Greenwood, IN (February 28, 2013)—The Center Grove Community School Corporation Board of School Trustees toured four schools and Center Grove High School's Alternative Academy on Thursday. Board members spoke with administrators and teachers about how the buildings operate and learned more about the plans for academic growth in the schools.

The board also took note of areas where construction is planned to improve safety, security, and learning environments during the upcoming $42 million construction project. The construction project will create secure entries in all school buildings and address major educational effectiveness and capacity issues at North Grove Elementary, Center Grove Elementary and Center Grove High School.

"I appreciate the time the principals took to answer our questions," said Adam Norman, board secretary. "As a relatively new school board member, it helps me to see firsthand how the decisions we make are impacting our schools."

"A lot of great things are happening in our schools" said Carol Tumey, board vice president. "I am pleased to have the opportunity to tell our principals and teachers that we support them in the important work that they are doing every day."

Students escorted Tumey, Norman, board members Jack Russell and Rob Richards, and Superintendent Rich Arkanoff on tours of Center Grove High School, Center Grove High School's Alternative Academy, Center Grove Middle School Central, and Center Grove and Maple Grove Elementary Schools. Tours of the other four schools in the district were conducted in November.
