Daniel N. Clemens, Ed.D., Superintendent of Schools

June 1, 2022

District Patrons, Families and Colleagues,

The 2021-22 school year was transformational for NKC Schools. We are grateful for tremendous community support that was displayed with passage of our $140 million bond and $0.20 levy transfer. This bond will propel the Ten-year Facilities Plan forward by improving aging facilities and helping manage growth. The levy will allow for much-needed additional staff who will meet the needs of our growing student population. We will also be well-equipped to keep our salaries competitive and cover increasing health insurance costs – one of the greatest stressors to our budget on an annual basis.

While I'm thrilled about all the future holds for our students and families, I'm also reflective on all that has been accomplished over the last couple of years! NKC Schools has kept all promises made to our community as part of the 2020 bond campaign. During this fiscal year, $155 million in projects and funds will come to a close. The start of school this August will bring the opening of two major rebuilds: Maplewood and Davidson Elementary Schools! Additionally, many other remodels and deferred maintenance projects are complete, including our two new stadiums, additions to Oak Park and Staley, with remodels at Winnetonka and within multiple schools that feed our four high schools.

This past school year, our community and staff also came together in creating a new Five-Year Strategic Plan which recently gained Board approval. Hundreds of stakeholders provided input towards aspirational goals intended to result in cutting-edge opportunities for our staff and students. Many of the new strategies in this plan will require additional resources. A strong fund balance will bring these hopes and dreams to reality, ensuring that North Kansas City Schools fulfills its mission of serving as relentless champions for all students.

Per my superintendent goals established by the Board of Education, the technology department went through an in-depth security audit this past year. The results of the audit will undoubtably require additional resources to update equipment and keep our network safe. In addition, this budget addresses new iPads for our Pre-K through eighth grade students, along with MacBook Pros for our high school students. This expenditure is much needed as our existing computers sustained significant use and wear during the pandemic. To ensure students and teachers both have the resources needed for the future-ready learning experiences we pledge to provide, the budget allows all computers to be replaced for use in the coming school year.

We must maintain wise fiscal management in the years to come with a strong fund balance that weathers an unstable economic environment. The budget that follows will strongly support our 21,000 learners and 3500 employees. It is important to thank our community, Board of Education, Finance Department, Operations Department, Collaborative Team for Teacher Negotiations, and many others who help us create a safe, competitive workplace that can best serve our students and families.

Sincerely,

Daniel N. Clemens, Ed.D.
Superintendent

2022-2023 Budget Proposal
Executive Summary

By Matthew Fritz, MBA, SFO – Chief Financial Officer

The following budget represents the financial plan of the North Kansas City School District for the 2022-23 fiscal year. The primary purpose is to provide timely and useful information concerning the past, present and projected financial status of the district as well as to facilitate financial discussions that support the District's strategic plan.

The budget is designed to meet the expectations of the Board of Education and the strategic initiatives of the District while maintaining fiscal responsibility. It provides the funding to attract and retain an outstanding employee workforce, add 386 new PK-12 students, rebuild and renovate existing buildings and to provide required operating funds to sustain our existing campuses.

REVENUE PROJECTIONS:
The district's main sources of revenue are derived from:

- **Local Tax Revenue** (Local property taxes based on assessed valuation and tax levy)
- **State Tax Revenue** (State aid based on the State foundation formula)
- **Proposition "C" Sales Tax Revenue**
- **Sale of Bonds** (General obligation bonds for capital improvements)

Local Tax Revenue:
The District's local tax revenue is derived from the local tax rate, set by the District's Board of Education, and levied against the total assessed valuation of property within the District's boundaries as assessed by the County assessors of Clay and Platte counties. The total estimated taxable assessed valuation included in this budget is $2,938,041,816, an increase from the adjusted prior year of $134.6 million, or 4.8%. The increase is due to projected increases in new construction and new personal property within District boundaries. The County Assessors re-assesses property values every two years as required by Missouri law. Calendar year 2022 is a non-reassessment year.

The Board of Education is required to set the tax rates, by fund, each year. The tax rate calculation is prescribed by the Missouri State Auditor's office and takes into consideration the current and prior year assessed valuations, the year-over-year change in the Consumer Price Index (CPI), the prior year tax rate ceiling, and applicable voter approved tax rate increases. The change in the CPI for the period ending December 2021 was 7.0%, the largest 12 months increase in almost 40 years. The North Kansas City Schools community overwhelmingly voted to approve a $0.20 operating levy increase in the current year and the District must file the new tax rate with the County Clerk's in both Clay and Platte

counties by October 1, 2022. The estimated tax rate calculated and used in this budget is as follows:

* - Current estimate does not include a potential roll-back

Current local tax revenues, based on a collection rate of 96.2%, are budgeted at $160.2 million, an increase of $7.3 million or 4.8% compared to the prior year budget. The projected change in revenue is due to mainly to new construction.

State Tax Revenue:
The District's state tax revenue is derived from the Missouri State Foundation Formula. The formula utilizes the District's Weighted Average Daily Attendance (WADA), the State Adequacy Target (SAT), and other factors to derive the amount of state funding the District will receive. Current state tax revenues are budgeted at $66.9 million, a slight decrease of $0.5 million or 0.7% over the prior year budget. The slight decrease is mainly due to the lower than expected increases in enrollment.

Proposition "C" Sales Tax Revenue:
Sales tax, or Prop "C" allocation is projected to increase from $1,213 to $1,225 per weighted average daily attendance (WADA), an expected increase of $3.8 million or 17.4% over the prior year budget. The Proposition "C" sales tax revenues fluctuate based upon the overall state economy. While the prior year budget included a $1,047 per WADA amount the sales tax figures have come in higher and the District expects the final per WADA amount to be closer to $1,213 for FY2022.

Sale of Bonds:
On April 5, 2022 the voters of the North Kansas City School District approved a resolution to issue $140 million in bonds in order to build new and update aging facilities, many of which are more than 60 years old, to provide facility equity across the district, to provide a place for Pre-K learners, and to perform facility maintenance to ensure safety and security for all students. The District expects to issue these bonds during fiscal year 2023. Construction has started on some of these projects and is expected to continue through the 2024-2025 budget year.

EXPENDITURE PROJECTIONS:
The district's largest expenditure categories are:

- **Salaries**
- **Benefits**
- **Purchased Services**
- **Materials and Supplies**
- **Capital Outlay**

Salaries:
Salaries and employee benefits make up approximately $242.9 million or 72.6% of the operating budget. New salary schedules for the 2022-23 fiscal year for teachers and classified staff were approved by the Board of Education in April 2022. Teachers were able to advance on the schedules based upon their educational degree hours and years of service to achieve an average 5.5% increase. The Teachers schedule includes a starting teacher salary of $42,500, a midpoint (Masters Step 10) salary of $58,500 and a top end salary of $87,500. The District's goal is for the teacher's salary schedule to be at the median of the upper 1/3 when comparing to area school districts, and the District was able to exceed this goal in all three benchmarks resulting in an average 5.5% increase to the teacher's salary schedule. Classified staff members were able to advance on the schedules based upon their years of service to achieve an average 5.0% increase and the District minimum wage has been increased to $15.00/hour.

Benefits:
The District contracted with Blue Cross Blue Shield of Kansas City to provide three health care plans for District staff and their families. These three plans resulted in an increase of approximately 8.9% in total premiums for fiscal year 2023. The District is currently operating under a twelve-month contract with Aetna that extends through June 30, 2022.

The Public School Retirement System (PSRS) contribution rate for certified teachers is set to remain at 14.5%, and the Public Education Employees Retirement System (PEERS) for classified staff is set to remain at 6.86%. Employees must work 17 or more hours per week on a regular basis to be members of PSRS and 20 hours or more to be members of PEERS.

Purchased Services:
Property, liability, and workers' compensation insurance premiums, account for a large portion of the District's purchased services. The District is currently evaluating the liability coverage with a broker for policies renewing on October 1, 2022. The overall Purchased Service category accounts for $41.5 million or 12.4% of the total operating budget.

Materials Supplies and Equipment:
Materials, supplies and equipment account for $24.1 million or 7.2% of the total operating budget. Materials, supplies and equipment are budgeted at the school building level and by department and are allocated on a per pupil basis at the Elementary, Middle and High School level. Departments submitted their budget proposals based upon projected needs.

Capital Outlay:
An allocation of $25.8 million or 7.7% of the total operating budget has been placed in the Capital Outlay budget. State accounting guidelines require any expenditure for tangible items costing $1,000 or more, with a useful life of at least one year, to be accounted for in this fund. Therefore, all instructional equipment, school bus replacements, technology equipment, as well as facility preventative maintenance are accounted for in this category.

In addition, the district will continue spending down the bond proceeds approved by District patrons in June 2020 as well as begin to spend bonds approved in April 2022 to complete scheduled renovations at several buildings throughout the District and to further execute the long range facility plan. Expenditures of bond monies are budgeted for up to $159.1 million for 2022-23.

THE BUDGET PROCESS

The school budget is an instrument which provides a definite financial policy for the direction of business operations of the District. It provides an outline of the probable expenditures and the anticipated receipts during a specified period of time. The budget is one of the most important legal documents of a school district. It is not a static document but rather a working document that changes based on approved budget amendments throughout the year as actual financial data changes.

FINANCIAL MANAGEMENT

The Board of Education adopted a series of policies that provide direction regarding the district's budget and financial affairs that reflect the educational philosophy of the District and provide a framework in which the district's administration can effectively operate.

The budget and finance process conforms to all state and local requirements as set forth by the state constitution, state statutes, the DESE rules, and Board policies.

Good business practices necessitate keeping accurate, legal and understandable records of receipts and expenditures. It also is essential that procedures be followed to help ensure that the budget adopted by the Board of Education is effective in providing parameters for the fiscal affairs of the District.

The purpose of the district's budget and finance policies is to provide direction for a systematic process that maintains continuity from year to year and inform the public regarding the education and financial operations of the District.

PREPARATION OF BUDGET

Each year, the Superintendent of Schools is required to submit to the Board of Education for its consideration a detailed annual budget showing the estimates of income and expenditures for the ensuing fiscal year. The Board may accept, reject, modify, or request revisions of the budget, but will adopt a budget by June 30, according to statutory provisions.

By law the approved estimated expenditures for each fund cannot exceed the estimated revenues to be received plus the unencumbered beginning cash balance for the fund. After the beginning of the fiscal year, the Superintendent reviews with the Board the adopted budget in relationship to the beginning cash balances for each fund.

BUDGET IMPLEMENTATION AND TRANSFER

The annual budget governs the expenditures and obligations of all funds for the District. The Superintendent/designee establishes procedures for fund management and reporting.

No funds may be spent which are not authorized by the annual budget. If an unanticipated need arises, the Board may approve the Superintendent of Schools' recommendation to (1) appropriate an amount sufficient to cover the needed expenditure from unencumbered budget surplus, provided the appropriation can be made from the proper funds or (2) revise the budget so that sufficient funds may be available for the expenditure(s), if the expenditure(s) are approved by the Board.

The District, as approved by the Board, may transfer any unencumbered balance or portion thereof from the expenditure authorization of one account to another, subject to limitations of state statutes and DESE regulations. The Superintendent establishes regulations and prescribes written procedures and forms for line-item transfers of appropriations or personnel in compliance with state law so as to provide an audit trail of all such activities.

The Chief Financial Officer prepares a monthly statement to account for each month's expenditures and the total expended to date for the fiscal year. The monthly statement includes all receipts and remaining balances for each fund account.

BUDGETED REVENUE

Local Tax Sources

In the process of preparing the annual budget, the Chief Financial Officer estimates the amount of actual local tax revenue anticipated to be raised, the rate required to produce the amount, and the rate needed to support the principal and interest payment on bonded indebtedness and general financial obligations of the District. The Superintendent recommends the appropriate tax rate to the Board of Education for approval.

If required, the Board submits to the voters a proposition for increase in the tax rate beyond the current approved level if it is deemed necessary to obtain increased revenue to meet projected District expenses. State law and Article X, Section 11C of the Missouri Constitution governs tax election procedures.

State Tax Sources

All state funds are accepted for the operation of the District as provided by entitlement, by law and through regulations of the Missouri State Board of Education of Missouri Department of Elementary and Secondary Education.

The Superintendent or Chief Financial Officer is responsible for filing all required reports and forms to obtain state funds in which the District is entitled to receive according to developed rules and regulations.

BUDGET DEVELOPMENT

Developing the annual budget for the District involves all stakeholders within the community. Input is given from the Board of Education, district administration, building administration, school staff and the general public. The process is separated into four segments: planning, preparations, adoption, and implementation. There are two objectives driving the budget process. First, the goal of the District is to provide each student with a quality education. Second, the District focuses its resources in the most efficient and effective way to support the first objective. The annual budget creates a detailed analysis of the District's revenues and expenditures and allows the administration to focus its financial resources in a manner that best supports student learning.

BUDGET PLANNING

The planning process begins in the fall of the prior school year. A calendar is developed to outline the main activities and deadlines during the budget process. The calendar is used to gauge the district's progress toward adopting a budget for the next fiscal year.

BUDGET PREPARATION

Preparation of the annual budget begins in early January as the district administration holds an initial meeting with the budget administrators within the District. A User's Guide with budget parameters is distributed with completion information, and direction is given on any updated information on the budget collection system. The District created a worksheet that assists in the budget collection system. It allows the district administration detailed information on budget requests and allows the users to provide needs assessments on all proposed budget items.

In late February / March, the district administration meets with each budget administrator on their proposed budgets, clarifying any questions concerning items entered into the worksheet. Staffing levels are also reviewed and Board approval is requested. These two steps assist in finalizing the preliminary budget.

BUDGET ADOPTION

The preliminary budget parameters are developed by the Board of Education during their workshop in January. The Board reviews the budget and workshops are held to clarify any questions concerning the budget. The Board may request modifications of the preliminary budget during these meetings or at any time prior to adopting the budget. Final adoption occurs by June 30th.

BUDGET IMPLEMENTATION

Upon approval of the budget, the Financial Department uploads the new budget into the financial software system and the budget is available to use during the next fiscal year. The budget is also posted on the district's website in an effort to provide transparency and education to the budget process.

CAPITAL PROJECTS DEVELOPMENT PROCESS

The capital projects planning process begins with the building administrators and their assessment of the building needs. Administrators and staff are surveyed periodically as to the condition of the site, building envelope, interior, mechanical systems, electrical systems, fire and safety systems, equipment, and ADA compliance requirements relevant to their respective building. In addition, work requests can be submitted by building principals to Human Resources.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

North Kansas City School District was established under the Statutes of the State of Missouri. The District operates as a "seven director" district (with seven members of the Board of Education) as described in RSMo Chapters 160 and 162.

A. Fund Accounting

The accounts of the District are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund or account group are summarized by providing a separate set of self-balancing accounts that include the assets, liabilities, and fund balances arising from revenues and expenditures. The following funds and groups of accounts are used by the District: General Fund, Special Revenue Fund, Capital Project Fund, and Debt Service Fund.

B. Basis of Accounting

The measurement focus and basis of accounting determine the accounting and financial reporting treatment applied to a fund. The District's policy is to operate its financial statements on the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become both measurable and available. The District considers available to mean collectable within thirty days after the end of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmeasured interest on general long-term debt, which is recognized when due.

C. Budgets and Budgetary Accounting

The District follows the procedures in establishing the budgetary data reflected in the financial statements:

1) In accordance with Chapter 67, RSMo, the District adopts a budget for each fund of the political subdivision.
2) Prior to July, the Chief Financial Officer, who serves as the budget officer, submits to the Board of Education a proposed modified accrual basis budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all district funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
3) A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
4) In June, the budget is legally enacted by a vote of the Board of Education.
5) Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the general-purpose financial statements. Budgeted amounts are as finally amended by the Board of Education.

D. Property Taxes and Other Receivables

Property tax revenue is recognized in the fiscal year levied and available. Sales tax revenue is recognized when collected and available. Property tax and sales tax revenues are considered available when due or past due and receivable within the current period and collected within the current period or within sixty days after year-end.

Federal and State grant aid is considered revenue when the granting agency or authority has approved the reimbursement expenditure.

E. Post-Employment Benefits

COBRA Benefits – Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. This program is offered for the duration of 18 months after the termination date. There is no associated cost to the District under this program.

F. Inventories

Inventories are valued at cost and consist of purchased food, supplies and donated government commodities. The cost is recorded as expenditure at the time the inventory is purchased. Reporting inventories are equally offset by a fund balance reserve, which indicates they are unavailable for appropriation.

G. Teacher Salaries

The salary payment schedule of the District requires the payment of salaries over a twelve-month period. Consequently, payroll checks are included in accrued wages on the general-purpose financial statements. This practice has been consistently followed in previous years.

2. CASH AND TEMPORARY INVESTMENTS

The District maintains a cash and temporary investment pool that is available for use by all funds except the Debt Service Fund. (State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District.) Each fund type's portion of this pool is displayed on the combined statement of assets, liabilities and fund equity as "Cash and Equivalents" under each fund's caption. Investments of the pooled accounts consist primarily of repurchase agreements, carried at cost, which approximates market. Interest income, when earned, is allocated to individual funds based upon cash and temporary balances.

A. Deposits – Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. The District's deposits are categorized to give an indication of the level of risk assumed by the District at year-end. Category 1 includes deposits that are insured or collateralized with securities held by the District or by its agent in the District's name. Category 2 includes deposits collateralized with securities help by the pledging financial institution's trust department or agent in the District's name. Category 3 includes any remaining deposits that are uncollateralized. This includes any bank balance that is collateralized with securities held by the pledging financial, or by its trust department or agent, but not in the district's name.

B. Investments – The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than five years from date of purchase or (2) repurchase agreements maturing and becoming payable within ninety days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity; as provided by law.

3. **TAXES**

Property taxes attach as an enforceable lien on property as of January 1. Taxes bills are mailed by the County Collector's office, typically in the month of November. All unpaid taxes become delinquent January 1 of the following year. The County collects the property taxes and remits them to the District on a monthly basis.

4. **CHANGES IN LONG-TERM DEBT**

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a district to fifteen percent of the assessed valuation of a district (including state-assessed railroad and utilities).

5. **PENSION PLANS**

The North Kansas City School District contributes to the Public School Retirement System of Missouri (PSRS), a cost-sharing, multiple-employer, defined benefit pension plan. PSRS provides retirement and disability benefits to certificated employees and death benefits to members and beneficiaries. Positions covered by the Public School Retirement System are not covered by Social Security. PSRS benefit provisions are set forth in Chapter 169-010-.141 of the Missouri Revised Statutes.

PSRS members are required to contribute 14.5% of their annual covered salary and the North Kansas City School District is required to contribute a matching amount. The contribution requirements of members and the North Kansas City School District are established and may be amended by the PSRS Board of Trustees.

The North Kansas City School District also contributes to the Public Education Employee Retirement System (PEERS), formerly known as the Non-Teacher School Employee Retirement System of Missouri (NTRS), a cost-sharing, multiple-employer, defined benefit pension plan. PEERS provides retirement and disability benefits to employees of the District who work 20 or more hours per week and who do not contribute to the Public School Retirement System of Missouri. Certain part-time certified employees may be covered by this plan. Benefit provisions are set forth in Chapter 169.600-.715 of the Missouri Revised Statutes.

PEERS members are required to contribute 6.86% of their annual covered salary and the North Kansas City School District is required to contribute a matching amount. The contribution requirements of members and the North Kansas City School District are established and may be amended by the Board of Trustees.

6. **DEFERRED COMPENSATION PLAN**

The District offers its employees a choice of deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457(b). The plans are available to all district employees permits them to defer a portion of their salary until future years.

Under the 403(b) and 457(b) plans, all amounts of compensation deferred, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are (until paid or made available to the employee or other beneficiary) solely the property of the employee. All amounts being deferred are required to be held in a tax-exempt trust or custodial account of annuity contract.

7. **MEDICAL BENEFITS**

The District offers health, vision and dental insurance benefits to participating employees and their families. The participating employee cover costs associated with family through payroll deductions based on their coverage election. The District's maximum liability for each employee and in the aggregate for a one-year period is limited by insurance coverage specifications.

8. **INSURANCE PROGRAM**

The District, like other local large metropolitan school districts, participates with independent carriers on insurance coverage for workers' compensation, general liability and property casualty insurance.

9. **CONTINGENCIES**

Litigation – Should any claims and lawsuits be filed against the District, it is the opinion of District management that the potential loss on all claims and lawsuits will not be significant to the district's financial statements taken as a whole and most, if not all, will be covered by the district's Errors and Omissions Insurance Policies.

BOARD OF EDUCATION POLICIES

Fiscal Year

The fiscal year is defined as beginning annually on the first day of July and ending on the thirtieth day of June following.

The district Treasurer shall not draw any check or issue any order for payment that is in excess of the income and unencumbered fund balances of the school district for the fiscal year beginning on the first day of July and ending on the thirtieth day of June following.

Budget Adoption Procedures

The Superintendent, working with the staff, shall prepare a tentative budget for the next fiscal year. This budget must be ready for Board consideration at a regular Board meeting specified by the Board. The Board may revise the items contained therein.

The Superintendent will present a proposed budget to the Board at a regular or special Board meeting before the new fiscal year begins. The Board will conduct at least one public hearing in regard to the proposed budget and taxation rate.

Purchasing Authority

The Board of Education annually adopts the budget for the school district. The adopted budget shall be the guide for the Superintendent to follow in making school purchases. The Superintendent shall have supervision of school purchasing and shall be authorized to issue purchase orders not to exceed budget limitations. Bids may also be called on purchases where, in the opinion of the Superintendent, the welfare of the schools will be served.

Budget Implementation

The adopted budget of the North Kansas City School District serves as a guide to direct and limit expenditures in the district. Overall responsibility for assuring control rests with the Superintendent, who will establish procedures for budget control and reporting throughout the district.

The total amounts, which may be expended during the fiscal year for the operating of the school district, are set forth in the budget. The total budgeted expenditure for each program is the maximum amount that may be expended for that classification of expenditures during the school year, unless a budget transfer is recommended by the Superintendent and is approved by the Board.

In cases where a proposed expenditure has not been included in the adopted budget, no action shall be taken until the Superintendent informs the Board of the need for the expenditures(s). Thereafter, the Board may follow one of two plans:

- It may appropriate an amount sufficient to take care of the needed expenditure from the unencumbered budget surplus (fund balance), provided the appropriation and expenditure can be made from the proper funds.

- The Board of Education may instruct the Superintendent to revise the budget in order that sufficient funds may be available for the expenditure(s), if the expenditures(s) are approved by the Board.

The Board will review the financial condition of the District monthly and shall require the Superintendent to prepare a monthly reconciliation statement. The statement will show the amount expended during the month, total (to date) for the fiscal year, receipts, and remaining balances. This statement will be used as a guide for projected purchasing and as a guide for budget transfers.

Budget Transfer Authority

During the budget year, the Superintendent may transfer any unencumbered balance or portion thereof, from the expenditure authorization of one account to another, subject to limitations provided by state laws and approval of the Board.

Revenues from Investment/Use of Surplus Funds

The Board authorizes the Treasurer to invest surplus school district moneys, which are determined to not being immediately needed for the operation of the school district. The Treasurer shall follow procedures established by the Board in making investments and obtaining the best interest rates possible.

Future investments may be made only in those instruments approved by, and in a method in conformity with state law including any instrument permitted by law for the investment of state moneys according to Senate Bill 581, which became effective August 28, 1992. All investment earnings shall be credited to the fund from which investments were made.

Depository of Funds

Selection of depositories may be made by bid selection in accordance with state statues. The Board of Education may receive bid proposals from banking institutions operating within the county in which the district is located or an adjoining county.

If bids are solicited, the Board shall open the bids in a public meeting, select from among the bidders those bids which will be accepted and notify each of those bidders so selected. The Board may reject any or all of the bids.

Each depository selected shall, within ten days after its selection, post securities in accordance with Sections 110.010-.020, RSMo.

FUNDS AND DEFINITIONS

The District separates its monies based on requirements from the Department of Elementary and Secondary Education (DESE). In addition, there are several significant expenses the District chooses to separate to make sure financial discipline is maintained and accounting standards are met. The District currently has six separate funds. The following funds are required by DESE: General (Incidental), Teachers, Capital Projects, and Debt Service. Along with these required governmental funds, the District maintains the following separate funds: Food Service and Student Activities. The following terms and descriptions are to assist the reader in understanding the District's funds.

General (Incidental) Fund: This fund is the general operating fund of the District and accounts for expenditures for noncertified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program, and any expenditure not required or permitted to be accounted for in other funds.

- **Food Service Fund:** The fund used to account for all revenues and expenditures related to the provision of school food services by the District to students and staff. This fund is a subset of the General (Incidental) Fund.

- **Student Activity Fund:** The fund used to account for money raised by the students for the students. The purpose of raising and expending activity money is to promote the general welfare, education, and morale of all the students and to finance approved extracurricular and co-curricular activities of student body organizations. This fund is a subset of the General (Incidental) Fund.

Teachers' (Special Revenue) Fund: A special revenue fund account for revenues derived from specific taxes or other earmarked revenue sources. The Special Revenue Fund accounts for expenditures for certified employees involved in administration and instruction and includes revenues restricted by the state and local tax levy allocations for the payment of teacher salaries and certain benefits.

Capital Projects Fund: This fund is used to account for the proceeds of long-term debt, taxes and other revenues restricted for acquisition or construction of major capital assets.

Debt Service Fund: This fund is used to account for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on long-term debt.

CLASSIFICATION OF REVENUE AND EXPENDITURES

The Department of Elementary and Secondary Education (DESE) adopted a system of accounting for the classification of revenues and expenditures based on generally accepted accounting principles (GAAP). DESE requires revenues and expenditures be classified by a combination of fund and object, and expenses are classified by fund, object, and function. Revenue Code 5113: One-Cent sales tax collection distributed by the State on the basis of a weighted count of average daily attendance (WADA), one-half of which is to be used for property tax rate rollback. Prior to the 2006-2007 fiscal year, it was distributed on an Eligible Pupil basis.

State of Missouri – K-12 Education Foundation Formula

In 2005, the Missouri Sate Legislature passed a new funding formula for public education. The formula changed from a tax-rate driven formula under Senate Bill 380 to a student needs based formula under Senate Bill 287. The formula was phased-in over 7 years. Funding for the formula is dependent upon appropriations from the Missouri General Legislative Assembly and final approval by the Governor. If there is any shortfall in fully funding the formula due to economic conditions, the State Adequacy Target will be prorated.

- New State Formula – SB 287

- Weighted Average Daily Attendance
- X State Adequacy Target
- X Dollar Value Modifier
- - Less Local Effort
- = State Funding

Definition

If the school or LEA delivered instruction virtually to a large percentage of students during the 2020-21 school year, proportional attendance rates may rise due to the statutory definition of attendance for virtual classes (Section 162.1250, Missouri's virtual education law). All students who complete virtual coursework meet the 90% attendance threshold to be counted in this metric. In many other schools or LEAs, proportional attendance rates may decrease due to COVID isolation and quarantine protocols.

(20) Missouri Assessment Program (MAP) Results

(Data as of 11/27/2021)

On March 19, 2020, in response to the COVID-19 pandemic, the Department of Elementary and Secondary Education (DESE) announced the spring 2020 Missouri Assessment Program (MAP) assessments would not be administered, including Grade-Level (GLA), End-of-Course (EOC) and Missouri Assessment Program-Alternate (MAP-A) exams. Assessment data is not available for the 2020 school year.

Assessment results for 2017, 2018 and 2019 in the content areas of English Language Arts, Mathematics and Science for grades 3-8 and End-of-Course (EOC) assessments in English II (E2) and Algebra I (A1) are not comparable to prior year data. The assessments have been aligned to the new standards. The State Board of Education took action to suspend the use of 2021 assessment results from state and federal accountability due to COVID-19. Missouri School Improvement Program (MSIP) will not use these assessment results for school district accreditation. These assessment results are not comparable to prior year assessment data.

There is no limit to the amount of unrestricted monies that can be transferred pursuant to this law. Districts must make the actual transfer prior to the end of the fiscal year. Districts should consider the future needs of the Capital Projects Fund prior to determining the amount of such transfer. There is no provision in state law to reverse the transfer if a district later determines the money is needed in the Capital Projects Fund. Section 165.011, RSMo.

Capitalize - Recording capital outlays as additions to asset accounts, not as expenses.

Crossover Refunding - A bond refunding where the proceeds of the new bond issue are placed into an escrow account. Unlike defeased bonds, the escrow account pays only the interest payments on the new issue and the district continues to make all of the payments on the old issue until the optional call date of the old bonds. This date is often referred to as the crossover date. Under this type of refunding, the payments to be made by the district will not change until the crossover date.

Current Expense - Any expenditure except for capital outlay and debt service. Current expense includes total charges incurred, whether paid or unpaid.

If the district elects not to make this transfer, the balance would be left in the Debt Service Fund for subsequent debt service requirements. Section 165.011, RSMo.

Defeased Refunding - A type of debt refunding in which the proceeds of the new issue are placed into an escrow account and used to pay all of the portion of the old issue being refunded (principal and interest) up to and including the call date. This results in a defeasance of the portion of the debt being refunded as the old issue becomes the responsibility of the escrow account trustee and the district begins paying on the new issue immediately.

Deferred Charges - Expenditures that are not chargeable to the fiscal period in which made but are carried on the asset side of the balance sheet pending amortization or other disposition. Deferred charges differ from prepaid expenses in that they usually extend over a long period of time and may or may not be regularly recurring costs of operation.

Equalized Assessed Valuation - Statutory term representing the district assessed valuation used on Line 2 of the Basic Formula Calculation.

Equipment - Items that are electrical or mechanical in nature or furniture and 1) have a useful life of at least one year; 2) would be repaired rather than replaced; 3) the cost of tagging and inventory is a small percent of the item's cost; and 4) exceeds $1,000 per unit (local board may establish a cost threshold of less than $1,000). Certain operating system software meeting the unit cost of $1,000 may be capitalized in the same manner as equipment.

Excess Incidental Fund Balance Transfer - Any district that uses a General (Incidental) Fund transfer to pay for more than twenty-five percent of the annual certificated compensation obligation of the district and has a General (Incidental) Fund balance on June 30 in any year in excess of fifty percent of the combined General (Incidental) and Special Revenue (Teachers) Fund expenditures for the fiscal year just ended shall be required to transfer the excess from the General (Incidental) Fund to the Special Revenue (Teachers) Fund. Includes sheriff's sales, unclaimed tax and surplus/overplus surtax. The amount received for school purposes is a deduction in the Basic Formula calculation.

Fiscal Agent - The district or intermediate agency designated to submit applications/requests for funds and is the recipient of such funds from the state agency. Fiscal agents generally operate by receiving the revenue for all districts they serve and sending each district its share to treat as revenue and expenditures as their own, or by receiving all bills from the other districts. The fiscal agent then handles the revenue and expenditures as its own. If this causes the fiscal agent to be out of compliance for certificated salaries purposes, an appeal must be written and submitted to the Department.

(Desegregation students are considered residents of the district in which the students are educated.) Students for whom the Department does not distribute state aid are not counted (i.e., students in preschool, the Parents as Teachers Program, state schools). This count, by definition, is also different from the federal programs headcount of free and reduced lunch students.
