September 22, 2026

Dear STEM Academy Parents & Guardians,

On Tuesday, October 6, 2026, *Minding Your Mind* will be presenting to all STEM Academy students in grades 9 – 12. Minding Your Mind is a non-profit organization that works to promote mental health awareness and reduce the stigma around mental health. The presentation provides signs and symptoms of mental health concerns and emphasizes the value of asking for help or seeking treatment if appropriate. As always, if students are upset or emotional, School Counseling Staff and the Prevention Specialist will be available for support. If you would like additional information, or to read our presenter John's Bio, please visit:

https://mindingyourmind.org/speaker/john/

If there are any questions, please contact Ms. Jennifer Stull, Prevention Specialist.
