This notice must also document the District's expected use of its Building Reserve State Major Maintenance levies and associated funding. This year, the District expects to use those proceeds to partially fund capital improvements, as well as operational costs of school safety and security.

These estimates are based on the current year's taxable value with no increase, as required by State law. If the District's taxable value increases as expected, the mill and taxpayer cost increases will be less than presented here. These estimates are preliminary and changes are expected before the final budgets are set in August.

Dated this 10th day of March, 2025.
