Pearland Independent School District

Request for Food Allergy Documentation

Dear Parent/Guardian,

Thank you for informing us that your child has a severe food allergy. In order to ensure your child's safety and to authorize appropriate care in the event of an allergic reaction at school or during school-related activities, Pearland ISD requires additional documentation.

Enclosed with this letter, you will find the following forms:

1. Rights and Responsibilities for Managing Students with Food Allergies
2. Student Allergy History Questionnaire
3. Food Allergy Action Plan
4. Special Diet Statement Form (**Food Service Department**)
5. Permission to Carry & Self-Administer EpiPen

Please review these documents carefully. Have your child's physician or other licensed healthcare provider complete the applicable forms and return them to the school clinic as soon as possible.

Important: A physician's statement must be on file with the Pearland ISD Food Service Department in order to accommodate any dietary modifications for school-provided meals.

If you have any questions or need further assistance, please contact the school clinic.

Respectfully,

Pearland ISD Health Services
