Appendix 10

BOE Agenda Item Executive Summary
May 24, 2021

Topic: LaB-AiDS Proven Science Programs, Cengage Learning, and BioZone – Secondary Science Curricular Resources

During the 2019-2020 school year, our Kansas State Standards for Science were updated. We have not adopted or purchased curricular resources for high school science courses since 2000. For our high school science courses, a committee of educators in WPS reviewed current resources available for purchase that will align with our updated standards. This committee recommended our district purchase the following materials to support our courses and programming.

Resources Include:
Course: Scientific Research
Company: LaB-AiDS Proven Science Programs

- Teacher Editions – one-time purchase
- Student Textbooks – one-time purchase
- Storage carts – one-time purchase
- Sets of materials for students – one-time purchase
- Teacher and Student access to online resources for 7 years
  Recommendation: Purchase not to exceed $170,000 (Quote: $157,414.70)

Course: Forensic Science
Company: Cengage Learning

- Teacher Editions – one-time purchase
- Student Textbooks – one-time purchase
- Teacher and Student access to online resources for 6 years
  Recommendation: Purchase not to exceed $50,000 (Quote: $38,718.00)

Course: Physical Science
Company: BioZone

- Teacher Editions – one-time purchase
- Student Textbooks – one-time purchase
- Teacher and Student access to online resources for 6 years
- Test Bank – one-time purchase
  Recommendation: Purchase not to exceed $160,000 (Quote: $140,263.73)
