Dear Parents and Guardians,

We want to keep our families informed about recent changes regarding school materials and fees.

As a public school, we cannot—and will not—charge for textbooks or materials required for core instruction. These essential items are fully funded through our Education Fund.

However, new state legislation now allows schools to charge *supplemental fees* for optional materials that enhance learning but aren't required. These may include items like workbooks, consumable supplies, or enrichment materials.

While we do plan to implement these fees, our goal is to keep them as low as possible to reduce the financial impact on families. Thank you for your continued support as we strive to provide students with meaningful, high-quality learning experiences. Listed below are fees for the 2025-2026 school year. Fees can be paid on the day of registration with cash, check, or online using a credit card in your Skyward account.

Kindergarten – 5th-grade STEM	$5 per year
Grades 6-12 Optional Chromebook insurance	$23.33 per year
