The Profile of a Future Ready Avon Grove Graduate is the outcome of a collective design process completed by forty-one Avon Grove school community stakeholders. This group included students, parents, district educators, and community partners.

The Profile of a Future Ready Avon Grove Graduate serves as a north star to guide the school district toward achieving its mission and vision by preparing our learners to succeed in any path they choose after high school. The school district's mission is “to foster a learning environment in which all students are exceptionally well-prepared to succeed and lead meaningful lives” and the school district's vision is “that all Avon Grove students are well-prepared to create their futures.” To support achieving the district’s mission and vision, the Profile of a Future Ready Avon Grove Graduate describes the competencies that students will develop as they acquire knowledge, apply skills, and build character through experiences in our schools and in partnership with the Avon Grove school community. These competencies should ensure success for all of our learners after graduation.
