SPE-GCS SCHOLARSHIP 2027-2028

Questions or concerns:
gcsscholarship1@gmail.com

Applications OPEN December 1, 2026

Applications are due February 14, 2027

The SPE-GCS Scholarship supports the next generation of energy professionals pursuing careers in fields such as nuclear, hydrogen, oil and gas, geothermal, and carbon capture and storage.

Recipients are eligible for $2,000 per semester ($4,000 per academic year), renewable annually for up to four years.

SPE International
Gulf Coast Section

To apply for the SPE-GCS Scholarship, you must:

- Be a graduating high school senior.
- Plan to study science or engineering as a college freshman and have an interest in the energy industry.
- Have an SAT score above 1200 or an ACT score above 24.
- Have a permanent address in one of the 29 counties within the Gulf Coast Section.
- Be a U.S. citizen or permanent resident.
- If selected for an interview, provide an official university acceptance letter confirming admission into a STEM major.
