The School Site Council (SSC) completed a comprehensive needs assessment, including analyses of student performance in relation to the state

academic content standards. In order to provide supplemental interventions, the SSC analyzed the academic performance of all students and subgroups, and it considered the instructional program's effectiveness for at-promise students.

The School Site Council aligns the Long Beach Unified School District's Strategic Plan and LCAP into the SPSA. The LCAP Goals are presented at: [http://www.lbschools.net/Departments/Local\\_Control/](http://www.lbschools.net/Departments/Local_Control/). The LCAP Federal Addendum is presented at: [http://www.lbschools.net/Departments/EACCR/lea\\_plan.cfm](http://www.lbschools.net/Departments/EACCR/lea_plan.cfm).

Education Code 52062 (4) requires that the superintendent of the school district review school plans for schools within the school district and ensure that the specific actions included in the local control and accountability plan or annual update to the local control and accountability plan are consistent with strategies included in the school plans submitted.

The LBUSD Strategic Plan (2017-2022), which can be viewed at [http://www.lbschools.net/Departments/Strategic\\_Planning/](http://www.lbschools.net/Departments/Strategic_Planning/), has the following goals:

- Ensure equitable opportunities for every student
- Provide a safe, welcoming, respectful and rigorous learning environment for every member of the school community.
- Promote academic growth for every student.
- Establish college and career readiness for every student.
- Support effective communication throughout the district.

In addition, the SSC recognizes following recommendations made by the District Community Advisory Committee (DCAC) and the District English Learner Advisory Committee (DELAC):

**DCAC Recommendations:**

**Recommendation 1:** Teachers/school staff train parents in English Language Arts, Math, and other critical topics (such as A-G, SAT, PSAT, Career Pathways, SBAC, etc.) in order for parents to assist students to succeed in school.

**Recommendation 2:** Execute technology purchases to bring computers up-to-date to meet students' needs. Also, provide parent training in the computer programs and applications that are used in school so parents can assist their children at home.

**Recommendation 3:** Create parent leadership programs for all parents, with an emphasis on assisting early childhood/preK parents to introduce the LBUSD system.

**Recommendation 4:** Create additional, continuous training for all teachers to better serve special education students, African American students,

**Recommendation 10:** Expand tutoring and other intervention programs that emphasize content-specific instruction to meet the individual needs of non-proficient students, including before/after school, Saturday school, “double dose” courses, and Summer school, also considering preK students.

**Recommendation 11:** Expand Summer School opportunities, especially for “transition” grade levels. Explore adding social-emotional and growth mindset instruction for summer programs.

**Recommendation 12:** Work with college partners to provide quality transitional counseling and mentoring services to students, including goal setting, course planning and guidance from current college students.

**Recommendation 13:** Expand programs of instruction to the educational system to new families, including civics education.

**Recommendation 15:** Provide workshops on values and character building that contribute to a safe, civil and productive school.

**DELAC Recommendations:**

1. Monitor the implementation of the district’s comprehensive English Language Development (ELD) program in grades K-12th addressing language and academic needs of a diverse EL population from newcomers to Long Term English Learners.
2. Continue to identify students in need of interventions in English language arts focusing on reading comprehension and math in order to provide individualized services for these students;

In addition, district to monitor these programs to ensure effective implementation as intended and are having a positive impact for EL students.
16. Continue to support the implementation and expansion of bilingual pathway programs with the passage of Proposition 58; not limited to only dual immersion programs but also to include developmental bilingual educational programs
17. To access the periodic review of the authorized and agreed upon DELAC recommendations in order to understand the effectiveness of programs and services for EL students

The SSC recognizes the importance of **Parent and Family Engagement** and emphasizes LBUSD Board Policy 6020.1, which contains the

**Written Analysis - ELA Findings**

**Written Analysis**

All Jefferson students improved the percent met/exceeds from 47% to 50%. Black students decreased from 37.4% met/exceeds to 36.5% met/exceeds. SpEd students improved from 9% to 17%. ELL students improved from 11% to 16%. While most groups improved our Black students went down slightly. We allocated all of our resources to math tutoring and may need to consider support for ELA as well for 23-24. SpEd students improved from 9% to 17%. This was our first year of Co-teach for all RSP students. We feel this was really helpful in increasing ELA achievement. EL students improved from 11% to 16%. EI students had the new CCR support elective and we attribute their gain in ELA.

### English Learners

## Written Analysis - English Learner Findings

### Written Analysis

EL students improved in ELA more than math. This is attributed to the new CCR elective where students were reading, writing, talking and discussing each day in small groups. There was little change in math scores and EL students could use additional support in math. EL students increased slightly from SBAC Math 4.5% to 5%. ELL students improved from SBAC ELA 11% to 16%.  
EL student grades decreased slightly from 26.4% Ds and Fs to 27.9% Ds and Fs.  
EL Attendance has increased from 88% to 90.4%.  
Chronically absent EL students have decreased from 32% to 28%.  
The suspension rate for ELs has remained similar 9.6% to 9.7%.

All Jefferson students with IEPs are now in Co-teach ELA classes. We are using iReady as a part of student goal setting as well as teacher data monitoring. We are targeting tutoring to provide support to our students who are 3 or more grade levels below on the first iReady assessment.</p>

Math	<p>1) All students will improve the percent met/exceeds on SBAC Math from 25% to 50 % by June 2022. Black students will improve the percent met/exceeds on SBAC Math from 9% to 50% by June 2022. All of the Jefferson tutoring time was devoted to Black students. We exhausted our hours and got additional ones that we also exhausted. Students with IEPs went from 2% to 6% proficient. We attribute this gain to having RSP students in Co-teach math classes. EL students did not increase and stayed flat at 4%.</p>	<p>We are continuing our tutoring plan from last year and adding bilingual tutoring in class and after school to help our EL students. Students are involved in student government as well as serving as officers for School Site Council. Student Council, Male Academy, Female Academy, and WEB run all activities on campus. At the club fair in September students were able to shop and select the clubs they were most interested in attending. We continue to advertise clubs and activities each week on the Monday Morning Message. This year: Wellness Wednesday takes place in every elective class. ### Attestation:

The School Site Council (SSC), during the process of developing a compliant School Plan for Student Achievement (SPSA), ensured that quality interventions and services for underachieving students are included in the SPSA, with particular focus on student groups who led to the CSI/ATSI identification.

SSC engaged in a thorough needs assessment, based on data, in order to prioritize student needs and analyze interventions/services.

In addition, the SSC engaged in discussions about resource inequalities and was informed about the supports listed in the District's LCAP regarding our identification as a CSI/ATSI school. Resource Inequities and LBUSD's CSI section are included in this Addendum.

In approving the SPSA for the school, the SSC specifically adds this Addendum to the SPSA as part of its CSI/ATSI responsibilities.

## Resource Inequities

Schools eligible for CSI or ATSI must identify and describe any resource inequities identified as a result of the required needs assessment. Consideration of resource inequities can inform the assessment of the effectiveness of actions in the SPSA and provide a basis for the establishment of goals and/or expected outcomes for CSI/ATSI Targeted student groups.

In our analysis of our SPSA services, our SSC found the following about resource inequalities for the targeted CSI/ATSI student groups:

- There are no resource inequalities present in our SPSA.** Our CSI/ATSI targeted students are a priority and are receiving appropriate services/interventions through our Schoolwide Program.
- There was evidence of resource inequalities prior to the SPSA being approved.** Our SSC made adjustments to the SPSA in order to correct the issue, and the SPSA is now providing appropriate services/interventions through our Schoolwide Program.
- There is some evidence of resource inequalities in the current SPSA.** However, our SSC continued to make adjustments to the SPSA in order to ensure that the CSI/ATSI targeted students are being given appropriate services/interventions through our Schoolwide Program.
- There is some evidence of resource inequalities in the current SPSA.** However, our SSC has determined that the CSI/ATSI targeted students are receiving appropriate services/interventions through our Schoolwide Program.

## Support for Schools as identified in LBUSD's LCAP

### Support for Identified Schools

Support for schools is grounded in coaching and professional learning communities. LBUSD has shifted from compliance and at-a-distance supervision practices to a deeply-rooted coaching orientation, partnership in addressing student achievement issues, and a strong emphasis on quality instruction in every classroom, as defined by the district's Understandings Continuum framework. Since 2014, LBUSD has sought to enhance time spent on campuses, with leaders dedicating an average of three to five hours per month on every campus – visits that include classroom observations alongside the principal, data collection related to instructional implementation, and pedagogical guidance for teachers. Comprehensive Support and Improvement (CSI) schools receive even more intense support, particularly in areas like English Language Arts, Mathematics, and graduation rates.

One crucial area of support centers on school-level needs assessments. LBUSD's Research Office provides in-depth data tailored to each site, which are then used to develop interventions in consultation with stakeholders. Academic measures include ELA and Math benchmarks, real-time grades (especially Ds and Fs), and whether students are on track to complete graduation requirements, while non-academic measures cover chronic absenteeism, suspensions, and disciplinary incidents. With assistance from district leaders, curriculum coaches, and other experts, CSI schools drill down by academic skill, by student group, and by logistical factors (e.g., the time of day and location of suspensions). Site staff receive tools and training to create "watch lists" – i.e., lists of classrooms to monitor closely and lists of students who require further interventions. The latter is connected to phone, email, and text communication systems that can help engage families in the process.

Here are specific supports that LBUSD delivered (and will continue to provide moving forward) to help CSI schools develop their plans:

- Level office staff spent additional hours at CSI schools to help principals conduct deeper analyses on chronic absenteeism, suspensions, disciplinary incidents, and survey data related school culture and climate and social-emotional learning. Such analyses were on top of those conducted for academic measures like English Language Arts, Mathematics, and graduation rates. In light of the COVID-19 pandemic, learning loss and other similar issues were also explored.
- Level office staff, curriculum leaders, and other district support departments provided CSI schools with research on successful evidence-based interventions in comparable schools, both at LBUSD and other districts in California. Depending on the programs, the research included either academic studies or best practices. This information was paired with budget information, so that programs can be sustainably developed.
- Level office staff, curriculum leaders, and other district support departments assisted CSI schools with identifying resource inequities by providing reports on current staff levels, budget figures, and logistical data. Through various one-on-one meetings, sites were then guided by content experts in identifying significant resource gaps. For example, a review of a site's English Learner supports would incorporate additional teachers that might be needed, along with the instructional materials, technological software, intervention scheduling design, and other details that would help build out the program, particularly in a distance-learning environment.
- Based on the research and "gap" analyses described in the two previous bullet points, level office staff, curriculum leaders, and other district support departments helped CSI schools select evidence-based interventions. Among the guiding principles that LBUSD promoted in this decision-making process is sustainability – the importance of developing high-impact programs that can be implemented in multi-year timeframes. Given the depth of student needs, it was essential to have a long-term perspective and make adjustments along the way. LBUSD then ensured that CSI schools had training for program implementation.
- Lastly, level office staff, curriculum leaders, and other district support departments helped CSI schools establish monitoring and evaluation systems. Supports included training on how to identify appropriate data to collect (for example, student participation in interventions, related test scores, etc.), how to use LBUSD's "intervention tracker" or similar system, how to schedule data analyses alongside the site visits described above, and how to use feedback for program improvement. In some cases, LBUSD provided CSI schools with sample survey questions for gathering student, parent, and staff perspectives. LBUSD also paired CSI schools with similar partner sites so that data can be compared and promising practices can be shared.

**Monitoring and Evaluating Effectiveness**

To monitor and evaluate the effectiveness of the CSI plans, quarterly visits will be conducted. These formal visitations will allow site teams to reflect upon their collective efforts and engage colleagues from other schools or district departments for objective feedback.

Quarterly visits will be customized by schools, but follow a common structure:

- **Whole Group Briefing:** The school team (principal, teachers, and support staff) will provide background for the visit by sharing their CSI plans. They will highlight their site data, professional development activities, and key interventions. They will help visitors develop an understanding of their priorities.
- **Classroom Visits:** School team members and visitors will observe classrooms, collecting data and examples that reinforce the school's CSI plans. They will take notes, collect images, and talk to students in order to summarize their observations.
- **Whole Group Debriefing:** School team members will facilitate a debriefing that allows them to understand and affirm the site's continuous improvement efforts. They will focus not only on content delivery, teaching practices, and student actions, but also the various interventions that are being implemented to support struggling learners.
- **Principal Debriefing:** Principals and/or principal supervisors will engage in further discussion regarding next steps. This dialogue will be folded into the regular coaching work described in the previous section.

More broadly, data dashboard tools developed by LBUSD's Research Office will feature "Watch Lists" that allow district and site leaders to monitor the progress of CSI schools, their teachers, and their students. The "Schools to Watch" function will enable appropriate stakeholders to track the percentage of students who are "at-risk," "severely at-risk," "high risk," and "cautiously at-risk" across a broad spectrum of measures, including chronic absenteeism, discipline, reading benchmarks, math facts, course grades, graduation requirements, and high school or college readiness (as applicable). Such real-time data will be used to adjust CSI plans and develop additional interventions for struggling learners.

### Atestación:

El Concilio de Plantel Escolar (SSC, por sus siglas en inglés), durante el proceso de desarrollo de un Plan Escolar para el Logro Estudiantil (SPSA, por sus siglas en inglés), se aseguró de que se incluyan intervenciones y servicios de calidad para los estudiantes de bajo rendimiento en el SPSA, con especial atención en los grupos de estudiantes que llevaron a la identificación Apoyo y Mejora Integral (CSI, por sus siglas en inglés)/ Apoyo y Mejora Específica Adicional (ATSI, por sus siglas en inglés).

SSC participó en una evaluación exhaustiva de las necesidades, basada en datos, con el fin de dar prioridad a las necesidades de los estudiantes y analizar las intervenciones / servicios.

Además, el SSC participó en conversaciones sobre las desigualdades de recursos y fue informado sobre los apoyos enumerados en el Plan Local de Control y Rendición de cuentas (LCAP, por sus siglas en inglés) del Distrito con respecto a nuestra identificación como escuela CSI/ATSI. Las inequidades de recursos y la sección CSI del LBUSD se incluyen en este Anexo.

Al aprobar el SPSA para la escuela, el SSC agrega específicamente este Anexo al SPSA como parte de sus responsabilidades de CSI/ATSI.

## Inequidad de recursos

Las escuelas elegibles para CSI o ATSI deben identificar y describir cualquier inequidad de recursos identificada como resultado de la evaluación de necesidades requerida. La consideración de las inequidades de recursos puede informar la evaluación de la eficacia de las acciones en el SPSA y proporcionar una base para el establecimiento de metas y/o resultados esperados para los grupos de estudiantes a los que CSI/ATSI está dirigido.

En nuestro análisis de nuestros servicios SPSA, nuestro SSC encontró lo siguiente sobre las desigualdades de recursos para los grupos de estudiantes a los que CSI/ATSI está dirigido:

- No hay inequidades de recursos presentes en nuestro SPSA.** Nuestros estudiantes a los que CSI / ATSI está dirigido son una prioridad y están recibiendo servicios / intervenciones apropiados a través de nuestro programa de toda la escuela.
- Había evidencia de inequidad de recursos antes de que se aprobara el SPSA.** Nuestro SSC hizo ajustes al SPSA con el fin de corregir el problema, y el SPSA ahora está proporcionando servicios / intervenciones apropiadas a través de nuestro programa de toda la escuela.
- Hay alguna evidencia de desigualdad de recursos en el SPSA actual.** Sin embargo, nuestro SSC continuó haciendo ajustes a la SPSA con el fin de asegurar que los estudiantes a los que CSI / ATSI está dirigido reciben servicios / intervenciones apropiadas a través de nuestro programa de toda la escuela.
- Hay alguna evidencia de inequidades de recursos en el SPSA actual.** Sin embargo, nuestro SSC ha determinado que los estudiantes a los que CSI / ATSI está dirigido están recibiendo servicios / intervenciones apropiados a través de nuestro programa de toda la escuela.

## Apoyo para las escuelas según se identifica en el LCAP del LBUSD

### Apoyo para Escuelas Identificadas

El apoyo a las escuelas está basado en asesoramiento y comunidades de formación profesional. El LBUSD ha pasado de prácticas de cumplimiento y supervisión a distancia a una orientación de asesoramiento profundamente arraigada, asociación para abordar problemas de logro estudiantil y un marcado énfasis en la instrucción de calidad en cada salón de clases, según lo definido por el marco del Continuo de Entendimientos del distrito. Desde 2014, el LBUSD ha buscado mejorar el tiempo dedicado a los planteles escolares, con líderes que dedican un promedio de tres a cinco horas al mes en cada plantel-visitas que incluyen observaciones en el salón de clases junto con el director, recopilación de datos relacionados con la implementación de la instrucción y orientación pedagógica para los maestros. Las escuelas de Apoyo y Mejora Integral (CSI) reciben un apoyo aún más intenso, particularmente en áreas como artes de lenguaje del idioma inglés, matemáticas e índices de graduación.

Un área crucial de apoyo se centra en la evaluación de necesidades a nivel escolar. La Oficina de Investigación Escolar del LBUSD proporciona datos en profundidad adaptados a cada plantel, que luego se utilizan para desarrollar intervenciones en consulta con las partes interesadas. Las medidas académicas incluyen los parámetros de ELA y matemáticas, las calificaciones en tiempo real (especialmente las D y F), y si los estudiantes están en camino a completar los requisitos de graduación, mientras que las medidas no académicas cubren el ausentismo crónico, las suspensiones y los incidentes disciplinarios. Con la ayuda de líderes del distrito, asesores de plan de estudios y otros expertos, las escuelas de CSI examinan a fondo por habilidad académica, por grupo de estudiantes y por factores logísticos (por ejemplo, la hora del día y la ubicación de las suspensiones). El personal del plantel escolar recibe herramientas y capacitación para crear “listas de vigilancia”, es decir, listas de salones de clases para supervisar de cerca y listas de estudiantes que requieren más intervenciones. Este último está conectado a sistemas de comunicación por teléfono, correo electrónico y texto que pueden ayudar a involucrar a las familias en el proceso.

Aquí hay apoyos específicos que el LBUSD presentó (y continuará proporcionando en el futuro) para ayudar a las escuelas de CSI a desarrollar sus planes:

- El personal de las oficinas por nivel pasó horas adicionales en las escuelas de CSI para ayudar a los directores a realizar análisis más profundos sobre el ausentismo crónico, las suspensiones, los incidentes disciplinarios y los datos de encuestas relacionados con la cultura y el ambiente escolar y el aprendizaje socioemocional. Dichos análisis fueron además de los realizados para medidas académicas como artes de lenguaje del idioma inglés, matemáticas e índices de graduación. A la luz de la pandemia de COVID-19, también se exploraron la pérdida del aprendizaje y otros problemas similares.
- El personal de las oficinas por nivel, los líderes del plan de estudios y otros departamentos de apoyo del distrito les proporcionaron a las escuelas de CSI investigaciones sobre intervenciones exitosas basadas en evidencia en escuelas comparables, tanto en el LBUSD como en otros distritos de California. Dependiendo de los programas, la investigación incluyó estudios académicos o mejores prácticas. Esta información se combinó con la información presupuestaria, para que los programas puedan desarrollarse de manera sostenible.
- El personal de las oficinas por nivel, los líderes del plan de estudios y otros departamentos de apoyo del distrito ayudaron a las escuelas de CSI a identificar las inequidades de recursos al proporcionar informes sobre los niveles actuales del personal, las cifras presupuestarias y los datos logísticos. Por medio de varias reuniones individuales, los planteles escolares fueron guiados por expertos en contenido para identificar brechas significativas en los recursos. Por ejemplo, una revisión de los apoyos para estudiantes que están aprendiendo inglés de un plantel escolar incorporaría los maestros adicionales que podrían ser necesarios, junto con los materiales de instrucción, el software tecnológico, el diseño de la programación de intervenciones y otros detalles que ayudarían a desarrollar el programa, particularmente en un entorno de aprendizaje a distancia.
- Con base en la investigación y los análisis de “brechas” descritos en los dos puntos anteriores, el personal de las oficinas por nivel, los líderes del plan de estudios y otros departamentos de apoyo del distrito ayudaron a las escuelas de CSI a elegir intervenciones basadas en evidencia. Entre los principios básicos que el LBUSD promovió en este proceso de

toma de decisiones está la sostenibilidad, la importancia de desarrollar programas de alto impacto que puedan implementarse en plazos de varios años. Dada la intensidad de las necesidades de los estudiantes, era esencial tener una perspectiva a largo plazo y hacer ajustes en el camino. LBUSD luego se aseguró de que las escuelas de CSI tuvieran capacitación para la implementación del programa.

- Por último, el personal de las oficinas por nivel, los líderes del plan de estudios y otros departamentos de apoyo del distrito ayudaron a las escuelas de CSI a establecer sistemas de supervisión y evaluación. Los apoyos incluyeron capacitación sobre cómo identificar los datos apropiados para recopilar (por ejemplo, la participación de los estudiantes en las intervenciones, los resultados de las pruebas relacionadas, etc.), cómo usar el “rastreador de intervención” del LBUSD o un sistema similar, cómo programar análisis de datos junto con las visitas al plantel escolar descritas anteriormente, y cómo usar la retroalimentación para mejorar el programa. En algunos casos, el LBUSD proporcionó a las escuelas de CSI ejemplos de de la encuesta de muestra para reunir perspectivas de estudiantes, padres de familia y personal. El LBUSD también emparejó las escuelas CSI con planteles asociados similares para que los datos puedan compararse y las prácticas prometedoras puedan compartirse.

### Supervisión y evaluación de la eficacia

Para supervisar y evaluar la eficiencia de los planes CSI, se realizarán visitas trimestrales. Estas visitas formales permitirán a los equipos del plantel escolar reflexionar sobre sus esfuerzos colectivos e involucrar a colegas de otras escuelas o departamentos del distrito para obtener comentarios objetivos.

Las visitas trimestrales serán personalizadas por las escuelas, pero siguen una estructura común:

- **Instrucciones a todo el Grupo:** El equipo de la escuela (director, maestros y personal de apoyo) proporcionará antecedentes para la visita compartiendo sus planes de CSI. Destacarán los datos de su plantel escolar, las actividades de formación profesional y las intervenciones clave. Ayudarán a los visitantes a desarrollar una comprensión de sus prioridades.
- **Visitas al salón de clases:** Los miembros del equipo escolar y los visitantes observarán los salones de clases, recopilando datos y ejemplos que refuerzan los planes de CSI de la escuela. Tomarán notas, recolectarán imágenes y hablarán con los estudiantes para resumir sus observaciones.
- **Informe de Grupo Completo:** Los miembros del equipo escolar facilitarán un informe que les permita comprender y afirmar los esfuerzos de mejora continua del plantel escolar. Se centrarán no sólo en la entrega de contenido, las prácticas de enseñanza y las acciones de los estudiantes, sino también en las diversas intervenciones que se están implementando para apoyar a los estudiantes con dificultades.
- **Informe del director:** Los directores y/o supervisores de directores participarán en más conversaciones sobre los próximos pasos. Este diálogo se integrará en el trabajo de orientación regular descrito en la sección anterior.

En términos más generales, las herramientas del tablero de datos desarrolladas por la Oficina de Investigación Escolar del LBUSD incluirán “Listas de Vigilancia” que permiten a los líderes del distrito y del plantel escolar supervisar el progreso de las escuelas de CSI, sus maestros y sus estudiantes. La función “escuelas a observar” permitirá a las partes interesadas apropiadas rastrear el porcentaje de estudiantes que están “en riesgo”, “severamente en riesgo”, “de alto riesgo” y “cautelosamente en riesgo” a través de un amplio espectro de medidas, incluyendo absentismo crónico, disciplina, indicadores de nivel de lectura, operaciones matemáticas, etc. calificaciones del curso, requisitos de graduación y preparación para la escuela preparatoria la universidad (según corresponda). Estos datos en tiempo real se utilizarán para ajustar los planes de CSI y desarrollar intervenciones adicionales para los estudiantes con dificultades.
