The School Site Council aligns the Long Beach Unified School District's Strategic Plan and LCAP into the SPSA. The LCAP Goals are presented at: lbschools.net/lcap. The LCAP Federal Addendum is presented at: lbschools.net/departments/business-and-finance/fiscal-services/state-and-federal-programs/state-and-federal-required-plans

Education Code 52062 (4) requires that the superintendent of the school district review school plans for schools within the school district and ensure that the specific actions included in the local control and accountability plan or annual update to the local control and accountability plan are consistent with strategies included in the school plans submitted.

Progress and components of LBUSD's Strategic Plan, viewable at lbschools.net/departments/strategic-planning, are rooted in the following core values:

- Centering student needs and voice
- Authentic community engagement and collaboration
- Culture of innovation and creativity
- Diversity and inclusion
- Environment that fosters connection, respect and safety
- Equity and social justice
- Excellence and accountability through continuous improvement
- Fostering joy and commitment
- Integrity and responsible leadership

The Board of Education has set goals to help guide the district and schools:

Goal 1: Reading: Proficiency

The percentage of Grade 3 students who meet or exceed grade-level standards on the state English Language Arts SBAC assessment will grow from 48% in June 2023 to 70% by June 2028.

Goal 2: Reading: Acceleration

The percentage of students in Grades 4-8 scoring at the “Not Met” achievement level in the prior year who meet the scale score growth target on the state SBAC-English Language Arts assessment will increase from 28% in June 2023 to 60% in June 2028.

Goal 3: Algebra Proficiency

In pursuit of having more than 80% of Black/African American students meet the Algebra A-G requirement by the end of Grade 9, the proficiency gap between Black/African American students and all other students will decline from 5% in June 2023 to 0% by June 2028.

Goal 4: College & Career Readiness

In pursuit of having more than 66% of Black/African American graduating seniors A-G eligible, the proficiency gap between Black/African American students and all other students will decline from 15% in June 2023 to 0% by June 2028

In addition, the SSC recognizes following recommendations made by the District Community Advisory Committee (DCAC) and the District English Learner Advisory Committee (DELAC):

DCAC Recommendations:

- Recommendation 1:** Teachers/school staff train parents in English Language Arts, Math, and other critical topics (such as A-G, SAT, PSAT, Career Pathways, SBAC, etc.) in order for parents to assist students to succeed in school.
- Recommendation 2:** Execute technology purchases to bring computers up-to-date to meet students’ needs. Also, provide parent training in the computer programs and applications that are used in school so parents can assist their children at home.

In previous years, our ELA achievement results have been stagnant. This year, our ELA scores decreased by 4%. All grade levels experienced a drop in proficiency. Our Cambodian and Filipino population of students showed major gains. However, our African American and Latino students showed major decreases. This year our focus is on literacy strategies for all students in all content areas. Our Equity Question is, "How do we ensure that all students, especially our AA and EL student populations, are accessing, analyzing and proving their knowledge with engaging and rigorous text?" Our Theory of Action is, "If we coach our teachers towards critical classroom management and literacy strategies, then teachers will implement strategies that will help students become more critical readers and feel a sense of belonging within their classrooms."

Area	Prior Year Goal	Status	Data Analysis of Goal Attainment and Selected programs and services that impacted goal attainment	For this school year, what modifications may be planned for programs and services to have more positive impact on current year goals
ELA	1) This school year, our focus is towards Tier 1 instruction by building clarity through conceptual understanding and rigor. Teacher receive consistent professional development regarding conceptual understanding and rigor. Teachers have department release days in which they analyze data and strategically plan instruction. By June 2023, our school-wide ELA SBAC goal is to show at least 47% of students will be Met/Exceeded, which is a 12% increase compared to results from Spring 2021. Our Low SES students show a 15% increase in ELA, which will be a proficiency rate of 41%.	Goal Partially or Not Met	Our ELA scores took a slight 3% decrease. We also noted that over 80% of our students are not proficient readers. In order to truly improve the reading and writing scores, students will need to practice independent reading and analysis of text. Goals	
Area	Description
Culture/Climate Goals	Our Culture/Climate goals are geared towards reducing chronic absenteeism and suspension rates while increasing students' sense of belonging. To address our attendance concerns, we have an attendance team that consist of our attendance clerk, our intervention TOSA, another Lindsey staff member and an All-In Attendance representative. This team meets weekly to create and implement an action plan that provides incentives and support for the whole student body and high need students. We also implement restorative justice practices so that students learn how to deal with conflict without causing harm to one another. If harm occurs, we teach students and our collective community how to restore from the harm. With these strategies, our attendance goal set at an overall 95% rate by June 2023.

Attestation:

The School Site Council (SSC), during the process of developing a compliant School Plan for Student Achievement (SPSA), ensured that quality interventions and services for underachieving students are included in the SPSA, with particular focus on student groups who led to the CSI/ATSI identification.

SSC engaged in a thorough needs assessment, based on data, in order to prioritize student needs and analyze interventions/services.

In addition, the SSC engaged in discussions about resource inequalities and was informed about the supports listed in the District's LCAP regarding our identification as a CSI/ATSI school. Resource Inequities and LBUSD's CSI section are included in this Addendum.

In approving the SPSA for the school, the SSC specifically adds this Addendum to the SPSA as part of its CSI/ATSI responsibilities.

Resource Inequities

Schools eligible for CSI or ATSI must identify and describe any resource inequities identified as a result of the required needs assessment. Consideration of resource inequities can inform the assessment of the effectiveness of actions in the SPSA and provide a basis for the establishment of goals and/or expected outcomes for CSI/ATSI Targeted student groups.

In our analysis of our SPSA services, our SSC found the following about resource inequalities for the targeted CSI/ATSI student groups:

- There are no resource inequalities present in our SPSA.** Our CSI/ATSI targeted students are a priority and are receiving appropriate services/interventions through our Schoolwide Program.
- There was evidence of resource inequalities prior to the SPSA being approved.** Our SSC made adjustments to the SPSA in order to correct the issue, and the SPSA is now providing appropriate services/interventions through our Schoolwide Program.
- There is some evidence of resource inequalities in the current SPSA.** However, our SSC continued to make adjustments to the SPSA in order to ensure that the CSI/ATSI targeted students are being given appropriate services/interventions through our Schoolwide Program.
- There is some evidence of resource inequalities in the current SPSA.** However, our SSC has determined that the CSI/ATSI targeted students are receiving appropriate services/interventions through our Schoolwide Program.

Support for Schools as identified in LBUSD's LCAP

Support for Identified Schools

Support for schools is grounded in coaching and professional learning communities. LBUSD has shifted from compliance and at-a-distance supervision practices to a deeply-rooted coaching orientation, partnership in addressing student achievement issues, and a strong emphasis on quality instruction in every classroom, as defined by the district's Understandings Continuum framework. Since 2014, LBUSD has sought to enhance time spent on campuses, with leaders dedicating an average of three to five hours per month on every campus – visits that include classroom observations alongside the principal, data collection related to instructional implementation, and pedagogical guidance for teachers. Comprehensive Support and Improvement (CSI) schools receive even more intense support, particularly in areas like English Language Arts, Mathematics, and graduation rates.

One crucial area of support centers on school-level needs assessments. LBUSD's Research Office provides in-depth data tailored to each site, which are then used to develop interventions in consultation with stakeholders. Academic measures include ELA and Math benchmarks, real-time grades (especially Ds and Fs), and whether students are on track to complete graduation requirements, while non-academic measures cover chronic absenteeism, suspensions, and disciplinary incidents. With assistance from district leaders, curriculum coaches, and other experts, CSI schools drill down by academic skill, by student group, and by logistical factors (e.g., the time of day and location of suspensions). Site staff receive tools and training to create "watch lists" – i.e., lists of classrooms to monitor closely and lists of students who require further interventions. The latter is connected to phone, email, and text communication systems that can help engage families in the process.

Here are specific supports that LBUSD delivered (and will continue to provide moving forward) to help CSI schools develop their plans:

- Level office staff spent additional hours at CSI schools to help principals conduct deeper analyses on chronic absenteeism, suspensions, disciplinary incidents, and survey data related school culture and climate and social-emotional learning. Such analyses were on top of those conducted for academic measures like English Language Arts, Mathematics, and graduation rates. In light of the COVID-19 pandemic, learning loss and other similar issues were also explored.
- Level office staff, curriculum leaders, and other district support departments provided CSI schools with research on successful evidence-based interventions in comparable schools, both at LBUSD and other districts in California. Depending on the programs, the research included either academic studies or best practices. This information was paired with budget information, so that programs can be sustainably developed.
- Level office staff, curriculum leaders, and other district support departments assisted CSI schools with identifying resource inequities by providing reports on current staff levels, budget figures, and logistical data. Through various one-on-one meetings, sites were then guided by content experts in identifying significant resource gaps. For example, a review of a site's English Learner supports would incorporate additional teachers that might be needed, along with the instructional materials, technological software, intervention scheduling design, and other details that would help build out the program, particularly in a distance-learning environment.
- Based on the research and "gap" analyses described in the two previous bullet points, level office staff, curriculum leaders, and other district support departments helped CSI schools select evidence-based interventions. Among the guiding principles that LBUSD promoted in this decision-making process is sustainability – the importance of developing high-impact programs that can be implemented in multi-year timeframes. Given the depth of student needs, it was essential to have a long-term perspective and make adjustments along the way. LBUSD then ensured that CSI schools had training for program implementation.
- Lastly, level office staff, curriculum leaders, and other district support departments helped CSI schools establish monitoring and evaluation systems. Supports included training on how to identify appropriate data to collect (for example, student participation in interventions, related test scores, etc.), how to use LBUSD's "intervention tracker" or similar system, how to schedule data analyses alongside the site visits described above, and how to use feedback for program improvement. In some cases, LBUSD provided CSI schools with sample survey questions for gathering student, parent, and staff perspectives. LBUSD also paired CSI schools with similar partner sites so that data can be compared and promising practices can be shared.

Monitoring and Evaluating Effectiveness

To monitor and evaluate the effectiveness of the CSI plans, quarterly visits will be conducted. These formal visitations will allow site teams to reflect upon their collective efforts and engage colleagues from other schools or district departments for objective feedback.

Quarterly visits will be customized by schools, but follow a common structure:

- **Whole Group Briefing:** The school team (principal, teachers, and support staff) will provide background for the visit by sharing their CSI plans. They will highlight their site data, professional development activities, and key interventions. They will help visitors develop an understanding of their priorities.
- **Classroom Visits:** School team members and visitors will observe classrooms, collecting data and examples that reinforce the school's CSI plans. They will take notes, collect images, and talk to students in order to summarize their observations.
- **Whole Group Debriefing:** School team members will facilitate a debriefing that allows them to understand and affirm the site's continuous improvement efforts. They will focus not only on content delivery, teaching practices, and student actions, but also the various interventions that are being implemented to support struggling learners.
- **Principal Debriefing:** Principals and/or principal supervisors will engage in further discussion regarding next steps. This dialogue will be folded into the regular coaching work described in the previous section.

More broadly, data dashboard tools developed by LBUSD's Research Office will feature "Watch Lists" that allow district and site leaders to monitor the progress of CSI schools, their teachers, and their students. The "Schools to Watch" function will enable appropriate stakeholders to track the percentage of students who are "at-risk," "severely at-risk," "high risk," and "cautiously at-risk" across a broad spectrum of measures, including chronic absenteeism, discipline, reading benchmarks, math facts, course grades, graduation requirements, and high school or college readiness (as applicable). Such real-time data will be used to adjust CSI plans and develop additional interventions for struggling learners.
