Presentation

Dr. Seery introduced the district's three middle school principals, Dr. Jen Carson of La Vista Middle School, Mr. Tim Johnson of Papillion Middle School, and Dr. Troy Juracek of Liberty Middle School, to present on the middle school philosophy and exploratory experiences that engage students.

The principals explained that the middle school model, rooted in research and Rule 10, offers age-appropriate exposure to a variety of pathways. Exploratory classes run in seven-week rotations ("pents"), five per year, allowing students to take 10 to 20 exploratory classes by the end of eighth grade. Year-long offerings include band, chorus and eighth grade Spanish, which is a high school level course. The principals described club connections, such as robotics, art, yearbook and STEM, and how these experiences prepare students for high school academies, fine arts and Advanced Placement courses. Board members thanked the principals and shared their appreciation for the middle school teaming model and the opportunities available to students.

Discussion/Information Items

Dr. Seery, Ms. Alex Olson, Director of Curriculum and Secondary Education, and Ms. Missy Jabens, CTE and EL Administrator, provided a recap of the high school visioning process discussed at the October Board retreat. The process began in 2016 with community partners, parents, staff, students and Board members, and included visits to 11 high school campuses and 42 community presentations. Implementation began in fall 2018. Stakeholders prioritized balanced enrollment between the two high schools, planning for growth and a third high school, and equal programming at both high schools. Presenters highlighted several accomplishments since implementation began. Spanish was added at the middle school level, and the Metro Jump Start program now gives students early college and career opportunities. Skilled and technical sciences programs expanded to include small engines and welding, and the Project Lead the Way biomedical program was added to the Health Academy. Bond projects expanded both high schools and added freshman wings, and boundaries were adjusted in 2019 to balance enrollment. The district also added AP offerings, updated its curriculum cycle, expanded internships, and created a skilled and technical sciences endowment through the PLCS Foundation. Work toward an AP Capstone program is ongoing. Dr. Rikli noted that the district has purchased land for a potential third high school and that the district has re-engaged RSP for updated enrollment projections. Dr. Rikli asked the Board to consider whether this philosophy should continue to guide decisions on future facilities. In response to a question from Mr. Madler about future community engagement, Dr. Seery and Dr. Rikli shared that the district would re-engage the community before considering a third high school, which is estimated to be seven to ten years away.

Board President Lodes reviewed the future board calendar.
Board President Lodes adjourned the meeting at 7:04p.m.
