Mathematics at Mitchell Middle School

Courses:

6th Grade:
Course 1: Math Course 1 by McGraw Hill
Course 1 Honors: Course 1 + Course 2 by McGraw Hill

7th Grade:
Course 2: Math Course 2 by McGraw Hill
Course 2 Honors: Math Accelerated by McGraw Hill

8th Grade:
Course 3: Math Course 3 by McGraw Hill
IM 1: Integrated Math I by Big Ideas

Formative Assessments:

What are they?

- Practice assignments that are used to assess student progress before a summative.
- Homework/Check Your Understanding Work
- Formative Quizzes/Quick Checks
- Plickers/Kahoot/Blooket
- EdPuzzles/Exit Tickets
- Freckle/Zearn Lessons

How do they affect my child?

Formatives are used as a good indicator of how a student is progressing through the material and will also be required when requesting a retake of Summative Assessments.

Summative Assessments:

What are they?

Tests and Projects that will assess a student's knowledge of current material.

How do they affect my child?

- Summative Assessments count towards 100% of the student's final grade. Students can retake any summative, but only after completing all of the tasks on the retake application.
- Summative Assessments: 100% of grade

Homework:

- Assigned nightly, usually due the next day class meets.
- Good practice for Summatives
- May affect citizenship grade

MYP Assessment Criteria:

A: Knowing & Understanding - Use of Memorization or Algorithms
B: Investigating Patterns - Understanding and using patterns
C: Communicating- Explanation or written responses
D: Applying Math in Real World Contexts - Students must use what is possible in the real world
