July 24, 2026

Dear superintendents and BOCES directors,

Today, I am sharing the following updates:

- Reminder: upcoming migration for CDE's identity management system

Reminder: upcoming migration for CDE's identity management system

As I shared last week, we have identified a new cut over (migration) for the CDE's identity management system (IDM). We are targeting August 4 as our cut over date. We will provide additional details to your Local Access Managers (LAMs) as we approach this date. CDE will import users into the new IDM system - t his will reduce the amount of work required by LAMs.

We are requesting that LAMs take the following actions and have already shared this information with them:

DO NOW - By Wednesday, July 29

- **Do add** all known new users to the existing system.
- **Do deactivate** any users that are no longer valid.
- **Do update system** with any other known changes.

DO NOT DO (CHANGE FREEZE) - Between Thursday, July 30 and Tuesday, August 4

- **DO NOT** make any modifications (adds, deletions, modifications) to the existing IdM access manager system.
- If modifications are made during this period, they **will not be** rolled over into the new IdM system.

Thank you for your support with this. If you have any questions, feel free to reach out to me.

Warm regards,
Susana Córdova
