We are competing for our students attention, they have more choices than ever before with virtual learning.

Engagement is a ways and means to learning but is not an indication of learning.

We are in a pandemic and relationships are still the foundation of education.

Be reflective and flexible. We didn't know if any of this would work and we have continued to make changes.

We are ready for all our students to return April 12th!

Dragon prints in the hall when the class pause, 6ft apart.

Stop on a star when waiting on the bus or car.
