Appendix 12

BOE Agenda Item Executive Summary
Date: April 8, 2024

Topic: HS Literacy Intervention Program Annual (Renewal)

Background Information (History, Rationale, etc):
As we continue to work toward our goal of 3rd grade reading proficiency and follow MTSS processes, some secondary students still have gaps in their literacy skills. Due to this identified need, we began utilizing this evidence-based program to support literacy intervention courses at the high school level. The program also provides on-grade level reading for students who are nearing proficiency in their reading skills to read at grade level. This is the fourth year we have utilized this program in the high school literacy intervention classes.
