

HUMANITAS/NEW MEDIA PROGRAM

Human Advancement and Connection in a Digital Media World

The Program

HUMANITAS/NEW MEDIA is a 9-12th grade program offering a rigorous college prep curriculum that stresses critical reading, writing and thinking skills in a project-based, interdisciplinary team-taught approach to learning.

THE LIBERAL ARTS curriculum incorporates fine art, digital media and film production in a collaborative learning environment. Students interested in a strong academic program that is supported by teamed teachers who provide a nurturing environment will enjoy this program.

The Humanitas Experience

Field trips that relate to careers in film, television and media arts.

- Attend tapings of nationally televised TV shows
- Tour of Los Angeles based studios
- Visits to colleges that focus on arts and media
- Attend theater productions

CAREER AND TECHNICAL EDUCATION is the practice of teaching skills-based careers to students in high school, and post-secondary institutions. This is important because CTE careers require workers to have experience in their field before starting a career. Humanitas develops this in the film industry: creative thinking individuals with a strong educational background.

* These courses ensure that all Humanitas students complete the Design and Media Arts CTE pathway

Core Curriculum

Grade 9
