Subject: Pathway Changes

Instructional Affairs Council,

At our last meeting, Ms. Latham requested that we consider the issue of midsemester pathway changes relative to who should have the authority to make changes. Presently, a change to a student's pathway causes financial aid to manually repackage aid. The desire is to limit pathway changes to only registration periods and severely limit access to this authority during the semester. The request is that the IAC approve the following:

"Instructor authority to adjust a student's pathway will be open during registration, but will be closed immediately following late registration. Any pathway change requests after late registration will be managed by the ARC or the appropriate associate VP or dean."

If you approve of this policy, please indicate so by voting "YEA." If opposed – "NAY"

Thank you!

Matthew
