NYS Data Warehouse Updates

Summary

Changes have been made throughout SchoolTool to correspond with NYSED reporting requirements. This includes updated assessment schedules and alternate phone number reporting in the Student Lite extract.

Alternate Phone Number

Field 61 was added to the Student Lite Data Warehouse extract. This field will report the rank 1 phone number associated with the Alternate Guardian name that is reported in Field 36. If the contact does not have any phone numbers, this field will be blank. If the phone number is different than the phone number reported in Field 36, it will be included. If the phone number is the same, the alternate contact's rank 2 phone number will be used instead. If there is no rank 2 phone number in this case, the field will be left blank.
