CHUFSD Student Achievement Data Report

Fall 2026

Grades 3-8 ELA

All data sourced from NYSED Data dashboard

Grades 3-8 ELA Takeaways

Noticings/Strengths

- Trajectory mirrors Statewide patterns over the last three years.
- Consistent growth in cohorts' achievement - each cohort demonstrates an increase in proficiency from first time testing in 3rd grade to their Spring 2026 test results.

Warrants Closer Attention

- Approximately 25% of our students in elementary and middle are not at grade level in any given year.
- Variability in grades 5 and 7 across sections, with greater consistency across sections in grades 6 and 8. (District Goal Connection)
- We are currently investing significant work in supplementing ELA curriculum, and data supports the need to focus on both CET and PVC ELA Curriculum. (District Goal Connection, identify curriculum by Jan 2026 for SY 2027-2027 implementation)

Implications

- Need for greater alignment in 5th grade to CET. Item analysis of results indicating need for focus on spelling and word study led to additions to CET curriculum with *Spelling Connection* will lead to *Morpheme Magic* at PVC. (District Goal Connection)
- Variability within a grade suggests a need to look at classroom practices and curriculum; Supports continued work on aligning ELA curriculum K-5. (District Goal Connection)
- PVC Lab use time adjustments made to focus on silent reading stamina and shift from *Achieve 3000* to *Newsela*, which has stronger curricular/content area connections.

All data sourced from NYSED Data dashboard

Grades 3-8 Math Takeaways

Noticings/Strengths

- Cohorts remained the same or slightly better from their first time testing in 3rd grade to their Spring 2026 test results.
- Grades 3-4 math proficiency has increased.
- Algebra 1 Regents results are strong after year 1 of *Algebra for All*.

Warrants Closer Attention

- Grade 5 proficiency is lower than other grades 3-8 in some years. (District Goal Connection)
- Overall Math 5-8 proficiency is declining when compared to the region. (District Goal Connection)
- In grades 3-4, when there were discrepancies within a specific class between ELA and Math proficiency, Math was the stronger area of performance. (District Goal Connection)

Implications

- Investment in updating curriculum materials and aligning math curriculum grades K-5. (District Goal Connection, identify by December 2026 for SY 2027-2028 implementation)
- Existence of structured math curricular resource in Grades 3-4 may be associated with higher proficiency in some cases. (District Goal Connection)

Regents and AP Takeaways

Noticings/Strengths

- Regents proficiency ranks steadily in the PNW BOCES and full region.
- AP scores are above NY and Global performance for most courses last year.
- Consistently strong AP English, Math, and, Art scores.
- Excellent growth in AP Chemistry, AP US History.
- Significant growth in AP Environmental Science with Project-based curriculum.

Warrants Closer Attention

- AP scores in Biology, Physics, Languages connected to work on common assessments. (District Goal Connection, SY 26-27 implementation)
- As we continue to add to our AP offerings, are we drawing more kids into taking AP exams, or are students who already are taking multiple APs adding more?
- Need for greater emphasis on oral assessment in languages. (Summer Work 2026 Connection)

Implications

- Continue to invest in common local assessment across sections. (District Goal Connection, ongoing)
- Impact of Algebra for All on science and math APs over time.
- Lagging indicator of Biology in 9th grade on AP Bio scores over time and investment in summer curriculum work.
