Appendix 12

BOE Agenda Item Executive Summary
Date: January 22, 2023

Topic: Nonviolent Crisis Intervention (NCI) - Team Control Training

Background Information (History, Rationale, etc): The Crisis Prevention Institute (CPI) provides training in Nonviolent Crisis Intervention (NCI) to comply with BOE Policy 5116 – Emergency Safety Interventions. Our district elected to have additional staff become certified as trainers in NCI this year. CPI started using a new edition of this training in 2023, which removed the Team Control hold from the basic course and added it into the advanced course. CPI is willing to permit our trainers (both new trainers and those certified prior to the updated course) to continue to teach this hold and have access to the video library through the stipulations in the permissions letter that accompanies this document.
