Marking Period 3

Updates and Important Information

Half Way There

Well, we are already halfway through the school year. Time sure does fly when you're having fun. This is a good time during the year to reflect on your grades. Take a look at those report cards and if you are doing well in a class, continue to do what you are doing. It's working! If there is a class that you may not be doing so well in, this is the time to step up your game and use the resources we have to offer right here in the building. We are all here to help, so reach out if you need assistance.
