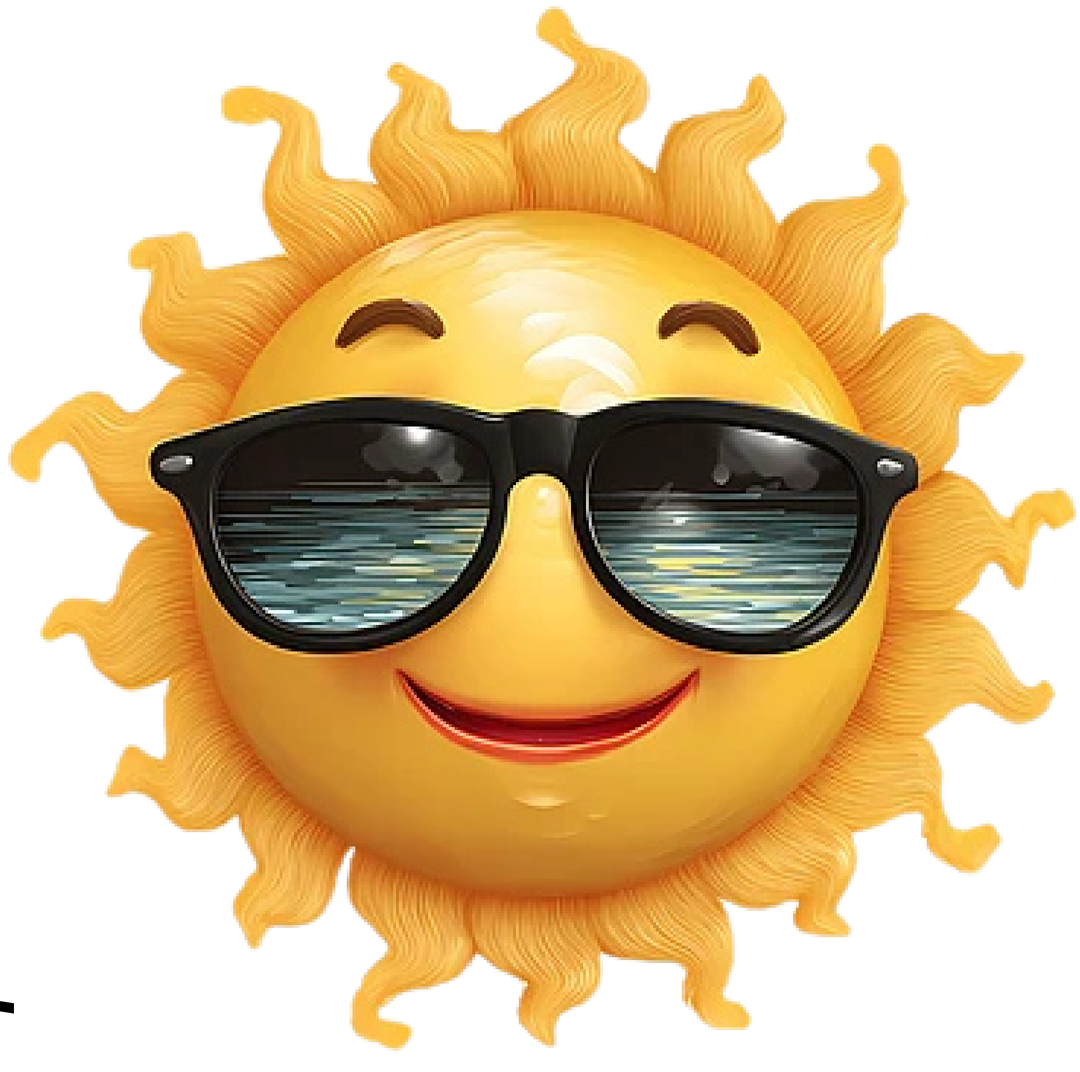
9:10, 10:10, 12:10, 1:10
Selling pop, chips, candy, water, etc.
Low Prices Everyday!
Proceeds benefit LIFE Skills



Laugh Out Loud

By: James Jones

LOL!

What do you call a snowman in July?
A puddle!

Why did the ice cream truck break down?
Because of the Rocky Road!

What does a bee do when it's hot?
He takes off his yellow jacket!

What do you call seagulls that live by the bay?
Bagels!

If you can dream it, you can do it.
-WALT DISNEY

"Be yourself;
everyone else is already taken."
- Oscar Wilde

Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover.
- H. Jackson Brown Jr.

FACTS ABOUT...A HISTORY COLUMN

BY SHANE CRAIG

Clarkston Mill Pond Dam

- In 1838, Jeremiah and Nelson Clark built a 200-foot-long dam on the Clinton River to a depth of 22 feet, creating the Mill Pond to power their gristmill nearby.

- In 1941, Henry Ford improved the Mill Pond Dam so that the increased water pressure could power his Village Industry factory.

- Today, local residents are concerned about the changing water level of Mill Pond as well as the reconstruction and ongoing maintenance of the Mill Pond Dam. Meetings are taking place to address these concerns.
