Rebranding of the Mount"

"Building great FUTURES one GATOR at a time."

"Every Minute Matters, Every Child Matters"

Increased Parent Involvement

Through activities such as Parent Day, Grandparents' Day, field day/field trips, and Celebration Tuesday we experienced an increase in parental support and involvement in school activities and events.

Increased Community Support

We have also worked to increase community support through events that have brought community members into our building. We have had support welcoming students to our campus on the first day, community luncheons, community members participating in celebration Tuesday, spring carnival, Christmas caroling in town, trick or treating to local businesses, and community donations school supplies.

Revamping of Teacher Locations

During the summer Mount Gilead Elementary administration created a plan to move most teachers in the building. This shift in location and curriculum has brought a fresh and exciting feeling to the building.

Student Leadership

Student Council led a service project to establish a Gator Blessing Box that is located at the walking track by the community garden.

The Impacts

We have seen several impacts already from these efforts. We have seen an increase in attendance, decreased discipline, a strong sense of belonging, and an overall shift in the image of our school. This has lead to a more positive and welcoming environment for students and staff.

Gator Next Steps:

Our efforts to continue include: a more in-depth PBIS program, participating in culturally relevant trainings, grade level focused small group trainings, provide our students with more “career based introduction” opportunities, parent newsletters and continue our social media footprint with the addition of an Instagram page. These steps will continue to help us ensure increased student achievement and parental involvement.
