Independent Auditor's Report

December 10, 2010

To the School Board
Independent School District No. 709
Duluth, Minnesota

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Independent School District No. 709, Duluth, Minnesota (District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2010, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pages 4 through 10, budgetary comparison information, page 49, and other required supplementary, page 50, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The budgetary comparison information and other required supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements themselves, and other additional audit procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

We have applied certain limited procedures to the management's discussion and analysis, in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The combining and individual fund financial statements and other schedules, pages 51 through 77, are presented for the purpose of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional audit procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly presented in all material respects in relation to the financial statements taken as a whole.

INDEPENDENT SCHOOL DISTRICT NO. 709 – DULUTH PUBLIC SCHOOLS
MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2010

As management of Independent School District No. 709 (District), we offer readers of the District’s financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2010.

FINANCIAL HIGHLIGHTS

- The District continues to meet its fund balance policy goal of 10% of unrestricted expenditures from selected funds.
- The District’s total net assets of governmental activities decreased approximately \$54,000, versus 2009, primarily due to an increase in long-term liabilities (severance liability and long term debt related to our facilities plan).
- General revenues accounted for 85.7 million, or 65% of all fiscal year 2010 revenues. This represents a decrease of \$10.6 million versus the prior year. Program specific revenues of \$46.9 million (charges for services, grants and contributions) accounted for 35% of total fiscal 2010 revenues. This represents an increase of \$8.2 million versus the prior year. This shift is the result of additional federal funding related to the American Recovery and Reinvestment Act (ARRA), the majority of which was offset by reduced amounts of state aid.
- The District spent approximately \$132.8 million on governmental activities. This represents a decrease of \$0.4 million (equal to 0.3%) versus prior year. The decrease results from significant reductions in operating expenses which were offset by expenses related to long-term debt related to the Long Range Facilities Plan (LRFP).
- Among major funds, the General fund had \$100.8 million in revenues, consisting mainly of state aids and local property taxes, and \$103.0 million in expenditures. This deficit of \$2.2 million was \$0.6 million less than the prior year.
- General Fund spending was \$5.8 million less than the revised budget of \$108.8 million. Approximately \$0.9 million of the budget relates to open purchase orders, school budgets and referendum spending that will be carried over to FY 2011.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – Independent Auditor’s Report, Required Supplementary Information which includes the Management’s Discussion and Analysis (this section), the Basic Financial Statements, and Supplemental Information. The District’s basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

The *statement of net assets* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation, and operation of non-instructional services.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's budget process. The District adopts an annual expenditure budget for all governmental funds. A budgetary comparison statement has been provided for the General fund as required supplementary information.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the major budgetary comparisons.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$1.6 million as of June 30, 2010. This decrease of \$0.179,000 marks the second decrease in the past seven years.

Duluth Public Schools Statement of Net Assets As of June 30,

	2010	2009	Total Percentage Change 2009- 2010
Current and Other Assets	\$263,454,628	\$209,546,067	25.7%

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

GENERAL FUND

The General Fund fund balance decreased \$3.9 million as follows:

Unreserved / undesignated fund balance increased by \$0.5 million to \$7.6 million. The District continues to meet the goals established by its policy on fund balance.

Designated fund balances decreased by \$0.5 million, due to a \$1.0 million decrease in student transportation funds, along with a \$0.3 million decrease in both operating capital and school carryover funds. These reductions were partially offset by an increase of \$1.0 million in severance-insurance premium funds (due to a change in the anticipated payout of severance-related expenses) and \$0.1 million in Integration funds.

Reserved fund balances decreased by \$3.9 million due primarily to a decrease in the reserve for severance pay of \$2.0 million. This reserve has been eliminated by the Minnesota Department of Education. Other notable fund balance reductions included the operating capital reserve of \$1.8 million, the staff development reserve of \$0.1 million, and the basic skills reserve of \$0.1 million. These reductions were partially offset by an increase of \$0.1 million in the Learning and Development reserve.

BUDGET REVISIONS

General fund (which includes the District's general, transportation and capital funds) adopted revenue budget of \$98.4 million was revised upward to \$105.7 million as a result of a \$3.5 million increase in Title program budgets, \$2.2 million in Federal stimulus monies, an increase of \$0.3 million in additional revenues and grants for special education, a \$0.5 million increase in technology revenues and refunds and a \$0.8 million increase for grants related to student and curriculum support.

General fund adopted expenditure budget of \$100.0 million was increased by \$8.8 million to \$108.8 million. In addition to the \$7.3 million of items identified in the preceding paragraph, there was \$1.5 million of budget carryover from the prior year.

VARIANCES TO FINAL REVISED BUDGET

General fund revenues were \$4.9 million less than the revised budget (a difference of 4.7%). This represents grant and federal program revenues that will be realized in FY 2011.

General fund spending was \$5.8 million less than the revised budget. In addition to the grant and other program spending that was deferred as noted above, there was \$0.9 million of unspent funds for open purchase orders, school budgets, staff development, and referendum spending will also be carried over into fiscal 2011.

CAPITAL ASSETS

In fiscal 2010, the District acquired \$61.4 million of new capital assets, reflecting the impact of our Long Range Facilities Plan. Large items included ongoing facilities improvements, school bus purchases, and technology equipment. Depreciation of \$1.9 million was taken on existing items. As of June 30, 2010, the district had capital items costing \$145.0 million, which had an undepreciated value of \$115.0 million. Most of the capital investment is in buildings and equipment.

LONG-TERM LIABILITIES

At year-end, the district had \$286.8 million of outstanding bonds payable and certificates of participation. This reflects an increase of \$101.9 million versus the principal amount of \$184.9 million due in 2009. The District's debt rating from Moody's continues at A2. State statute limits the District's debt to 15% of the fair market value of property in the District. This sets the District debt limit at approximately \$961.3 million as of June 30, 2010.

The remainder of long-term liabilities is the \$35.8 million recognized for severance benefits and other post-employment benefits (OPEB). This represents an increase of \$2.4 million versus prior year.

ECONOMIC AND BUDGETARY FACTORS

Factors affecting the District's future financial condition include the following:

Declining enrollment – as the population of school-age children residing in the District declines, District revenues decline, as most of our funding is based on the number of pupils served in the District.

School choice – in addition to population decline, more residents have chosen educational options other than the District. Increases in charter schools, home schooling and private school enrollment has contributed to pupil and corresponding revenue loss.

State Budget – the current economic forecast for the state of Minnesota continues to be more negative than in the recent past. Since K-12 education makes up over 40% of state spending and because State revenues account for over 71% of the District's General revenues, the District will be impacted by decisions made relative to education spending. The District anticipates that state aid payment delays will continue, perpetuating the need for short-term borrowing.

Medical Insurance – premium increases have been reduced through a plan change to a high-deductible statewide insurance plan. The District continues to work with employees to reduce the utilization of prescription drugs and medical services.

Retiree benefits (severance) – this large liability exceeds the amounts currently set aside to pay these benefits upon retirements. This may impact the General fund, as interest earned on any invested funds will accrue to the trust for severance and not be available as General fund revenue.

DISTRICT FINANCIAL CONTACT

This financial report is designed to provide citizens, taxpayers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives and utilizes. Should you have questions about this report, or need additional information, please contact:

**Reconciliation of the Balance Sheet to the
Statement of Net Assets
Governmental Funds
June 30, 2010**

Total fund balances - governmental funds	\$ 214,878,939
Amounts reported for governmental activities in the statement of activities are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	
Cost of capital assets	145,009,014
Less: accumulated depreciation	(29,966,922)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	
Long-term liabilities at year-end consist of:	
Bond principal payable	(70,060,000)
Certificates of participation	(216,775,000)
Long-term liabilities, including severance payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	
	(33,534,322)
Long-term liabilities, including compensated absences payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	
	(333,684)
Delinquent property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds.	
	966,154
Governmental funds do not report a liability for accrued interest until due and payable.	
	(5,627,331)
Long-term liabilities, including other post-employment benefits obligations, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	
	(2,240,321)
Governmental funds report debt issuance premiums and discounts as an other financing source or use at the time of issuance. Premiums and discounts are reported as an unamortized asset or liability in the District-wide financial statements.

Exhibit 6

Reconciliation of the Statement of
Revenues, Expenditures, and Changes in Fund Balance
to the Statement of Activities
Governmental Funds
Year Ended June 30, 2010

Total net changes in fund balances - governmental funds	\$ 48,712,965
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However in the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.	
Capital outlays	61,368,358
Disposal of capital assets	(1,899,133)
Depreciation expense	(1,912,594)
The amount of bond proceeds used to finance the acquisition of capital assets is reported in the governmental funds as source of financing. Bond proceeds are not revenues in the statement of activities, but rather constitute long-term liabilities	(117,975,000)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	16,045,000
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and thus requires the use of current financial resources. In the statement of activities, however interest expense is recognized as the interest accrues regardless of when it is due.	(2,367,622)
Net amortization of premiums and discounts.	(101,085)
Payment of severance and post-employment benefits is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	(2,397,507)
Payment of compensated absences is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	61,097
Delinquent property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditure and therefore are deferred in the funds.	<u>286,147</u>

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

1. Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Government Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

Financial Reporting Entity

The District is an instrumentality of the State of Minnesota established to function as an educational institution. The Board of Education consists of elected officials and is responsible for legislative and fiscal control of the District. A Superintendent is appointed by the Board of Education and is responsible for administrative control of the District.

The District's financial statements include all funds, departments, agencies, boards, commissions, and other component units for which the District is considered to be financially accountable.

Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit include whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit.

Based on these criteria, there are no organizations considered to be component units of the District.

The financial transactions of student activities are included in the financial statements. Student activities are established by various student organizations (which have District employees as advisors). Amounts are usually generated and spent at the discretion of the student organizations and faculty advisors. The School Board has chosen to directly control the activities.

Basic Financial Statement Presentation

The district-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District except for the fiduciary funds. The Fiduciary Funds are only reported in the Statements of Fiduciary Net Assets at the fund financial statement level.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational; or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

1. Summary of Significant Accounting Policies (Continued)

The District applies restricted resources first when an expense is incurred for purpose for which both restricted and unrestricted net assets are available. Depreciation expense can be specifically identified by function and is included in the direct expenses of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. The effect of interfund activity has been removed from the district-wide financial statements.

Separate fund financial statements are provided for governmental funds and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Aggregate information for the remaining non-major governmental funds is reported in a single column in the fund financial statements.

The fiduciary funds are presented in the fiduciary fund financial statements by type (pension and agency). Since, by definition, these assets are being held for the benefit of a third party (private parties, severance obligations, etc.) and cannot be used to address activities or obligations of the District, these funds are not incorporated into the district-wide statements.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory "tax shift". Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

1. Revenue Recognition – Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to Minnesota Statutes. Minnesota Statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure is made. Other revenue is considered available if collected within one year.
2. Recording of Expenditures – Expenditures are generally recorded when a liability is incurred. However, expenditures are recorded as prepaid for approved disbursements or liabilities incurred in advance of the year in which the item is to be used. Principal and interest on long-term debt issues are recognized on their due dates.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

1. Summary of Significant Accounting Policies (Continued)

Basis of Presentation

The District has established funds to account for and segregate the financial consequences of its various activities. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues, and expenditures or expenses. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and by how such activities are controlled. Descriptions of the funds included in this report are as follows:

Major Governmental Funds

The General Fund of the District accounts for administration, kindergarten through 12th grade instruction, transporting students to and from school, purchases of land, buildings, improvements, equipment, and textbooks, major repairs, activities and other costs to the District and related revenues.

The Capital Projects Fund accounts for construction of facility additions financed by levy or bonds.

The Debt Redemption Debt Service Fund accounts for the retirement of bonds issued for kindergarten through 12th grade projects and payments of related interest. The assets of this fund are legally restricted to the aforementioned purpose.

Non-major Governmental Funds

The Food Service Fund accounts for meals provided to students.

The Community Services Fund accounts for instruction of persons not in kindergarten through 12th grades.

Fiduciary Funds

The Private Purpose Funds account for principal and unexpended earnings of the Miller Memorial Playground endowment and the Clock Tower endowment.

Federal Employee Benefit Trust accounts for employees' severance for federally funded programs.

The Agency Funds account for assets held for employees and other agencies.

Budget Policies and Basis

The School Board is responsible for the budget and for the District's financial performance against the budget. District employees prepare a proposed budget on the modified accrual basis of accounting. The budget is amended and approved by the Board before the beginning of the fiscal year as required by Minn. Stat. § 123.B.77, subd. 4. The Board reviews the District's financial progress against the budget regularly throughout the year.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

1. Summary of Significant Accounting Policies (Continued)

Budget and Budgetary Accounting

Formal budgetary accounting is employed as a management control for all funds of the District. For each fund for which a formal budget is adopted the same basis of accounting is used to reflect actual revenues and expenditures recognized on the basis of accounting principles generally accepted in the United States of America.

Reported budget amounts represent the originally adopted budget as amended. Expenditures in excess of the budget require approval of the School Board. Employees report significant deviations from budget line amounts to the Board as they are recognized throughout the year. The annual budget is not legally binding on the District unless the District has a total deficit in its K-12 general and operating funds that exceed 2.5 percent of expenditures. The budget is adopted through passage of a resolution. The School Board must approve revisions that alter total expenditures of any fund without offsetting revenues.

Cash and Investments

Cash and investments of the individual funds are combined to form a pool, except for the fiduciary funds, and are invested, to the extent available, in securities as authorized by state law. Investment income is reported in the General, Capital, and Fiduciary Funds. Funds with negative cash balances are not charged interest. Certificates of deposits and securities of the U.S. government and its agencies are recorded at fair value, based on quoted market price. External investment pools and money market funds are recorded at fair value, based on the fair value of the position in the pool.

Receivables

Amounts due from individuals and organizations are recorded as receivables at year-end. Receivables are shown net of an allowance for uncollectible accounts. At June 30, 2010, the allowance for uncollectible accounts was \$45,862. The only receivables not expected to be collected within one year are current and delinquent property taxes receivable.

Inventory

General Fund inventory includes instructional and other materials held in the central storeroom. Inventory in the Food Service Fund consists of food and supplies. The General Fund central storeroom inventory is priced using the weighted average method. All inventories are accounted for using the consumption method. Under the consumption method, expenditures are recognized when inventory is used rather than when purchased. Food and supplies are valued at cost on a first-in, first-out basis.

Prepayments

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are reported using the consumption method and recorded as an expenditure at the time of consumption.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

1. Summary of Significant Accounting Policies (Continued)

Restricted Assets

Restricted assets are cash and cash equivalents whose use is limited by legal requirements such as a bond indenture. Restricted assets are reported only in the district-wide financial statements.

Capital Assets

Capital assets are capitalized at historical cost or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$5,000 or more for capitalizing capital assets. Capital assets are recorded in the district-wide financial statements, but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives, ranging from five to fifty years.

Capital assets not being depreciated include land and construction in progress.

The District does not possess any material amounts of infrastructure capital assets. Items such as sidewalks and other land improvements are considered to be part of the cost of buildings or other improvable property.

Compensated Absences

The District records a liability for earned but unpaid vacation. Unpaid sick leave does not vest and therefore is not accrued. Sick pay is recognized when paid and unused balances are used in severance calculations.

Long-term Liabilities

In the district-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. That portion of the fund balance not reserved is reported as unreserved fund balance and is available for budgeting in future periods. Fund balance designations represent that portion of fund balance the District has set aside for planned future expenditures.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

1. Summary of Significant Accounting Policies (Continued)

Variance from State Reporting Requirements

Inventory – The Minnesota Department of Education has not defined a reserve for inventory account in its Uniform Financial Accounting and Reporting Standards (UFARS). However, the District has reported a reserve for inventory of \$259,572 on the combined balance sheet in accordance with accounting principles generally accepted in the United States of America.

Prepayments – The Minnesota Department of Education has not defined a reserve for prepayments account in its UFARS. However, the District has reported a reserve for prepayments of \$107,415 on the combined balance sheet in accordance with accounting principles generally accepted in the United States of America.

Net Assets

Net assets represent the difference between assets and liabilities in the district-wide financial statements. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net assets are reported as restricted in the district-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws and regulations of other governments.

Property Taxes

The property tax calendar in Minnesota follows the calendar year. Taxes are levied in December of the year prior to collections and become a lien on January 1 based on the School Board's certification and property values as of the previous January 1. Taxes are due May 15 and October 15 to the county as agent for the District. The county remits taxes to the District in June, November, and January.

2. Cash and Investments

Deposits

Minn. Stat. § 118A.04 authorizes the District to deposit its cash and to invest in financial institutions designated by the District's Board. Minnesota Statutes require that all District deposits be covered by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes: treasury bills, notes and bonds; issues of U.S. Government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

2. Cash and Investments (Continued)

Investments

Minn. Stat. § 118A.04 and 118A.05 generally authorizes the following types of investments as available to the District:

- (1) Securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by subd. 6;
- (2) Shares of a Minnesota joint powers investment trust or shares of an investment company that is registered under the Federal Investment Company Act of 1940 pursuant to the restrictions of Minn. Stat § 118A.05 subd. 4;
- (3) General obligations of the State of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota or other states provided such obligations have certain specified bond ratings by a national bond rating service;
- (4) Time deposits that are fully insured by the Federal Deposit Insurance Corporation or bankers' acceptances of United States banks;
- (5) Commercial paper issued by United States corporations, or their Canadian subsidiaries, that is of the highest quality and matures in 270 days or less;
- (6) Guaranteed investment contracts (gic's) issued or guaranteed by United States commercial banks, or domestic branches of foreign banks, or United States insurance companies, if similar debt obligations of the issuer or the collateral pledged by the issuer is in the top two rating categories;
- (7) Repurchase or reverse repurchase agreements with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers; and
- (8) Securities lending agents under the provisions of Minn. Stat. § 118A.05 subd.3.

The Minnesota School District Liquid Asset Fund (MSDLAF) and the Mn Trust are external investment pools not registered with the Securities and Exchange Commission (SEC) that follows the same regulatory rules of the SEC under rule 2a7. The fair value of the position on the pool is the same as the value of the pool shares.

Interest Rate Risk – Interest rate risk is the risk that changes in the market interest rates that will adversely affect the fair value of an investment. The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The District has the following investments at June 30, 2010

Investment Type	Fair Value	Less than 1 Yr	1-3 Years	Over 3 Years
Government Agencies	\$ 26,625,988	\$ 10,699,579	\$ 14,466,616	\$ 1,459,793
External Investment Pool	21,666,088	21,666,088		
Money Market Funds	4,259,032	4,259,032		
Negotiable CD's	164,316,757	114,792,849	49,011,101	512,807
Total Investments	\$ 216,867,865	\$ 151,417,548	\$ 63,477,717	\$ 1,972,600

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

2. Cash and Investments (Continued)

Credit Risk – Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the District's policy to invest only in securities that meet the ratings requirements set by state statute.

The District's exposure to credit risk as of June 30, 2010 is as follows:

<u>S&P or Moody's Rating</u>	<u>Fair Value</u>
AAA	\$ 26,625,988
AAAm	5,318,419
Aaa	20,511,264
Not rated	164,412,194
Total	<u>\$ 216,867,865</u>

Custodial Credit Risk – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. At June 30, 2010, none of the District's investments were subject to custodial credit risk.

Concentration of Credit Risk – The concentration of credit risk is the risk of loss that may be caused by the District's investment in a single issuer. The District places no limit on the amount the District may invest in any one issuer. Investments in any one issuer (excluding mutual funds and internal investment pools) that represents five percent or more of the District's investments are as follows:

<u>Issuer</u>	<u>Amount</u>
Federal Home Loan Bank	\$ 13,321,892
US Bank	17,572,500
Key Bank	68,837,636
Citibank	61,908,700

The District's total cash and investments as of June 30, 2010 are as follows:

Petty Cash	\$ 4,425
Deposits	1,974,011
Investments	<u>216,867,865</u>
	<u>\$ 218,846,301</u>

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

2. Cash and Investments (Continued)

The District's total cash and investments as of June 30, 2010 are presented in the basic financial statements as follows:

Statement of Net Assets	
Cash and temporary investments	\$ 18,669,688
Restricted Assets:	
Cash and investments for capital projects	198,499,367
Statement of Fiduciary Net Assets	
Cash and Cash Equivalents

Total	<u>\$ 100,328,002</u>	<u>\$ 70,060,000</u>	<u>\$ 30,268,002</u>

Refundings

The District issued \$8,785,000 of general obligation school building refunding bonds Series 2010A for a current refunding of \$8,785,000 of general obligation school building refunding bonds Series 2001B. The current refunding was undertaken to reduce total debt services payments over the next six years by \$612,665 and resulted in an economic gain of \$598,167.

The District issued Full Term Refunding Certificates of Participation, Series 2010B for a current refunding of \$2,620,000 of Refunding Certificates of Participation Series 2001. The current refunding was undertaken to reduce total debt services payments over the next five years by \$134,746 and resulted in an economic gain of \$124,811.

Changes in long-term debt for the year ended June 30, 2010, are:

	Balance June 30, 2009	Increase	Payments/ Adjustments	Balance June 30, 2010
Certificates of participation	\$ 111,995,000	\$ 109,190,000	\$ 4,410,000	\$ 216,775,000
Bonds payable	72,910,000	8,785,000	11,635,000	70,060,000
OPEB	1,561,437	1,637,206	958,322	2,240,321

Total	<u>\$ 218,282,136</u>	<u>\$ 122,371,008</u>	<u>\$ 18,043,501</u>	<u>\$ 322,609,643</u>

Certificates of Participation and bonds are paid from the General and Debt Service Funds. OPEB and severance obligations are paid from the General, Food Service, Community Service, or the Federal Employee Benefit Trust funds

The following is a summary of the current (due in one year or less) and the long-term portion (due in more than one year) of long-term debt as of June 30, 2010.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

7. Long-Term Liabilities – (Continued)

	Current Portion	Long-term Portion	Total
Certificates of participation	\$ 2,375,000	\$ 214,400,000	\$ 216,775,000
Bonds payable	3,100,000	66,960,000	70,060,000
OPEB		2,240,321	2,240,321
Severance obligation	1,200,449	32,333,873	33,534,322
Total	<u>\$ 6,675,449</u>	<u>\$ 315,934,194</u>	<u>\$ 322,609,643</u>

Legal Debt Margin

The District's legal debt limit is 15% of the fair market value of the property within the District. The District's legal debt margin at June 30, 2010 is approximately \$961,261,365

8. Short -Term Liabilities

Letter of Credit

The District entered into a short term line of credit agreement with Associated Bank, Green Bay, WI for the period June 7, 2010 through July 22, 2010 in the amount not to exceed \$9,234,609 at an interest rate not to exceed 2.96% per annum. The District did not borrow against this line of credit.

9. Compensated Absences

Vacation and sick leave are earned based on various bargaining unit contracts and length of service as follows:

	<u>Vacation</u>	<u>Sick Leave</u>
Teachers	None	10 days per year
Administrative	10 - 25 days per year	10 - 13 days per year
Maintenance	2 - 5 weeks per year	18 days per year
Non-certified	0 - 6 weeks per year	13 - 18 days per year

At June 30, 2010, \$333,684 has been included in the district-wide financial statements.

10. Severance Obligations

Upon retirement, most District employees are entitled to a severance amount based on accumulated unused sick leave, age, years of service and wage rate at date of retirement, as established by contracts with bargaining units or other employment contracts. These contracts establish the terms and amounts each retiree is eligible to receive, and establish when these severance benefits vest, all of which may differ between each bargaining unit and employee group. For some bargaining units, the District remits either a lump sum or one third of the calculated severance benefit to the

Minnesota State Retirement System Health Care Savings Plan (HCSP) upon retirement of the employee. The remaining two thirds of the calculated amount due the employee

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

10. Severance Obligations (Continued)

is paid over a two year period. These funds will be disbursed in accordance with the HCSP account agreement, which is a separate agreement between the HCSP and the retiree. For the remaining employees, the District pays a portion of the severance

benefit to the state HCSP and retains a portion for the employees to use to pay future health insurance premiums. As required by UFARS, the balance of the reserve represents the District's estimate of severance payments to be made in the 2010-2011 school year. Severance is recorded as an expenditure when paid. The retained severance obligation for this benefit is for future health insurance benefits and amounts due to the state HCSP. As allowed by UFARS, the District has designated \$3,498,679 which represents one-half of the total severance obligations for post employment health care benefits plus the remaining two thirds due HCSP.

During 2010, 47 retirees received a total benefit of \$1,040,179. The District funds these expenditures as paid except for the severance for employees of federal programs, which is funded through the Federal Employee Benefit Trust.

Retained severance benefit obligations for retirees	\$ 4,474,628
Retained severance benefit obligations for qualified employees	30,574,096
Total termination benefits payable	<u>\$ 35,048,724</u>
Amount deposited in Federal Employee Benefit Trust Fund	<u>(1,514,402)</u>
 Total	 <u><u>\$ 33,534,322</u></u>

11. Interfund Transactions

Individual fund receivable and payable balances at June 30, 2010:

	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 17,799	\$ 69,412
Community Service		69,247
Fiduciary Funds		
Federal Employee Benefit Trust	138,659	
Private Purpose		17,799
Total Funds	<u>\$ 156,458</u>	<u>\$ 156,458</u>

These amounts represent federal severance calculation and interest due.

Individual fund transfers during the year ended June 30,2010 were as follows:

	<u>Transfer In</u>	<u>Transfer Out</u>
General fund	\$ 37,338	\$ 2,283,687
Debt redemption fund	2,283,687	
Capital Projects fund		37,338
Total Funds	<u>\$ 2,321,025</u>	<u>\$ 2,321,025</u>

The amounts transferred were in accordance with the District's long range facilities plan.

DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

12. Post-Employment Healthcare Plan

The cost of post-employment benefits, like the cost of pension benefits, generally should be associated with the periods in which the cost occurs rather than in the future year when it will be paid. In adopting the requirements of GASB Statement No. 45, the District recognizes the costs of post-employment healthcare in the year when the employee services are received, reports the accumulated liability from prior years, and provides information useful in assessing potential demands on the District's future cash flows. The plan does not issue a standalone financial report, but is included in this report of the District.

Plan Description – Duluth Public Schools administers a single-employer defined benefit OPEB plan which allows retired employees to remain on the District's plan after severing from the District (implicit rate subsidy) at the retirees expense. The District has no contractual liability to contribute financially toward the retiree's premium.

Funding – Employer contribution requirements are established and may be amended as set forth in the applicable employment and bargaining unit agreements. The plan is financed on a pay-as-you-go basis. As of July 1, 2009 the date of the latest actuarial valuation, approximately 1,089 retirees and their dependents were receiving postemployment health insurance benefits and an estimated 1,418 active employees are eligible to receive future benefits under the plan.

Annual OPEB Cost and Net OPEB Obligation – Duluth Public School's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of Duluth Public Schools' annual OPEB cost for the year, the amount actually contributed to the plan, and changes in Duluth Public Schools' net OPEB obligation as of June 30, 2010:

Annual Required Contribution (ARC)/Annual OPEB Cost	
Annual Required Contribution (ARC)	\$ 1,665,047
Interest on net OPEB obligation	62,457
Adjustment to ARC	(90,298)
Contributions made:	\$ 1,637,206
Actuarially determined contribution toward implicit rate portion of the ARC	(958,322)
Increase in OPEB obligation	\$ 678,884
Net OPEB obligation, June 30, 2009	1,561,437
Net OPEB obligation, June 30, 2010	\$ 2,240,321

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

12. Post-Employment Healthcare Plan – (Continued)

Duluth Public Schools' annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contribution	Net OPEB Obligation
June 30, 2008	\$ 1,311,842	37.13%	\$ 824,714
June 30, 2009	1,271,941	42.08%	1,561,437
June 30, 2010	1,637,206	58.53%	2,240,321

Funded Status and Funding Progress – As of July 1, 2009, the most recent actuarial valuation date, the plan was 100 percent unfunded. The actuarial accrued liability and the unfunded actuarial accrued liability (UAAL) for benefits was \$15,477,010. The covered payroll (annual payroll of active employees covered by the plan) was \$57,987,820, and the ratio of the UAAL to the covered payroll was 26.69 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2009, actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a discount rate of 4 percent, health care trend rates ranging from 10 percent initially, reduced by decrements to an ultimate rate of 5 percent after ten years. The UAAL is being amortized as a level dollar amount over thirty years.

13. Pension Plans

Substantially all employees of the District are required by State law to belong to pension plans administered by the Duluth Teachers' Retirement Fund Association (DTRFA) or the Public Employees Retirement Association (PERA).

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

13. Pension Plans (Continued)

1. Duluth Teachers' Retirement Fund Association

a. Plan Description

Certified employees of the District are covered by defined benefit plans administered by the DTRFA. DTRFA administers cost sharing, multiple employer retirement plans. These plans are established and administered in accordance with *Minnesota Statutes*, Chapters 354A, 356, 356A, 317A and the Articles of Incorporation and bylaws of the Association.

DTRFA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits vest after three years of credited service and are established by Articles of Incorporation and bylaws, and by State Statute. The defined retirement benefits are based on a member's highest 5-year average salary, age, and years of credit at termination of service.

Association members may be eligible for benefits under three different plans depending on year of hire. Members in all three plans are covered by Social Security.

Old Plan: Covers Association members hired prior to July 1, 1981. Normal retirement benefits are earned at age 60, or age plus service totals 90. Retirement benefits vest after 10 years or age 60. The annual normal retirement benefit is equal to 1.45 percent of the member's high five-year average salary multiplied by the number of years of credited service. Early retirement benefits are available at age 55 with 10 or more years of credited service with a .25 percent per month early retirement deduction under age 60. Old plan members may elect Tier I or Tier II plans if they produce a higher annual retirement benefit.

Tier I Plan: Covers Association members hired or rehired before July 1, 1989. Normal retirement benefits are earned at age 65, or at age 62 with at least 30 years of service, or if age plus service totals 90. Retirement benefits vest after 3 years of service or at age 65. The annual retirement benefit is equal to 1.20 percent for each of the first ten years of service credit and 1.70 percent for each subsequent year of service credit multiplied by the high five successive years average salary. Early retirement benefits are available at age 55 with three or more years of credited service or at any age with 30 or more years of credited service with a .25 percent per month early retirement deduction under the normal retirement age. Tier I Plan members may elect the Tier II Plan if it produces a higher annual retirement benefit.

Tier II Plan: Covers Association members hired or rehired after June 30, 1989. Normal retirement benefits are tied to the Social Security normal retirement age, but in no event is normal retirement age higher than age 66. Retirement benefits vest after 3 years or age 65. The annual normal retirement benefit is equal to 1.70 percent for all years of credited service multiplied by the high five successive years of average salary. Benefits are available as early as age 55.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

13. Pension Plans – (Continued)

with three or more years of credited service with an actuarial equivalence early retirement reduction under normal retirement age.

Under all plans, members may elect to receive their pension benefits in the form of a single-life annuity, a joint and survivor annuity or a life and term certain annuity, and have the option of electing Social Security actuarial income leveling. Terminating members may receive a refund of their contributions with interest computed at 6 percent or may elect an augmented deferred retirement benefit if retirement benefits have vested.

If active members die prior to the receipt of their first retirement allowance payment, death benefits are payable under each of the three plans. Active members who have not reached normal retirement age and have at least three years of credited service may receive a disability benefit upon becoming permanently disabled.

A guaranteed 2% cost-of-living adjustment (COLA) is payable to eligible benefit recipients each January 1. An additional percentage increase is added to the guaranteed 2% COLA to the extent that five-year annualized investment returns exceed the plans 8.5% actuarially assumed rate of interest, and to the extent that contribution rates are determined to be actuarially sufficient.

DTRFA issues a financial report that includes financial statements and required supplementary information and makes it available to the public by written request to DTRFA, 625 East Central Entrance, Duluth, MN 55811 or by calling (218) 722-2894.

b. Funding Policy

Minnesota Statutes Chapter 354A.12 sets the rates for employers and employee contributions. These statutes are established and amended by the state legislature. The District contributions to the pension plans are equal to the amount required by state statutes. DTRFA members are required to contribute 5.50% of their annual covered salary. The District is required to contribute 5.79% of annual covered payroll. The District's contributions for the years ending June 30, 2010, 2009, 2008 were \$2,773,309, \$2,856,787, and \$2,876,790, respectively equal to the contractually required contributions for each year as set by state statute.

2. Public Employees Retirement Association

a. Plan Description

All other full-time and certain part-time employees of the District are covered by defined benefit plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the Public Employees Retirement Fund (PERF), which is a cost-sharing, multiple-employer retirement plan. This plan is established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356.

PERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan.

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

13. Pension Plans – (Continued)

PERA provides retirement benefits as well as disability benefits to members and the option to elect to provide benefits to survivors upon death of eligible members. Benefits are established by state statute, and vest after three years of credited service. The defined retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

Two methods are used to compute benefits for PERF's Coordinated Plan members. The retiring member receives the higher of step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first 10 years of services and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first 10 years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 65 for Basic and Coordinated members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for Coordinated members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A normal annuity is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. There are also various types of joint and survivor annuity options available which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service in order to qualify for a deferred annuity at retirement age. Refunds of contributions are available at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them are bound by the provisions in effect at the time they last terminated their public service.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for PERF. That report may be obtained on the web at mnpera.org, or by writing to PERA, 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103-2088, or by calling (651) 296-7460 or (800) 652-9026.

b. Funding Policy

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the state legislature. The District makes annual contributions to the pension plans equal to the amount required by the statutes. PERA Basic Plan members and Coordinated Plan members are required to contribute 9.10% and 6.00% respectively, of their annual covered salary. The District is required to

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

13. Pension Plans – (Continued)

contribute 11.78% of the annual covered salary for Basic Plan PERF members. The required District contribution percentages for Coordinated Plan PERF members was 6.75% for the calendar year 2009 increasing to 7.00% on January 1, 2010. The District contributions for the years ending June 30, 2010 2009 and 2008 were \$1,151,046, \$1,157,327, and \$1,109,511, respectively. The District's contributions were equal to the contractually required contributions for each year as set by state statute.

14. Expenditures Over Budget

The following funds incurred expenditures greater than budgeted for the year ended June 30, 2010:

	<u>Final Budget</u>	<u>Actual</u>	<u>Variance</u>
Food Service	\$ 3,178,569	\$ 3,243,560	\$ (64,991)

15. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employee health and dental; and natural disasters. Risks of loss related to employee dental claims are self-insured. Risk of loss associated with workers' compensation claims are insured through participation in the Minnesota School Boards Association Insurance Trust. All other risks of loss are insured by the purchase of commercial insurance. There were no significant reductions in insurance coverage from the previous year. There were no settlements in excess of insurance for any of the past three fiscal years.

The Minnesota School Boards Association Insurance Trust is a public entity risk pool currently operated as a common risk management and insurance program for member school districts. The District pays an annual premium based on annual payroll rates and an experience modification factor for workers' compensation coverage.

Effective January 1994, the District changed to self-insuring employee dental claims. Risk management activities for employee dental claims are accounted for in the District's General Fund. Claims, expenditures, and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have occurred but have not been reported. Changes in the balances of the dental claims liability during the years ending June 30, 2009 and 2010 were as follows:

	<u>July 1</u>	<u>Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>June 30</u>
2009	\$ 80,368	\$ 800,489	\$ 796,990	\$ 83,867
2010	\$ 83,867	\$ 779,080	\$ 793,996	\$ 68,951

**INDEPENDENT SCHOOL DISTRICT NO. 709
DULUTH, MINNESOTA**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010**

16. Commitments

At June 30, 2010, the District had commitments under various construction and service contracts totaling \$144,233,248 all of which have been recorded as a reserve for encumbrances in the capital projects fund.

17. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's counsel the resolution of these matters will not have a material adverse effect of the financial conditions of the District.

18. Subsequent Events

Bond Issues

On October 21, 2010 the District issued \$5,000,000 Full Term Certificates of Participation, Series 2010C maturing on February 1, 2028. The interest due on the bonds ranges from 2.00% to 4.00%. The bonds were issued as part of the District's long-range facilities plan.

On October 21, 2010 the District issued \$1,605,000 Certificates of Participation, Series 2010D maturing on March 1, 2030. The interest due on the bonds ranges from 2.50% to 4.65%. The bonds were issued as part of the District's long-range facilities plan.

19. Accounting Standards Effective in Future Periods

Government Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Government Fund Type Definitions*, was recently issued and is effective for the District for the year ending June 30, 2011. Implementation of the new standard establishes fund balance classifications that establish a hierarchy based on the extent to which the District must observe constraints imposed upon the use of resources that are reported by governmental funds. The effect of the standard on the District's financial statements is unknown at this time.
