Dear superintendents and BOCES directors,

Today, I am sharing the following updates:

- FYI only: Updates to CDE's identity management system
- Reminder: LEP data collection for online schools and part-time programs for homeschool students

FYI only: Updates to CDE's identity management system

We have identified a tentative targeted cut over (migration) for the CDE's identity management system (IDM). We are targeting August 4 as our anticipated cut over date. We will provide additional details as we approach this date.

Reminder: LEP data collection for online schools and part-time programs for homeschool students

House Bill (HB) 26-1428 requires Local Education Providers (LEP) to share information related to a one-time data request from the Colorado Department of Education (CDE) regarding online learning and part-time programs for homeschool Students.

Action required for districts that operate online schools or part-time programs for homeschool students

- **By Wed., July 22 at 5pm:** (optional) Assign a point of contact to receive and coordinate the data request
    - Click here to provide your district's point of contact for part-time homeschool programs
        - Please note that part-time programs for homeschool students have at times been referred to by alternative names such as: part-time enrichment; options programs, and/or part-time instruction. Please indicate any programs that fit these descriptions in your survey response to the question about whether your district provides these programs.
    - Click here to provide your district's point if you operate an SDOL or MDOL

- **By Monday, July 27:** Information regarding district/organization data requests will be sent to you directly or to your assigned point of contact
- **By Monday, Aug. 31 at 5pm:** data submissions from LEPs are due to CDE

Please note that pursuant to HB26-1428, districts that operate online schools or part-time programs for homeschool students must participate in this data collection. If you have any specific questions about completing this form, please feel free to reach out to our partner Kate McDonald at kmcdonald@dillingerrad.org.

CDE must provide a report to the Joint Budget Committee (JBC) by November 1 of this year. Because of the extremely short time-frame for this work, any late data submissions from your district/organization may prevent your LEP from being included in the report.

Thanks,

Susana Córdova
