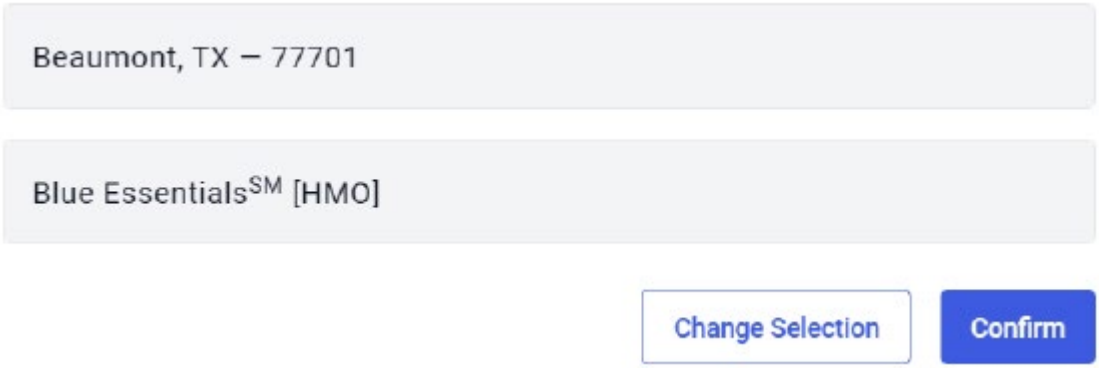
How to use the Find a Provider search tool

1. After clicking the Find a Provider link, check to see if your plan is already selected. If not, click Change Selection and select HMO.

Confirm your location and plan

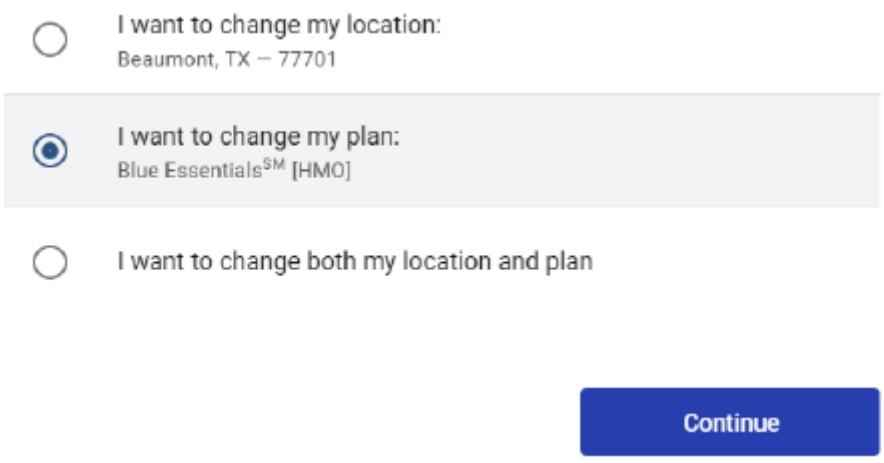
You selected this location and plan the last time you searched for care. Please confirm or update your information.



2. After selecting the criteria you would like to change, click Continue.

Select which criteria you would like to change

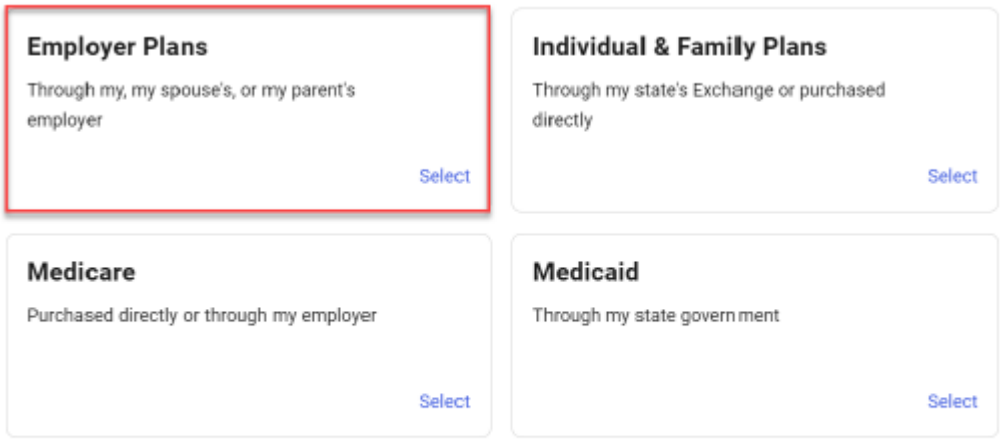
You selected the following location and plan the last time you searched for care:



3. Select the Employer Plans and then Texas for the state.

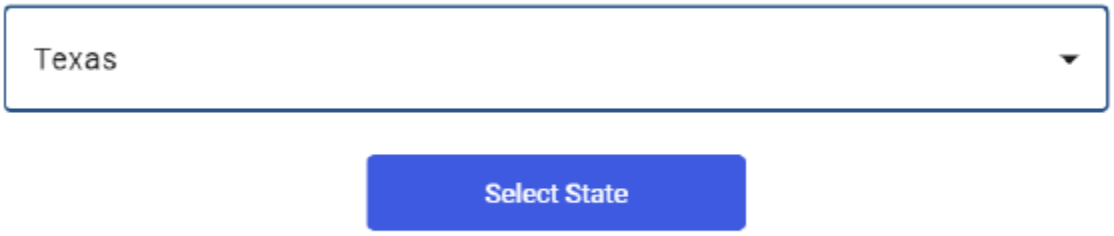
What type of plan would you like to search?

How you get your insurance affects what doctors are in your network. Carefully select to avoid high out-of-network costs.

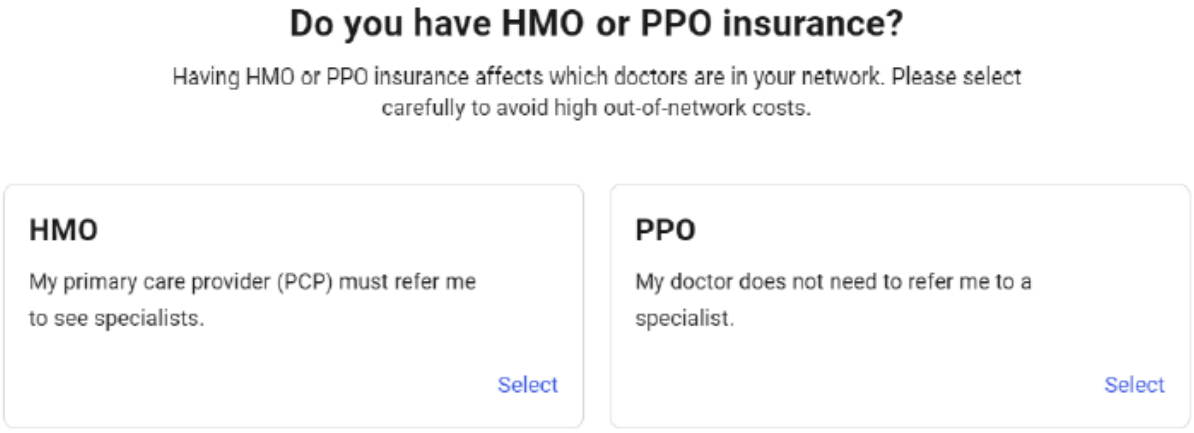


If you are having trouble finding your plan, please try logging in.

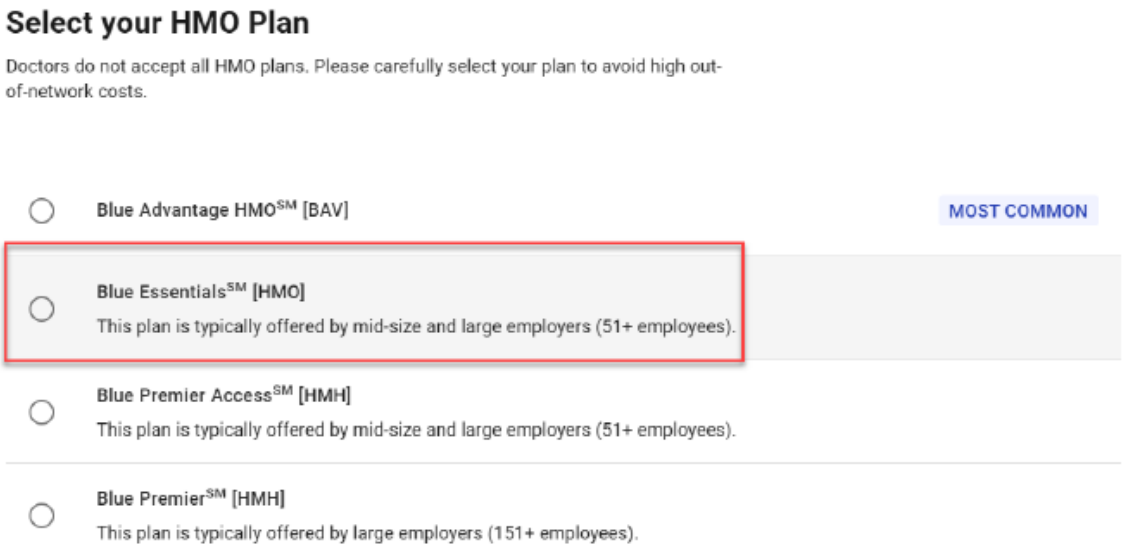
Select the state you currently live in



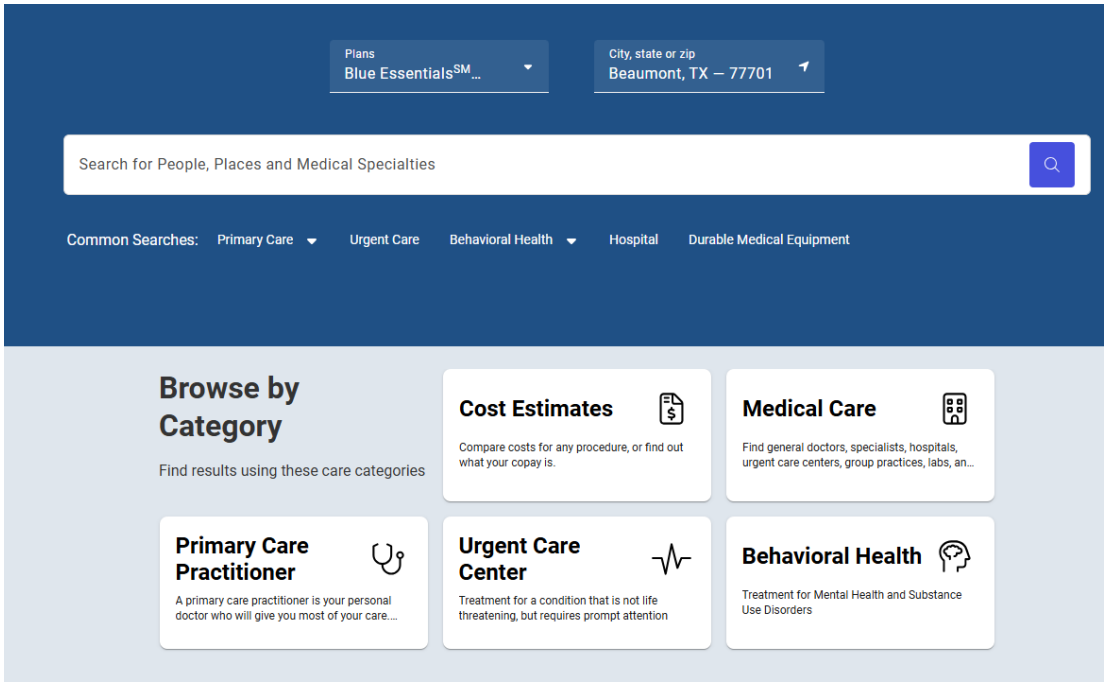
4. From here, you will select the HMO plan:



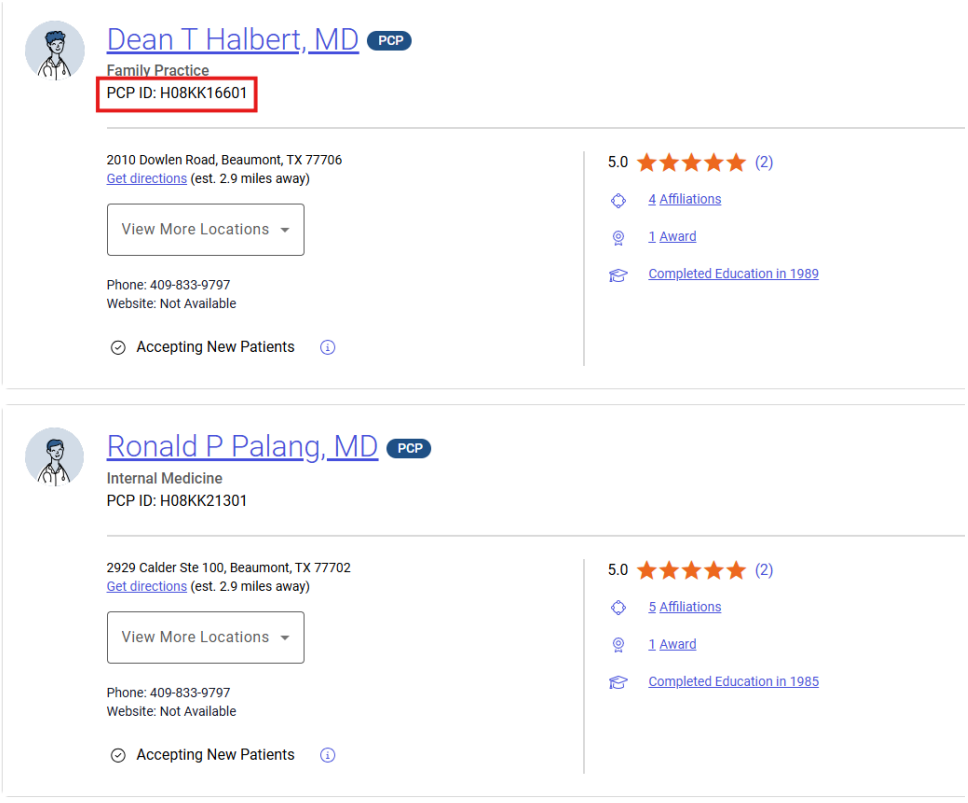
5. Select the Blue Essentials for the HMO Plan.



6. Search for People, Places and Medical Specialties or Select Browse by Category:



7. Highlight and Copy PCP ID Code (10 digit character) listed under Physician's Name:



8. Paste 10 digit PCP ID Code into listed Field:

Please enter your Primary Care Physician (PCP) Code.

To view the provider directory for this plan, click here.

Test, EE [employee]
