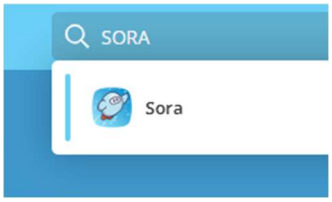
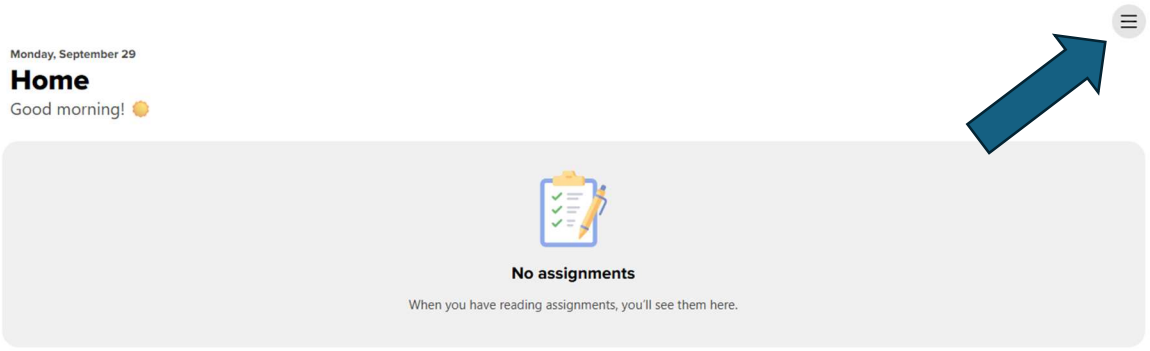
Sora Parental Choice for Library Materials

1. Log in to your student's MyKaty account. You will need their ID Number (ex. K1234567) and their password.
2. Once logged in, search Sora in the top right search bar next to the magnifying glass.

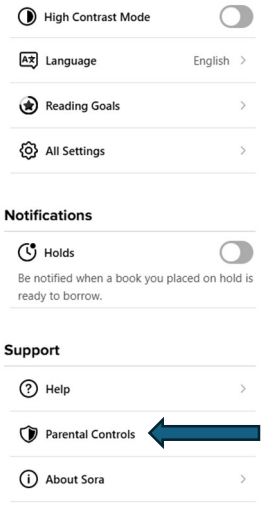


3. Click on Sora and then click on Sign in using Katy ISD.

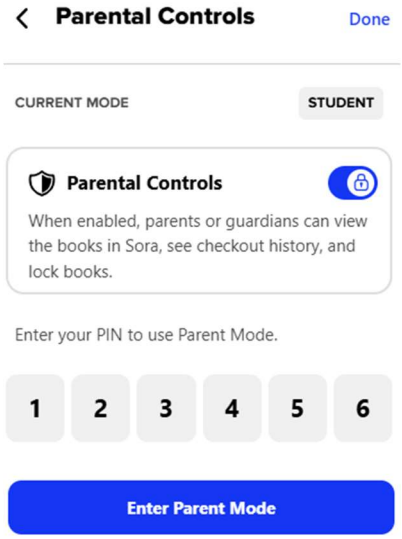
4. Once signed in, click on the three horizontal lines in the top right corner.



5. Scroll down until you see Parent Controls and click on Parental Controls.

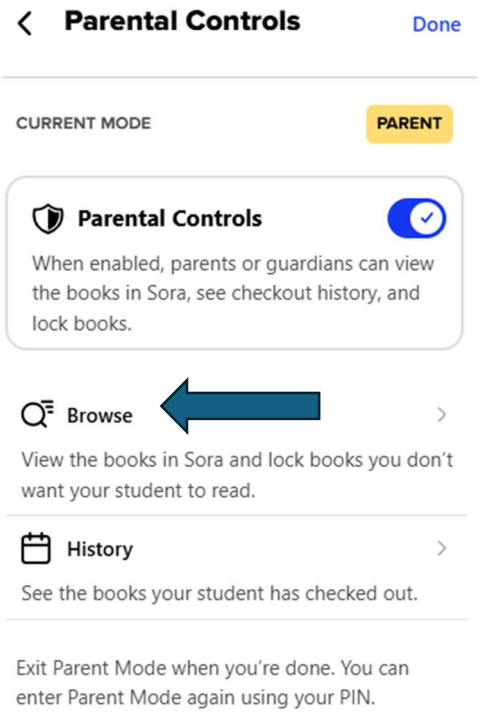


6. Click the toggle to turn on Parental Controls and create a 6-digit pin to begin using Parent Mode. Once created, click Enter Parent Mode.

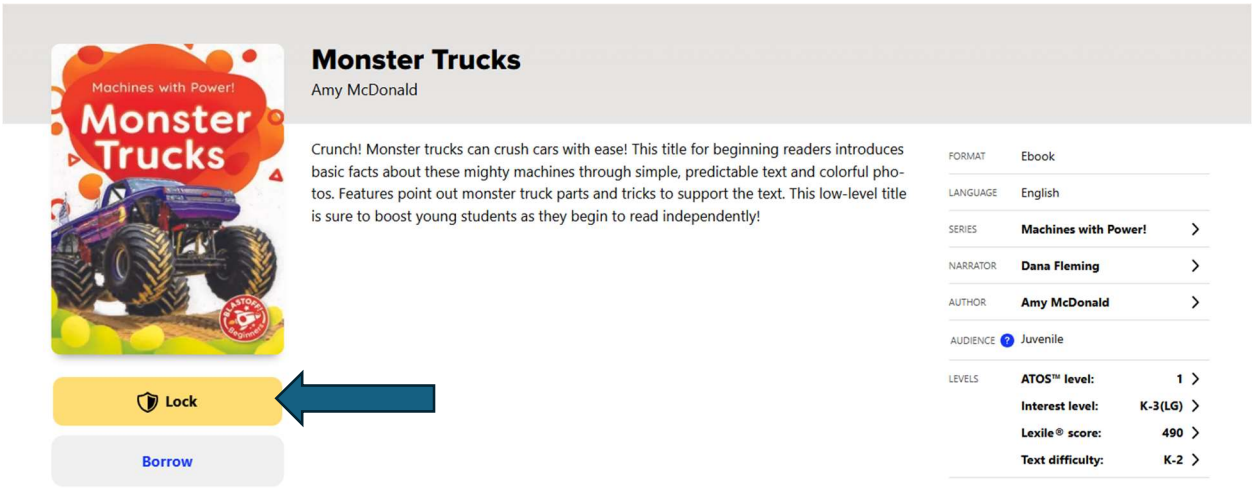


7. From here, you will have two options. You can BROWSE and lock books you don't want your student to read, or you can view their HISTORY to see which books your

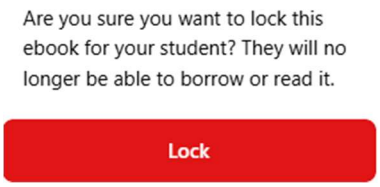
student has checked out. To start making selections, click on BROWSE.



8. Once you find a title that you want to lock for your student, click on the title to view more details. Here you will see the LOCK option.



9. When you click LOCK, you will receive the following notification:



If you wish to proceed, click LOCK. If you decide you no longer want to lock the

book, you can click unlock on the title.

10. Please note that any selections are specific to each student and do not carry across multiple accounts. If you have multiple students in Katy ISD, the selections on one student account will not be reflected on a sibling account. Students will still be able to see the titles and see that they are locked. The locks will remain in place until you, the parent/guardian, unlock it. Library Staff are unable to override your selections.
11. Once you are finished making your selections, click the EXIT PARENT MODE button at the top of the screen.

    Students will not be able to change your selections unless they gain access to your PIN.

If you need additional assistance, please reach out to your campus librarian.
