SLIDESMANIA.

Course selection can be a stressful time of year for both students and parents. We recognize this and hope that this guide will help you to better understand the process. Administration will place students in the appropriate level courses for English, Math, Science, and Social Studies. Students will just need to add their elective options. You will find links throughout this guide that will help you gain a better understanding of our course offerings. Take your time to explore all options. We encourage you to reach out to your counselor with any questions you may have. Counselors will be meeting with each student individually once they have added their elective courses to their request screen. The students will be able to request changes then.
