School Improvement / School Action Plan

Our strategic action plan goals during the 2017-18 school year were focused on growth for every student in writing and increasing student feelings of connection to school and positive relationships:

Writing Goal

Our writing goal was for minimum annual academic growth of one year for students at/above grade level, and more than one year of growth for students below grade level. The strategies and actions we took to support growth for our students included:

- All teachers taught Writing Workshop 4 times per week.
- Teachers developed yearlong writing plans with their grade level teams to include when Narrative, Informational and Opinion units would be taught during the year.
- Teachers administered common assessments: pre and post assessments for Narrative, Informational and Opinion.
- Teachers collaborated to analyze assessments and student work. They used trends to set goals and plan instruction. Teachers addressed the needs that emerged through analysis of student work, and responded with whole group, small group, and 1:1 conferring instruction.
