

GIFTED EDUCATION PARENT ADVOCACY GROUP

ABOUT US...

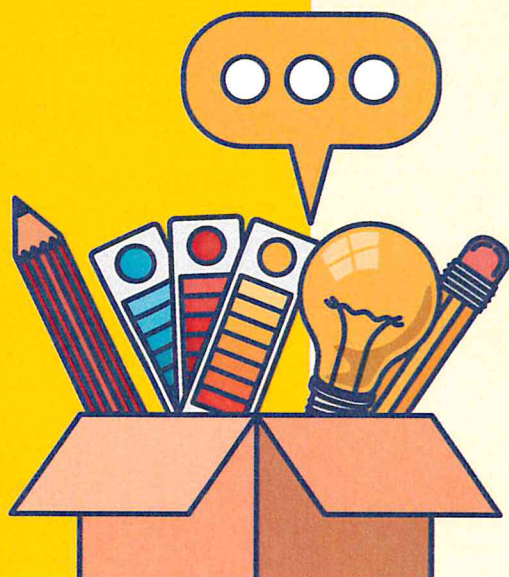

The Gifted Education Program in our district joined with the Mississippi Association for Gifted Children's Parent Affiliate Group. This group advocates for gifted education at the state level. Our local group is called "GIFTS--Gifted Information for Families, Teachers, and Stakeholders." We look for ways to improve and broaden the quality of educational experiences and opportunities for our gifted students in the Tishomingo County School District.

WHO CAN JOIN?

Anyone can join--parents, teachers, administrators, students, and others. There is no cost to join this group. We would love to see each gifted student's family represented.

WHAT DO WE DO?

GIFTS meets during the school year to discuss all things gifted, to showcase student achievements, and communicate. Please contact the teacher of the gifted at your local school for more information.
