go to Beaverton 17 to Southridge. Who would choose this as a school boundary? Splitting the small community within our small K-8 school.

As for the safety and expense of transporting our children through school ferry traffic ~~with~~ to Southridge High School. You need to consider the bottom line in our school district budget. Our Raleigh Hills volunteer base would be an asset to any High School, but hours served decline as children reach their later years. Dividing our parent base is not going to benefit the Southridge community [illegible] children who already attending Beaverton.

Current High School: Beaverton HS

Boundary Comment: (1) I feel strongly that elementary school populations should feed into the same high school. As young children they make friends + create traditions. To be split apart at high school to attend a rival school will be difficult. This boundary change splits Raleigh Hills K-8, already one of the smallest elementary & middle schools in the district. Being divided by this boundary will dilute the Raleigh Hills community, which is strong & provides significant support to students, teachers & schools.

(2) Transportation is a big concern to me. West TV students now slated for BHS must traverse freeways + roads that are already gridlocked. Similarly, Raleigh Hills students & others that are north of Hall Blvd will face significant traffic jams at Hall/Scholls Fy & Hall/Greenway. Oregon DOT (or City of Beaverton) can provide level of service measures showing how these routes are failing during peak hours. As a professional engineer in transportation I can also speak to the transportation issues in this area.

(3) Please take a specific look at the new boundary between BHS + Southridge, just south of Scholls Ferry & 90th Ave. The boundary is along Fanno Creek Trail and effictively splits our subdivision so that 3 out of 17 kids will go to BHS & the rest to Southridge. Boundary lines should be along arterials, not trails and should strongly consider subdivisi lines. They should consider access to neighborhoods as well. In the vicinity of Scholls/90th the Vista Brook subdivision accesses Scholls Ferry and therefore should be assigned to the north of the boundary to BHS. Other subdivisions (south of Garden Home) access Garden Home and should be assigned to Southridge. This will – or should – help with bus routing.
