DAOI - The PLC Team

MULTI-SCHOOL COLLABORATIVE TEAM - 7TH ELA

Since August, the 7th Grade ELA Multi-School Collaborative Team (MSCT) has been meeting monthly in person during early release Fridays—along with two dedicated planning half-days—to strengthen their approach to learning cycles, assessments, and data-driven instruction. Through their commitment to collaboration, they have worked across schools to align best practices and enhance student outcomes.

Recognizing the value of this work, their administrators have now provided additional support by granting them another monthly early release Friday to continue their collaboration via Zoom. This added time will allow the team to refine their instructional strategies, analyze data more deeply, and ensure even greater consistency in student learning experiences across campuses. Their dedication to professional growth and student success is a model of impactful collaboration in action!
