Partnership Opportunities

The Philadelphia School

The Philadelphia School has been a leader and whole-hearted champion for progressive education for over 50 years. At TPS, the classroom is the city that is our namesake; its neighborhoods, institutions, green spaces, and citizens help us grow and learn. It all amounts to understanding our place in the world and how we can positively impact it. When you learn everywhere, you can go anywhere.

The Philadelphia School is immensely grateful to the local businesses and corporate partners who sponsor our events throughout the year. Sponsorships help cover the overhead costs of events, allowing us to allocate every dollar raised towards The Philadelphia School Fund, which makes a TPS education accessible to more children through tuition assistance.

We look forward to partnering with your business or organization in a way that will directly and meaningfully engage our diverse, highly-networked, and values-centered community.

"Greco Orthodontics has sponsored TPS for many years and has been fortunate to treat students and their families for over four decades. We will continue to support this very prestigious and nurturing institution for years to come. We remain committed to the excellence that TPS exemplifies.

Other ways to support TPS

If you believe in the TPS mission and would like to support our work, but sponsorship is not the right fit, please consider a donation to The TPS Fund, which helps contribute to the nearly $2 million in needs-based tuition assistance awarded each year to 30% of our student body. The Earned Income Tax Credit (EITC) program is another great option, offering companies a 75-90% tax credit for donations towards scholarships. Learn more at tpschool.org/support.
