WIZ KIDZ SPARK

CODE, CREATE & DISCOVER!

This hands-on program blends robotics, coding, math and public speaking to spark creativity and critical thinking.

- 🤖 **Hands-On Robotics & Coding:** Students take their first steps into coding through fun, hands-on activities. They learn how simple coding blocks can bring displays, pictures, messages, buttons, and movement to life.
- 🔢 **Math in Motion:** Students explore patterns, numbers, counting, and sequencing through playful coding challenges that make math feel interactive and meaningful.
- 🔁 **Patterns & Coding Challenges:** Kids discover how to put simple instructions in the right order and create patterns that make their projects work. Each week introduces a new coding challenge and exciting feature to explore.
- 🤝 **Collaboration & Creative Problem-Solving:** Young learners work together, share ideas, experiment, and help solve challenges while discovering that there can be many creative ways to make something work.

After School Program

Oct 6th - Dec 1st | Tuesday | 2:05 pm - 3:05 pm

West Union Elementary School

Grades: 1 - 6 | Fee: $179
