Appendix 8

BOE Agenda Item Executive Summary
Date: March 4, 2024

Topic: EverDriven

Background Information: Wichita Public Schools entered into an initial agreement with EverDriven in November 2021. EverDriven successfully provided up to ten round-trip student transportation trips per day throughout the 2021-22 school year. In 2022-23, that grew to more than 140 unique passengers per week to more than 20 unique sites. EverDriven coordinates high-quality, safe, student transportation in small-capacity vehicles. Wichita Public Schools has increased contracted services with EverDriven around Career and Technical Education student trips, trips for students with individual education plans (IEPs), McKinney-Vento students, and students who receive transportation under the ESSA act, among other hard-to-serve student trips.
