- Relax and be patient
- Trust the process
- Follow the process

PROCESS

FOLLOW THESE INSTRUCTIONS:

1. Apply a patchy application of grey/light makeup all over
2. Use black paint to shadow the following:
 - Eyes, under lip, sides and bottom of the nose, jaw line, temple, around the mouth, and under the jaw
3. Apply random patches of latex and let dry (don't get in your hair or eyes). OPTIONAL: Apply the latex wound
4. Peel away the latex partially
5. Use black to shadow the edges of the wounds
6. Apply blood to wounds OPTIONAL: Add blood to eyes
7. Use grey to shadow lips
8. Use black to stain teeth to appear decayed
9. Use blood around the mouth
