Wishing You A Play Learning Summer

Help your child learn this summer by engaging in new activities and experiences.

By Nellie Ríos-Parra

Summer is a time to relax and enjoy the weather outdoors. Children love to play and explore nature. Take the time to do activities that will ensure your child is making developmental growth.

Read aloud daily. Carry a book or two everywhere you go. Impart the love of reading and share stories in as many languages as you can. The more your child reads, the greater his/her vocabulary will be.

Visit the park. If possible go to different parks and compare/contrast what is the same and what is different. Visit the beach and remind your child why it is important to leave no trace behind. Go on a hike in the mountains and review the essentials needed when hiking.

Go on a walk around the block. Say hello to neighbors. Notice what fruit trees and flowers are planted. Are there pets you see along the walk? Talk and walk about everything you hear and see.

Establish sleeping and eating routines that are maintained to make it easier to schedule outings and other activities, as well as transitioning back to school in August.

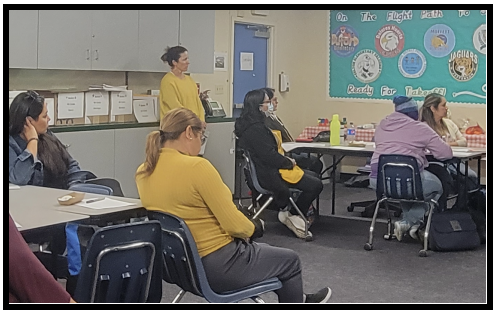
Draw outdoors with chalk or water. Write your child's name so that she/he learns the letter sounds and names in his/her name. Place magnetic letters on the refrigerator to sing the alphabet and other songs.

Whatever activities and experiences you provide your child, make sure to have fun and play. Talk about the activities and have your child keep a journal about the best summer ever. Remember children learn through play.

Teachers Make A Positive Impact

By Nellie Ríos-Parra, Director of State Preschool

On behalf of the Lennox School District State Preschool teachers, I would like to thank you for entrusting us with your child's preschool experience and education. We pride ourselves in creating a safe learning environment and space for each and every child enrolled in our high quality preschool program. Teachers plan lessons that are developmentally appropriate and focused on skill development aligned to the Preschool Learning Foundations and use the Preschool Curriculum Framework to guide the work they do to help each child continue to develop in all domains.



Our focus on Social Emotional Learning (SEL) this year was intended to ensure children were ready to learn. SEL is an area of ongoing need along with all the other content areas, therefore, continue to embrace all the learning opportunities provided to you by our program or wherever your child is enrolled next year. It is our honor to serve your child and your family. Thank you for partnering with us this year. Once you are part of our Preschool Program, you will always be a part of us.

If your child is transitioning to Kindergarten, TK or another school, we wish you well. Keep in touch through a postcard, an email, a photo or through Instagram; @preschool_lennoxsd We look forward to hearing from you over the years.
