March 20, 2026

Dear superintendents and BOCES directors,

I'm writing to let you know that **CDPHE's Health Alert Network** posted updates on measles on **3-19-2026**. Here are some key takeaways:

- Weld County has identified a case of measles – not connected to the Broomfield outbreak.
- 10 cases have been linked to the outbreak associated with Broomfield High School and Middle School.

If you suspect someone has measles, you should immediately call your **local public health department** or CDPHE at **303-692-2700** (or after hours – **303-370-9395**. I am sharing resources below for you and your teams:

- Measles school recommendations flowchart
- CDPHE Measles Information
- School Community Checklist - What you can do to prevent and prepare for measles

We have also shared this information through our school nurses listserv.

Warm Regards,

Susana Córdova
