Questions?

Do you have any questions about the proposed draft master plan?

The Early Childhood Garden is really the face of the school since it's at the corner. It should look really nice and welcoming.

Shade over play structures would be preferrable.

I think the parking lot plans are smart.

Try to keep the nice big trees outside the Kindergarten hallway.

Trees inside the campus among the classrooms would be great.

Library should be central to classrooms

Is MPR big enough for all the students coming from new residential development?

With the black top being close to the neighborhoodhood fence, you might get a lot of balls over the fence. But not a big deal.

Unlocked gates outside school hours would be great for the neighborhood.

Think about:

What are your overall thoughts on the organization of the campus?
- What works?
- What could be improved?
- Does parking/drop off and circulation work?

Looks good. My kids are asking for a bathroom upgrade

Are there any program spaces (indoor or outdoor) that you feel are missing from the master plan?

Do the proposed spaces have the correct adjacencies?
- Are there any spaces that should be together but are not?

Questions?

Do you have any questions about the proposed draft master plan?

Other schools are able to do lots of trees. Bracher can too.

My daughter says, "More shade, more big trees!"

Is it possible to have trees between the wings in the outdoor learning spaces?

Is there a new space for the teachers lounge?

SEPARATE INTO THREE SPACES?

Can Stem/Music/Art really co-exist? Don't they have dedicated equipment that needs to be set up?
