EQUAL OPPORTUNITY (*Policy JAA*)

No person shall, on the basis of sex, race, handicap, religion or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any other program or activity operated by the Tishomingo County Schools.

COMPLIANCE WITH FAMILY EDUCATION RIGHTS AND PRIVACY ACT OF 1974 (FERPA)
(*Policy JRAB*)

In accordance with the policy of the Tishomingo County Special Municipal Separate School District Board of Education, the following regulation shall govern the release of student records to students and members of the student's family, legal custodian, or legal guardian.

Disclosure

School officials are regularly asked to balance the interests of safety and privacy for individual students. While the *Family Educational Rights and Privacy Act (FERPA)* generally requires schools to ask for written consent before disclosing a student's personally identifiable information to individuals other than his/her parents, it also allows schools to take key steps to maintain school safety. Understanding the law empowers school officials to act decisively and quickly when issues arise.

Under FERPA, school officials may disclose any and all education records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of the *Individuals with Disabilities Education Act*, to another school or postsecondary institution at which the student seeks or intends to enroll. While parental consent is not required for transferring education records, the school's annual FERPA notification should indicate that such disclosures are made. In the absence of information about disclosures in the annual FERPA notification, school officials must make a reasonable attempt to notify the parent about the disclosure, unless the parent initiated the disclosure. Additionally, upon request, schools must provide a copy of the information disclosed and an opportunity for a hearing. See 34CFR 99.31(a)(2) and 99.34(a).

The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Request to Amend a Record

Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

Filing a Complaint

The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-5901.

[NOTE: In addition, a school may want to include its directory information public notice, as required by 99.37 of the regulations, with its annual notification of rights under FERPA.]

Health or Safety Emergency

In an emergency, FERPA permits school officials to disclose without consent education records, including personally identifiable information from those records, to protect the health or safety of student or other individuals. At such times, records and information may be released to appropriate parties such as law enforcement officials, public health officials, and trained medical personnel. See 34 CFR 99.31(a)(10) and 99.36. This exception is limited to the period of the emergency and generally does not allow for a blanket release of personally identifiable information from a student's education records.

Law Enforcement Unit Records

Many school districts employ security staff to monitor safety and security in and around schools. Some schools employ off-duty police officers as school security officers, while others designate a particular school official to be responsible for referring potential or alleged violations of law to local police authorities. Under FERPA, investigative reports and other records created and maintained by these "law enforcement units" are not considered "education records" subject to FERPA. Accordingly, schools may disclose information from law enforcement unit records to anyone, including outside law enforcement authorities, without parental consent. See 34 CFR 99.8. While a school has flexibility in deciding how to carry out safety functions, it must also indicate to parents in its school policy or information provided to parents which office or school official serves as the school's "law enforcement unit". (The school's notification to parents of their rights under FERPA can include this designation. As an example, the U.S. Department of Education has posted a model notification on the Web at <http://www.ed.gov/policy/gen/guid/fpco/ferpa/lea-officials.html>)

Security Videos

Schools are increasingly using security cameras as a tool to monitor and improve student safety. Images of students captured on security videotapes that are maintained by the school's law enforcement unit are not considered education records under FERPA. Accordingly, these videotapes/electronic storage devices may be shared with parents of student whose images are on the video and with outside law enforcement authorities, as appropriate. Schools that do not have a designated law enforcement unit might consider designating an employee to serve as the "law enforcement unit" in order to maintain the security camera and determine the appropriate circumstances in which the school would disclose recorded images. Tishomingo County School District has some security cameras on each campus.

School Resource Officers

School Resource Officers are located within the school district and they serve under the direction of the Tishomingo County School Campus Policy Department Police Chief in conjunction with the school principal on the campus where the officer is stationed. The Tishomingo County School Campus Policy Department Police Chief serves as the lead for the "Law Enforcement Unit".

Personal Knowledge or Observation

FERPA does not prohibit a school official from disclosing information about a student if the information is obtained through the school official's personal knowledge or observation, and not from the student's education records. For example, if a teacher overhears a student making threatening remarks to other students, FERPA does not protect that information, and the teacher may disclose what he/she overheard to appropriate authorities.

DEFINITIONS

For the purpose of this regulation, the school district has used the following definitions of terms:

Student: Any person who attends or has attended a program of instruction sponsored by the board of education of this school district.

Eligible Student: A student or former student who has reached age 18 or is attending a post-secondary school, and who is no longer a dependent of the parent for federal tax purposes.

Parent: Either natural parent of a student unless his or her rights under the Family Education Rights and Privacy Act (FERPA) have been removed by a court order; an adopted parent; a guardian; or an individual acting as a parent or guardian in the absence of the student's parent or guardian.

Education Records: Any item of information or record (in handwriting, print, computer media, video or audio tapes, film, microfilm, microfiche, or other medium) maintained by the school district, an employee of the district, or an agent of the district which is directly related to an identifiable student except:

1. A personal record, including informal notes, kept by a school staff member, which meets the following tests:
 - a. It was made as a personal memory aid;
 - b. It is in the sole possession of the individual who made it; or
 - c. Information contained in it has never been revealed or made available to any other person except the maker's temporary substitute;
2. An employment record which is used only in relation to a student's employment by the school district (employment for this purpose does not include activities for which a student receives a grade or credit in a course); or
3. Alumni records that relate to the student after the student no longer attends classes provided by the school district and the records do not relate to the person as a student.

Personal Identifier: Any data or information that makes the subject of a record known. This includes the student's name, the student's parents or other family member's name, the student's address, the student's social security number, a student number, a list of personal characteristics, or any other information that would make the student's identity known.

ANNUAL NOTIFICATION

Within the first month of each school year, the school district will publish a notice to parents and eligible students of their FERPA rights. This student handbook, which is available online at www.tcsk12.com or by request, serves as notification. The student handbook and all FERPA information can be made available during student registration or anytime during the school year, via request at the student's school. Parents and students must sign receipt by signing each has read and understands the information contained within the student handbook.

The notice will include the following:

1. The right of a student's parent or eligible student to inspect and review the student's education records;
2. The intent of the school district is to limit the disclosure of information contained in a student's education records except: (1) by the prior written consent of the student's parent or the eligible student, (2) as directory information, or, (3) under certain limited circumstances, as permitted by the FERPA;
3. The right of a student's parent or an eligible student to seek to correct parts of the student's education records which he or she believes to be inaccurate, misleading, or in violation of student rights (this right includes the right to a hearing to present evidence that the record should be changed if the district decides not to alter it according to the parent's or eligible student's request and the right to insert in the student's permanent records an explanatory statement giving reasons for disagreeing with the decision);
4. The right of any person to file a complaint with the Department of Education if the school district violates the FERPA; and
5. The procedure that a student's parent or an eligible student should follow to obtain copies of this policy and the locations where copies may be obtained, upon request.

The district will arrange to provide translations of this notice to non-English speaking parents in their native language.

STATEMENT OF RIGHTS

Parents and eligible students have the following rights under the Family Education Rights and Privacy Act and this policy:

1. The right to inspect and review the student's education record;
2. The right to exercise a limited control over other people's access to the student's education record;
3. The right to seek to correct the student's education record, in a hearing, if necessary;
4. The right to report violations of the FERPA to the Department of Education; and
5. The right to be informed about FERPA rights.

All rights and protections given parents under the FERPA and this policy transfer to the student when the student reaches 18 or enrolls in a post-secondary school.

PROCEDURE TO INSPECT EDUCATION RECORDS

The parent of a student or an eligible student may inspect the student's education records upon request. In some circumstances, it may be mutually more convenient for the record custodian to provide copies of records. See the schedule of fees for copies below.

Since a student's records may be maintained in several locations, the school principals will offer to collect copies of records or the records themselves from locations other than a student's school, so they may be inspected at one site. However, if a parent or eligible student wishes to inspect records where they are maintained, school principals will make every effort to accommodate the wishes.

The parent or eligible student should submit to the student's school principal a written request that identifies, as precisely as possible, the record or records he or she wishes to inspect.

The principal (or other record custodian) will contact the parent of the student or the eligible student to discuss how access will be best arranged (copies, at the exact location, or records brought to a single site).

The principal (or other record custodian) will make the needed arrangements as promptly as possible and notify the parent or eligible student of the time and place where the records may be inspected. This procedure must be completed in 45 days or less from the receipt of the request for access.

If for any valid reason, such as working hours, distance between record location sites, or health, a parent or eligible student cannot personally inspect and review a student's education record, the school district will arrange for the parent or eligible student to obtain copies of the record. See below for information regarding fees for copies of records.

When a record contains information about students other than a parent's child or the eligible student, the parent or eligible student may not inspect and review the records of the other students.

FEEES FOR COPIES OF RECORDS

The school district will not deny parents or eligible students any rights to copies of records because of the following published fees. Where the fee represents an unusual hardship, it may be waived in part, or in whole, by the record custodian. However, the district reserves the right to charge for copies, such as transcripts, it forwards to potential employers or to colleges and universities for employment or admission purposes. The school district may deny copies of records (except for those required by the FERPA) in the following situations:

2. The student has an unpaid financial obligation to the school.
3. There is an unresolved disciplinary action against the student that warrants the denial of copies.

FERPA requires the school district to provide copies of records:

- g) When the refusal to provide copies effectively denies access to the records by a parent or eligible student;
- h) At the request of the parent or eligible students when the school district has provided the records to third parties by the prior consent of the parent or eligible student; or

- i) At the request of the parent or eligible student when the school district has forwarded the records to another school where the student seeks or intends to enroll.

The fee for copies provided under the FERPA may not include the costs for search and retrieval. The fee will be from no cost to ten cents per page. (Actual copying cost, less hardship factor.)

The fee for all other copies, such as copies of records forwarded to third parties with prior consent or those provided to parents as a convenience, will be from ten cents to thirty-five cents per page (actual search, retrieval, and copying cost) plus postage, if incurred.

DIRECTORY INFORMATION

The school district proposes to designate the following personally identifiable information contained in a student's education record as "directory information." (NOTE: A district may designate all, some, or none of this information as directory information.)

3. The student's name, address, and telephone number;
4. The names of the student's parents;
5. The student's date and place of birth;
6. The student's major field of study and class designation (i.e., first grade, tenth grade, etc.);
7. The student's extracurricular participation;
8. The student's achievement awards or honors;
9. The student's weight and height if a member of an athletic team;
10. The student's photograph;
11. The student's electronic mail address;
12. The student's dates of attendance; and
13. The most recent educational institution the student attended prior to the student enrolling in this school district.

Within the first month of each school year, the school district will publish the above list, or a revised list, of items of directory information it proposes to designate as directory information. For students enrolling after the notice is published, the list will be given to the student's parent or the eligible student at the time and place of enrollment.

After the parent or eligible student has been notified, he or she will have two weeks to advise the school district in writing (a letter to the school superintendent's office) of any or all of the items they refuse to permit the district to designate as directory information about the student.

At the end of the two-week period, each student's record will be appropriately marked by the record custodian to indicate the items the district will designate as directory information about the student. This designation will remain in effect until it is modified by the written direction of the student's parent or the eligible student.

USE OF STUDENT EDUCATION RECORDS

To carry out their responsibilities, school officials will have access to student education records for legitimate educational purposes. The school district will use the following criteria to determine who are school officials. An official is:

1. A person duly elected to the school board;
2. A person certified by the state and appointed by the school board to an administrative or supervisory position;
3. A person certified by the state and under contract to the school board as an instructor;
4. A person employed by the school board as a temporary substitute for administrative, supervisory, or instructional personnel for the period of his or her performance as a substitute; or
5. A person employed by, or under contract to, the school board to perform a special task such as a secretary, a clerk, the school board attorney or auditor, for the period of his or her performance as an employee or contractor.

School officials who meet the criteria listed above will have access to a student's records if they have a legitimate educational interest in doing so. A "legitimate educational interest" is the person's need to know in order to:

1. Perform an administrative task required in the school employee's position description approved by the school board;
2. Perform a supervisory or instructional task directly related to the student's education; or
3. Perform a service or benefit for the student or the student's family such as health care, counseling, student job placement, or student financial aid.

The school district will only release information from, or permit access to, a student's education record with a parent's or eligible student's prior written consent except that the school superintendent, or a person designated in writing by the superintendent, may permit disclosure:

1. When a student seeks or intends to enroll in another school district or a post-secondary school (the district will not further notify the parent or eligible student prior to such a transfer of records; the parent or eligible student has a right to obtain copies of records transferred under this provision);
2. When certain federal and state officials need information in order to audit or enforce legal conditions related to federally supported education programs in the district;
3. The parties who provide or may provide financial aid to a student to:

- Establish the student's eligibility for the aid,
 - Determine the amount of financial aid,
 - Establish the conditions for the receipt of the financial aid, or
 - Enforce the agreement between the provider and the receiver of financial aid;
4. When the school district has entered into a written agreement or contract for an organization to conduct studies on the school district's behalf to develop tests, administer student aid, or improve instruction;
 5. To accrediting organizations to carry out their accrediting functions;
 6. To comply with a judicial order or lawfully issued subpoena (the district will make a reasonable effort to notify the student's parent or the eligible student before making a disclosure under this provision); or
 7. If the disclosure is an item of directory information, and the student's parent or eligible student has not refused to allow the district to designate that item as directory information for the student; or
 8. In response to an ex parte order of the Attorney General of the United States or his/her designee in connection with the investigation or prosecution of terrorism crimes.

The school district will permit any of its officials to make the needed disclosure from student education records in a health or safety emergency if:

1. He or she deems it is warranted by the seriousness of the threat to the health or safety of the student or other persons;
2. The information is necessary and needed to meet the emergency;
3. The persons to whom the information is to be disclosed are qualified and in a position to deal with the emergency; or
4. Time is an important and limiting factor in dealing with the emergency.

The school district officials may release information from a student's education record if the student's parent or the eligible student gives prior written consent for disclosure. The written consent must include at least:

- A specification of the records to be released;
- The reasons for the disclosure;
- The person, organization, or the class or organizations to whom the disclosure is to be made;
- The parent's or eligible student's signature; and
- The date of the consent and, if appropriate, a date when the consent is to be terminated.

The student's parent or the eligible student may obtain a copy of any records disclosed under this provision.

The school district will not release information contained in a student's education records, except directory information, to any third parties except its own officials, unless those parties agree that the information will not be re-disclosed without the parent's or eligible student's prior written consent.

RECORDS OF REQUESTS FOR ACCESS AND DISCLOSURES MADE FROM EDUCATION RECORDS

The school district will maintain an accurate record of all requests for it to disclose information from, or to permit access to, a student's education records and of information it discloses and access it permits with some exceptions listed below. This record will be kept with, but will not be a part of, the student's cumulative school records. It will be available only to the record custodian, the eligible student, the parent of the student, or to federal, state, and local officials for the purpose of auditing or enforcing federally supported educational programs.

The record will include at least:

- The name of the person or agency that made the request;
- The interest the person or agency had in the information;
- The date the person or agency made the request; and
- Whether the request was granted and, if it was, the date access was permitted or the disclosure was made.

The district will maintain this record as long as it maintains the student's education record.

The record will not include:

- Requests for access or access granted to the parent of the student or to an eligible student;
- Request for access granted to officials of the school district who have a legitimate educational interest in the student;
- Requests for, or disclosures of, information contained in the student's education record if the request is accompanied by the prior written consent of a parent of the student or the eligible student or if the disclosure is authorized by such prior consent;
- Requests for, or disclosure of, directory information designated for that student; or for
- Requests for, or disclosure of, information contained in the student's education record if the request is in response to an ex parte order of the Attorney General of the United States or his/her designee in connection with the investigation or prosecution of terrorism crimes.

PROCEDURES TO SEEK TO CORRECT EDUCATION RECORDS

The parent of a student or an eligible student has a right to seek to change any part of the student's record believed to be inaccurate, misleading, or in violation of student rights. (NOTE: under FERPA, the district may decline to consider a request

to change the grade a teacher assigns for a course.)

For the purpose of outlining the procedure to seek to correct education records, the term "incorrect" will be used to describe a record that is inaccurate, misleading, or in violation of student rights. The term "correct" will be used to describe a record that is accurate, not misleading, and not in violation of student rights. Also, in this section, the term "requester" will be used to describe the parent of a student or the eligible student who is asking the school district to correct a record.

To establish an orderly process to review and correct an education record for a requester, the district may make a decision to comply with the request for change at several levels in the procedure.

First Level Decision

When a parent of a student or an eligible student finds an item in the student's education record that he or she believes is inaccurate, misleading, or in violation of student rights, he or she should immediately ask the record custodian to correct it. If the record is incorrect because of an obvious error and it is a simple matter to make the record change at this level, the record custodian will make the correction. However, if the record is changed at this level, the method and result must satisfy the requester.

If the record custodian cannot change the record to the requester's satisfaction, or if the record does not appear to be obviously incorrect, the record custodian will:

- Provide the requester a copy of the questioned record at no cost;
- Ask the requester to initiate a written request for the change; and
- Follow the procedure for a second level decision.

Second Level Decision

The written request to correct a student's education record through the procedure at this level should specify the correction the requester wishes the district to make. It should at least identify the item the requester believes is incorrect and state whether he or she believes the item:

- Is inaccurate and why;
- Is misleading and why; and/or
- Violates student rights and why.

The request will be dated and signed by the requester.

Within two weeks after the record custodian receives a written request, he or she will study the request, discuss it with other school officials (the person who made the record or those who may have a professional concern about the district's response to the request), make a decision to comply or decline to comply with the request, and complete the appropriate steps to notify the requester or move the request to the next level for a decision.

If, as a result of this review and discussion, the record custodian decides the record should be corrected, he or she will effect the change and notify the requester in writing that the change has been made. Each such notice will include an invitation for the requester to inspect and review the student's education record to make certain the record is in order and the correction is satisfactory.

If the record custodian decides the record is correct, he or she will make a written summary of any discussions with other officials and of the findings in the matter. The record custodian will transmit this summary and a copy of the written request to the school superintendent.

Third Level Decision

The school superintendent will review the material provided by the record custodian and, if necessary, discuss the matter with other officials such as the school attorney, or the school board (in executive session). The superintendent will then make a decision concerning the request and complete the steps at this decision level. Ordinarily, this level of the procedure should be completed within two weeks. If it takes longer, the superintendent will notify the requester, in writing, of the reasons for the delay and a date when the decision will be made.

If the superintendent decides the record is incorrect and should be changed, he or she will advise the record custodian to make the changes. The record custodian will advise the requester of the change as at the second level.

If the superintendent decides the record is correct, he or she will prepare a letter to the requester, which will include:

- The school district's decision that the record is correct and the basis for the decision;
- A notice to the requester that he or she has a right to ask for a hearing to present evidence that the record is incorrect and that the district will grant such a hearing;
- Instructions for the requester to contact the superintendent, or an official he or she designates, to discuss acceptable

hearing officers, convenient times, and a satisfactory site for the hearing (the district will not be bound by the requester's positions on these items, but will, so far as possible, arrange the hearing as the requester wishes); and

- Advise that the request may be represented or assisted in the hearing by other parties, including an attorney at the requester's expense.

Fourth Level Decision

After the requester has submitted (orally, or in writing) his or her wishes concerning the hearing officer and the time and place for the hearing, the superintendent will, within a week, notify the requester when and where the district will hold the hearing and who it has designated as the hearing officer.

At the hearing, the hearing officer will provide the requester a full and reasonable opportunity to present material evidence and testimony to demonstrate that the questioned part of the student's education record is incorrect as shown in the requester's written request for a change in the record (second level).

Within a week after the hearing, the hearing officer will submit to the school superintendent a written summary of the evidence submitted at the hearing. Along with the summary, the hearing officer will submit his or her recommendation, based solely on the evidence presented at the hearing, that the record should be changed or remain unchanged.

The school superintendent will prepare the district's decision within two weeks of the hearing. The decision will be based on the summary of the evidence presented at the hearing and the hearing officer's recommendation. However, the district's decision will be based solely on the evidence presented at the hearing. Therefore, the superintendent may overrule the hearing officer if the superintendent believes the hearing officer's recommendation is not consistent with the evidence presented. As a result of the district's decision, the superintendent will take one of the following actions:

- If the decision is that the district will change the record, the superintendent will instruct the record custodian to correct the record. The record custodian will correct the record and notify the requester as at the second level decision.
- If the decision is that the district will not change the record, the superintendent will prepare a written notice to the requester that will include:
 - a. The school district's decision that the record is correct and will not be changed;
 - b. A copy of a summary of the evidence presented at the hearing and a written statement of the reasons for the district's decision; and
 - c. Advice to the requester that he or she may place in the student's education record an explanatory statement which gives the reasons he or she disagrees with the school district's decision and/or the reasons he or she believes the record is incorrect.

Any person may file a complaint with the Department of Education, if the school district violates the FERPA

STUDENT HEALTH SERVICE INOCULATIONS *(Policy JGCB)*

This school board has the power, authority and duty to require those vaccinations specified by the state health officer as provided in Section 41-23-37. ' 37-7-301 (i).

Whenever indicated, the state health officer shall specify such immunization practices as may be considered best for the control of vaccine preventable diseases. A listing shall be promulgated annually or more often, if necessary.

Except as provided hereinafter, it shall be unlawful for any child to attend any school, kindergarten or similar type facility intended for the instruction of children (hereinafter called "schools"), either public or private, with the exception of any legitimate home instruction program as defined in Section 37-13-9, for ten (10) or less children who are related within the third degree computed according to the civil law to the operator, unless they shall first have been vaccinated against those diseases specified by the state health officer.

A certificate of exemption from vaccination for medical or religious reasons may be offered on behalf of a child by a duly licensed physician or MSDH and may be accepted by the local health officer who, in his opinion, such exemption will not cause undue risk to the community.

Certificates of vaccination shall be issued by local health officers or physicians on forms specified by the Mississippi State Board of Health. These forms shall be the only acceptable means for showing compliance with these immunization requirements, and the responsible school officials shall file the form with the child's record.

If a child shall offer to enroll at a school without having completed the required vaccinations, the local health officer may grant a period of time up to ninety (90) days for such completion when, in the opinion of the health officer, such delay will not cause undue risk to the child, the school or the community. No child shall be enrolled without having had at least one (1) dose of each specified vaccine.

Within thirty (30) days after the opening of the fall term of school (on or before October 1 of each year) the person in charge of each school shall report to the county or local health officer, on forms provided by the Mississippi State Board of Health, the

number of children enrolled by age or grade or both, the number fully vaccinated, the number in process of completing vaccination requirements, and the number exempt from vaccination by reason for such exemption.

Within one hundred twenty (120) days after the opening of the fall term (on or before December 31), the person in charge of each school shall certify to the local or county health officer that all children enrolled are in compliance with immunization requirements.

For the purpose of assisting in supervising the immunization status of the children the local health officer, or his designee, may inspect the children's records or be furnished certificates of immunization compliance by the school.

It shall be the responsibility of the person in charge of each school to enforce the requirements for immunization. Any child not in compliance at the end of ninety (90) days from the opening of the fall term must be suspended until in compliance, unless the health officer shall attribute the delay to lack of supply of vaccine or some other such factor clearly making compliance impossible.

SCHOOL ADMISSION (*Policy JBC*)

RESIDENCE VERIFICATION PROCEDURE

All students currently enrolled in Tishomingo County Schools must have on file Residency Registration and Documentation. All students must provide this information yearly before being enrolled in Tishomingo County Schools School. The Office of the State Auditor mandates residency requirements and these documents must be on file before a child is officially enrolled in our district. All proofs must contain the student's physical address, date of proof, and must be the most current.

Each new or continuing student that has changed residence must establish his/her residency in the following manner:

A. STUDENTS LIVING WITH PARENT(S) OR GUARDIAN(S)

The parent(s) or legal guardian(s) of a student seeking to enroll must provide this school district with at least two of the items numbered 1 through 8 below as verification of their address, except that a document with a post office box as an address will not be accepted.

2. Current Automobile Registration
3. Current Document from Government Agency proving residency in our district (DHS, Social Security.
4. Current Utility Bills: Water, Garbage, Electric, TV, Phone (no cell phone-must be landline or internet service)

1. The non-parent(s) claiming district residency must meet the criteria of subparagraph (a) (1) through (10) above, required of a parent or legal guardian.
2. The district resident must provide the school with an affidavit stating his or her relationship to the student, and that the student will be living at his/her abode full time, and provide documentation fully explaining the reason(s) (other than school attendance zone or district preference) for this arrangement. The superintendent or his/her designee will make the necessary factual determinations as required under this policy. Examples of situations where "in loco parentis" authority of an adult will be recognized to establish residency of the minor include but are not limited to the following:
 - a. Death or serious illness of the child's parent(s) or guardian(s);
 - b. Abandonment of the child;
 - c. Child abuse or neglect;
 - d. Unstable family relationships or undesirable conditions in the home of the child's parents or guardians having a detrimental effect on the child;
 - e. Students enrolled in recognized exchange programs residing with host families.
3. Whenever appropriate the person who has assumed responsibility for the care and custody of the child shall be encouraged to obtain legal guardianship of the child (a valid court order establishing guardian/custody of the student or papers from a lawyer showing that an adult who resides in Tishomingo County has a process in place for a chancery judge to order guardian/custody to the adult requesting a child to be registered. Before registering the child the next school year, a copy of the judge's order granting guardian/custody must be placed in the student's folder)

C. The school district may require additional documentation and verification at any time.

D. At the minimum, this school district shall maintain in a file a written instrument identifying the types of documents used to verify each student's residency and copies of any relevant guardianship petition or decree.

E. The provisions of this policy do not apply to students who reside outside the school district, but who have legally transferred into the school district.

Any court ordered procedure shall take precedent over any procedure contained herein.

COMMUNICABLE DISEASE (*Policy JGCC*)^{SEP}

This school board has the power, authority and duty to exclude from the schools any students with what appears to be infectious or contagious diseases; provided, however, such student may be allowed to return to school upon presenting a certificate from a public health officer, duly licensed physician or nurse practitioner that the student is free from such disease. ' 37-7-301 (h) ^{SEP}

The Tishomingo County Special Municipal Separate School District will work cooperatively with the Mississippi Health Department to prevent, control, and contain communicable disease in schools; and in order to accomplish this purpose, the School District will enforce the following policies with respect to communicable diseases:

- a. Students are expected to be in compliance with the required immunization schedule. The building principal is required under Section 41-23-37 to exclude children from school attendance who are out of compliance with the immunizations required by this act. School personnel will cooperate with public health personnel in completing and coordinating all immunization data, waivers and exclusions, including the necessary Immunization Assessment Program forms, to provide for preventable communicable disease control.
- b. The Superintendent has the authority and obligation under the Mississippi State Board of Health Rules and Regulations Governing Reportable Diseases to exclude a student or employee from school when reliable evidence or information from a qualified source confirms his/her having a communicable disease or infection that is known to be spread by any form of casual contact (The New England Journal of Medicine Feb. 6, 1986, p. 346) and is considered a health threat to the school population. Such a student or employee shall be excluded unless his physician approves school attendance or the condition is no longer considered contagious.
- c. When reliable evidence or information from a qualified source confirms that a student/employee is known to have communicable disease or infection that is known not to be spread by casual contact (The New England Journal of Medicine, Feb. 6 1986 p.346), i.e. HIV infection, Hepatitis B, and other like diseases, the decision as to whether the affected person will remain in the school setting will be addressed on a case by case basis by a review panel to ensure due process. (Protocol and review panel membership outlined in Appendix A.)
- d. Mandatory screening for communicable diseases that are known not to be spread by casual contact is not warranted as a condition for school entry or for employment or continued employment.

- e. Irrespective of disease presence, routine procedures shall be used and adequate sanitation facilities will be available for handling blood or other body fluids within the school setting or on school buses. School personnel will be trained in the proper procedures for handling blood and body fluids; and these procedures will be strictly adhered to by all school personnel. (For additional information refer to Appendix B. This additional information is not policy but routine procedures.)
- f. Every reasonable effort shall be made to maintain the privacy and confidentiality of any student or employee known to have a communicable disease or infection that is known not to be spread by casual contact. The number and identity of persons who are made aware of the infected person's condition shall be determined by the School Board, in consultation with the Superintendent, and shall be restricted to those needed to assure proper care of the infected person and to detect and control situations where the potential for transmission may increase, such as a bleeding injury.
- g. Instructions on the principal modes by which communicable diseases, including, but not limited to Human Immunodeficiency Virus (HIV) are spread and the best methods for the restriction and prevention of these diseases will be taught to students when an appropriate curriculum is developed, with in-service education provided to all staff members.
- h. If it is determined that a student or employee does have a communicable disease or infection that is known not to be spread by casual contact, the School Board shall hold such public meeting or meetings as it deems appropriate to educate school personnel, students, school patrons, and the general public about the particular disease or infection involved, the decision the School Board has made, the reasons for such decision, and all other relevant considerations.
- i. This policy shall be interpreted and enforced in such a manner as to comply with any and all applicable state and federal laws and regulations concerning privacy of the individual and prohibiting discrimination against individuals with disabilities.
- j. Descriptions and Procedures. It is our goal to provide a healthy environment for all students. To enable us to achieve this, the following guidelines are presented. These guidelines are based on recommendation from the Mississippi State Department of Health, Division of Epidemiology and Community Health Services.

First Aid: First aid will be rendered at school for minor illnesses and injuries. In serious illnesses/injuries, an attempt will be made to notify the child's parent/guardian. If the parent cannot be reached and the situation warrants, the nearest ambulance service will be phoned. (Nurses will not transport the student to the hospital, nor is it recommended that other school staff do so.) The proper first aid will be administered and the child made as comfortable as possible until he/she is released to the care of the ambulance staff. As the child's parent/guardian, you will be responsible for any financial expenses incurred for medical costs associated with ambulance or medical doctor. An ambulance will be called only in extreme situations.

Asthma: Students requiring an inhaler for asthma may carry it in his/her pocket, but should not leave the inhaler in his/her locker. Parents are required to complete the form labeled *Authorization for Medications to be Taken During School Hours*. An additional inhaler should be kept at school with a designated staff member or the school nurse. Sharing or playing with inhalers is prohibited.

Fever: Parents will be asked to pick up any student with a temperature of 100 degrees (F) or greater. The student should remain at home as long as he/she has a temperature of 100 degrees (F) or greater.

Vomiting/Diarrhea: Parent will be notified to pick the student up from school.

Chicken Pox: Student may return to school when lesions have scabbed over and he/she has been free of fever for two days. All sores should be crusted and dry with no new ones forming.

Conjunctivitis "Pink Eye": Students may return to school when their eyes have stopped draining and proof of treatment can be provided.

Fifth Disease: Students with fifth disease may attend school, since by the time the rash begins, they are no longer contagious.

Scabies "Itch": Students may return to class as soon as treatment as prescribed by doctor has been done.

Ringworm on Body: Students may return to class after first treatment with anti-fungal cream has begun. Students will be required to bring a note stating name of medication and date medication started.

Ringworm on Scalp: Scalp ringworm does not respond to over-the-counter medicines; therefore, students must see a doctor for prescribed treatment. As soon as treatment is started, the child may return to school with a note from the doctor stating what medicines are used in treatment, how often, and a doctor's release date to return to school. (Scalp ringworm will require medication by mouth)

Impetigo: The student may return to class 24 hours after treatment has been started. Parent should send a note to state what the treatment is. Any oozing lesions must be covered with a bandaid.

Other Infectious and Contagious Diseases: A student known to have German or Red measles, mumps, meningitis, whooping cough, hepatitis or tuberculosis (TB) may not attend school until he/she provides a statement

COVID-19: A student or employee who has tested positive for COVID-19 may return to school if symptoms improve and the individual is fever-free for 24 hours, unless directed otherwise by a medical professional.

Rationale - based upon the best available current medical findings.

In adults and adolescents, the Human Immunodeficiency Virus (HIV) which may eventually cause AIDS is transmitted through sexual contact and direct blood to blood exposure to infected blood or blood products.

Children who have acquired the HIV have become infected perinatally from infected mothers, from receiving a transfusion of blood or blood products that contained the virus, and, with respect to older children, from sexual activity or from contaminated needles during intravenous drug abuse.

None of the identified cases of HIV infection in the United States are known to have been transmitted in the school, day-care, or foster-care setting, or through other casual person-to-person contact. Based on current evidence, casual person-to-person contact as would occur among school children is not considered a risk. However, studies of the risk of transmission between preschool-aged children and neurologically disabled children who lack control of their body secretions are limited. Based on experience with other communicable diseases, a theoretical risk for transmission may exist among these children.

The Centers for Disease Control (CDC), the Mississippi Department of Health and the Mississippi Department of Education make the following recommendations:

- a. For most infected school aged children, the benefits of an unrestricted setting would outweigh the risks of their acquiring potentially harmful infections in the setting and the apparent nonexistent risk of transmission of the Human Immunodeficiency Virus (HIV). These children should be allowed to attend school.
- b. Generally school employees, including personal service and food service staff, do not need to be restricted from work if HIV infected unless there is evidence that other infection or illness exists that may be spread by casual contact in the school setting or the illness precludes them from performing the functions for which they were employed

HEAD LICE (*Policy JGCC*)

Head Lice: Parents will be notified to pick up students found to have evidence of lice in the form of the louse or nit (unhatched louse). Students with lice will not be permitted to remain in the classroom. Before returning to the classroom, the following conditions must be met: (1) Proof of medically approved treatment must be provided and, (2) No nits or live lice should be visible on reexamination. 1997 Legislative House Bill #154 states that any student found to have head lice on three (3) consecutive occasions in one school year must be referred to the health department. The school nurse shall have the authority to permit a student to return to school, if the student has "no bugs" and is determined to be "not contagious". This policy encompasses the Child Development Center Program through 12th grade.

Head lice are a common problem in school children in Mississippi Schools. Although they do not transmit any human diseases, they are a considerable nuisance, and require conscious effort on the part of school officials and parent to control. It should be understood that head lice can only be controlled in schools, not eliminated; they will occur sporadically, and recur even after control efforts. The goal of efforts is to reduce the problem and its impact, and minimize spread.

CONTROL METHODS:

1. IDENTIFYING INFESTED CHILDREN

By Screening: It is important to establish a regularly scheduled screening program for all students in grades K-6 and for older age groups if the problem arises. The school nurse, teachers, or other staff should do screening after they have been instructed the technique. The recommended times for the screenings are at the beginning of the school year, and after winter and spring breaks. Screening should occur more often if infested children are found.

By Individual Case: Throughout the year, any student suspected of having head lice (usually because he/she is scratching his/her head often) should be examined by the school nurse if present in the school that day. The child's teacher or other personnel (e.g. principal, teacher, counselor, secretary) should perform the examination if the school nurse is unavailable. If evidence of infestation is seen and the school nurse is unavailable, the teacher should refer the student to another "confirming" examiner. If one child in the classroom is found to be infested, the whole class should be screened. All siblings of the infested child who are enrolled in the school should be checked. Many times more than one child in the same family may be infested and all need to be sent home at the same time.

2. HANDLING OF INFESTED CHILDREN

Removal: Any child found to be infested with nits or lice should be removed from the classroom as soon as possible. Children who are found to be infested with live lice should not return to the classroom until they have been treated.

The infested child's parent / guardian should be notified that the child has been found to have head lice and must receive the proper treatment and removal of nits before returning to school. Care must be taken not to embarrass or stigmatize the child.

Return to School: The child should return to school as soon as the parent / guardian provides evidence of treatment such as a note from the parent describing the treatment (e.g. "Johnny was treated with XYZ shampoo according to the package directions on date [give date of treatment]") or by presenting the empty container, with the label intact, of the product used. The treatment should be an approved medical treatment and not a home remedy. The child must report directly to the school office when returning to school. THE FOLLOWING CONDITIONS MUST BE MET BEFORE THE CHILD IS ALLOWED TO RETURN TO THE CLASSROOM: (1) PROOF OF TREATMENT AS DESCRIBED ABOVE, (2) NO NITS AND NO LIVE LICE SHOULD BE VISIBLE ON REEXAMINATION. The reexamination to allow the student to return to school should be done by the school nurse if available or by other staff members (e.g. principal, teacher, counselor, secretary) who have been trained to screen for head lice.

The School Nurse shall have the authority to permit a student to remain at school, if the student has "no bugs" and is deemed to be "not contagious".

STUDENT RECORDS (*Policy JR*)

EVIDENCE OF AGE AT TIME OF ENROLLMENT

It shall be the responsibility of the person in charge of each school to enforce the requirement for evidence of the age of each pupil before enrollment. If the first prescribed evidence is not available, the next evidence obtainable in the order set forth below shall be accepted:

1. A certified birth certificate;
 - A duly attested transcript of a certificate of baptism showing the date of birth and place of baptism of the child, accompanied by an affidavit sworn to by a parent, grandparent or custodian;
 - An insurance policy on the child's life which has been in force for at least two (2) years;
 - A bona fide contemporary Bible record of the child's birth accompanied by an affidavit sworn to by the parent, grandparent or custodian;
 - A passport or certificate of arrival in the United States showing the age of the child;
 - A transcript of record of age shown in the child's school record of at least four (4) years prior to application, stating date of birth; or
 - If none of these evidences can be produced, an affidavit of age sworn to by a parent, grandparent or custodian. Any child enrolling in Kindergarten or Grade 1 shall present the required evidence of age upon enrollment. Any child in Grades 2 through 12 not in compliance at the end of sixty (60) days from enrollment shall be suspended until in compliance. ' 37-15-1 (2002)

PERMANENT RECORDS

The permanent record provided for above shall be kept, while it is active, in the attendance center office in a fire resistant container. The permanent record shall be considered active: (a) if the student is enrolled in the school; or (b) if he has withdrawn or has been expelled and the students of the class of which he was a member shall not have reached the time of graduation. At the point of the student's graduation or at the time when the student would normally have graduated had he not withdrawn or been expelled from school, the student's permanent record shall become a part of the permanent binder in the central fire resistant depository or stored digitally as designated and provided by the school board of the school district, or as an alternative method, the records may be maintained in fire resistant storage at the school last attended by the student. The permanent binding and preservation of the inactive records shall be the duty of the superintendent of this school district who shall maintain a central depository of the records. ' 37-15-2

CUMULATIVE FOLDERS

The cumulative folders provided for above shall be kept in the school wherein the pupils are in attendance. Both the permanent records and the cumulative folders shall be available for inspection by public and private school officials, including public school teachers within the school district who have been determined by the school district to have legitimate educational interests. In no case, however, shall such records be available to the general public. Transcripts of courses and grades may be furnished when requested by the parent or guardian or eligible pupil as prescribed in the Family Educational Rights and Privacy Act of 1974, as amended, 20 USC Section 1232. The records shall be kept for each pupil throughout his entire public school enrollment period.

In the event a pupil transfers to a public school, then the cumulative folder shall be furnished to the head of the school to which the pupil transfers; if a pupil transfers to a private school, then a copy of the cumulative folder shall be furnished to the head of the school to which the pupil transfers. The permanent record shall be kept permanently by the school district from which the pupil transferred. At no time may a permanent record of a student be destroyed, but cumulative folders may be destroyed by order of the school board of this school district in not less than five (5) years after the permanent record of the pupil has become inactive and has been transferred to the central depository of the district. However, where a school district makes complete copies of

inactive permanent records on photographic film or microfilm, which may be reproduced as needed, the permanent records may be destroyed after the photographic film or microfilm copy has been stored in the central depository of the district. ' 37-15-3

EXPULSION RECORDS

For the purpose of providing notice to public and private school officials, both within and outside the boundaries of the state, of the expulsion of any public school student, the State Department of Education may develop a central reporting system for maintaining information concerning each expulsion from a public school. In establishing and maintaining the reporting system, the department may require each school district to report, within a certain period of time after an expulsion, as established by the department, information such as the following:

- 1 the name of the student expelled;
- 2 the date the student was expelled;
- 3 the age of the student at the time of expulsion;
- 4 the school from which the student was expelled;
- 5 the reason for the expulsion, including a detailed description of the student's act or acts;
- 6 the duration of the period of expulsion, if not indefinite; and
- 7 any other information that the department deems necessary for school officials in a public or private school, where a student is seeking enrollment, to determine whether or not a student should be denied enrollment based upon a previous expulsion.

Any information maintained by the department under the authority of this section shall be strictly confidential. The information shall be available to school officials at a public or private school only upon their request and only when a student seeks enrollment or admission to that school. In no case shall the information be made available to the general public. ' 37-15-3

DISTRICTWIDE REPORTS

The school board of this school district, as created and empowered by law, shall keep and preserve permanently a copy of all district-wide reports required by the State Board of Education to be filed on an annual basis. Copies of those district-wide reports required by the State Board of Education on less than an annual basis may be destroyed after five (5) years upon approval of this school board. All supporting documents necessary to compile such district-wide reports, except as delineated below may be destroyed after three (3) years following the academic year for which the report was made upon approval of the school board of this school district. ' 37-15-46.

PHOTOGRAPH STATEMENT

There are times that pictures/videos will be made and put in the local newspapers/television or used for public relations reasons. There are also times that pictures will be used on the school's website (world wide web-internet). If a parent/legal guardian does not want their child's picture taken or used, the parent/legal guardian should visit the principal's office and fill out the appropriate paperwork.

DISPOSAL OF RECORDS

The superintendent of this school district shall have the authority, with the approval of the school board of this school district spread upon its minutes, to dispose of the following records:

STUDENT DIRECTORY INFORMATION (*Policy JRAA*)

DIRECTORY INFORMATION DATA

The school district proposes to designate the following personally identifiable information contained in a student's education record as "directory information." (NOTE: A district may designate all, some, or none of this information as directory information.)

- The student's name, address, and telephone number;
- The names of the student's parents;
- The student's date and place of birth;
- The student's major field of study and class designation (i.e., first grade, tenth grade, etc.);

- The student's achievement awards or honors;
- The student's weight and height if a member of an athletic team;
- The student's photograph;
- The student's electronic mail address;
- The student's dates of attendance; and
- The most recent educational institution the student attended prior to the student enrolling in this school district.

STUDENT RECRUITMENT

As authorized under the National Defense Authorization Act for Fiscal Year 2001, public schools are required to provide the military with the same access to secondary school students and directory information about such students as it provided to post-secondary institutions and prospective employers, unless the school board formally adopts a policy that restricts or denies access to such information by military recruiters. This school board adopts the following to address this issue.

The Tishomingo County Special Municipal Separate School District may disclose any of the items listed as directory information without prior written consent, unless notified in writing to the contrary. Subject to the provisions of state and federal laws, this district shall provide the same directory information and on-campus recruiting opportunities to representatives of the United States armed forces and state armed services as are offered to nonmilitary recruiters, recruiters for commercial concerns, and recruiters representing institutions of higher education.

GENERAL PROVISIONS

Directory information or class lists of student names and/or addresses shall not be distributed without the consent of the parent or legal guardian of the student or the consent of the student if 18 years of age or older.

The superintendent or designee shall determine when recruitment meetings are to take place and shall take appropriate steps to ensure that such meetings do not interfere with the proper and orderly operation of the schools in the district.

Organizations wishing to recruit at the high school must make arrangements with the principal or designee who will determine the schedule for the recruitment meeting. Scheduled visits by recruiters will be made known to the student body. On-campus follow-up meetings with individual students will be permitted only upon the request of the student/s and with the approval of the building principal or designee.

Any person or organization denied the rights accorded under this policy shall have the right to request a review of the decision by the school board by filing a written request with the superintendent.

ANNUAL NOTIFICATION

This student handbook serves as annual notification that the following information:

- The type of records kept;
- The procedure for inspecting and copying these records;
- The right for interpretation;
- The right to challenge data thought to be erroneous, the procedures for correcting or expunging erroneous data or inserting a rebuttal statement;
- The right to lodge a complaint with the U.S. Department of Education if mandates are not adequately implemented.

Additionally, the district will notify parents annually of the district's policy on the collection or use of personal information collected from students for the purpose of marketing or selling that information or otherwise providing that information to others for that

purpose, including arrangements to protect student privacy that are provided by the agency in the event of such collection, disclosure or use.

The educational records or school records include all materials directly related to a student that a school maintains. Records and notes maintained by a teacher, administrator, school physician, or school psychologist for his or her own use, and which are not available to others are exempted from this definition.

The school will require a prior written consent before information other than directory information may be divulged to third parties. An exception to this rule exists for school district employees who have legitimate interests in viewing the records, as well as officials in other schools in which the student seeks to enroll.

EXCLUSIONS

MISSISSIPPI HIGH SCHOOL ACTIVITIES ASSOCIATION *(Policy JT)*

ACADEMIC REQUIREMENTS FOR EXTRACURRICULAR ACTIVITIES

It is the intent of the Tishomingo County Special Municipal Separate School District School Board that participation in all school activities serve to promote academic achievement and excellence in education. The board endorses the no pass / no play standards for athletes and the establishment of similar rules and regulations by the schools for student participation in school clubs and organizations. The board is cognizant of the fact that standards prescribed by the Mississippi Department of Education for accreditation are intended to establish minimum requirements. The same is true of the Tishomingo County Special Municipal Separate School District School Board of Education. Only minimum standards will be established by the local school board.

When a student's GPA falls below a 2.0 on a 4.0 scale, the student will be suspended from extracurricular activities.

MISSISSIPPI HIGH SCHOOL ACTIVITIES ASSOCIATION

All athletes, band members and cheerleaders and any sport/activity that falls under the jurisdiction of MHSAA must comply with the standards stated in the Mississippi High School Activities Association Handbook.

MHSAA VIRTUAL STUDENT RULING 2021 AND BEYOND

The Mississippi High School Activities Association has issued the ruling that virtual students cannot participate in athletics and activities under MHSAA jurisdiction.

MIDDLE SCHOOL STUDENTS PARTICIPATING IN HIGH SCHOOL EXTRACURRICULAR ACTIVITIES *(Policy JT)*

The Tishomingo County School District understands and supports the importance of extracurricular activities in the K-12 experience for students. In particular, athletics play an important role in the social, physical, and mental development of adolescents.

The district has established successful middle school athletic/activity programs with a continuous commitment to expose students to the positive effects of these programs. It is the intention of district and school administration to preserve these activities to allow students to establish essential fundamental skills for success. The district is also committed to allowing particularly advanced

athletes to progress as deemed appropriate to high school competition, allowing those students to gain experience, expertise, and exposure in an advanced setting.

These select opportunities shall follow the district guidelines below:

1. The Tishomingo County School District defines a sport's "season" as the first date of middle school competition in a sport.
2. Currently offered middle school sports in which a selected 8th grade student may move up and play varsity sports are as follows:

- i. Football
- ii. Basketball
- iii. Baseball
- iv. Softball

3. 7th grade athletes that are members of a middle school team shall participate in 7th/8th grade athletics for the full 7th grade season of the sport in which they are a member.
4. 7th grade athletes may play on the 8th grade team of a sport in which they are a member. However, once an athlete plays on the 8th grade team in that sport's season, he/she cannot return to play for the 7th grade team in that same sport's season, per MHSAA rule.
5. At the beginning of high school spring football practice, 8th grade athletes may participate in high school practices/tryouts for high school athletics/activities. The high school coach and administration will determine when and how tryouts/practices will be conducted. Transportation will be provided from middle schools to the high school of choice during this timeframe. High school coaches and high school administration have full discretion on how and when these activities will occur.
6. When an 8th grade student commits to practice and/or tryouts for either Belmont High School or Tishomingo County High School, he/she is establishing his/her home school for high school eligibility, per MHSAA. A middle school student cannot try out and/or practice at both high schools.
7. The district's signed parent permission form for high school eligibility is required before any middle school student practices at the high school level.
8. On a rare occasion, an incoming 8th grade athlete may be chosen to participate on a high school varsity team. When this occurs, the following plan of action will be in place:

The high school administration, the high school coach, the middle school administration, the student athlete, and the student athlete's parents/guardians will meet to discuss the possibility of movement to the high school varsity team.

Both the high school administration **and** the high school coach have the final decision on accepting an 8th grade student athlete as a contributing member of the high school team.

This is a rare occurrence, and the decision will be made on an individual basis by the parties named above (item b).

The student athlete would be expected to play varsity-level in the designated sport and consistently contribute in varsity games. Students will not be allowed to move up to high school athletics to play on junior varsity (JV) only.

The following parameters shall remain at the middle school after a student athlete in this situation is chosen to play in a high school varsity sport:

The football team has 11 remaining players for a middle school team.

The basketball team has 5 remaining players for a middle school team.

The baseball team has 9 remaining players for a middle school team.

The softball team has 9 remaining players for a middle school team.

7th grade athletes are not allowed to play up for high school teams during their 7th grade year unless the sport is not offered at the middle school, and the student successfully makes the high school team.

Once a student moves up to play in a sport, he/she cannot return to the middle school to play in that same sport again, per MHSAA rule.

This decision would allow an 8th grade athlete to play high school sports during his/her 8th grade year at his/her selected high school. This would establish this athlete's home school for eligibility once the student participates in practice and/or tryouts, per MHSAA.

9. In this scenario, the 8th grade middle school student would complete academic requirements at the middle school and would travel to the high school to participate in 4th block athletics for practice as allowable. Transportation would be the responsibility of the student and his/her family.
9. The chosen student athlete would be allowed to participate in high school practices and/or tryouts at the beginning of high school spring football practice of their 7th grade year. This is the same timeframe allowable for 8th grade students. This would establish this athlete's home school for eligibility, per MHSAA.

9. The timeframe designated above is the only time middle school students will be allowed to move up to play in a sport that **is offered** at the middle school level. It is not in the best interest of the high school team to place middle school players on the high school team in the middle of the high school sport season.
9. If an activity/sport **is not offered** at the middle school, middle school students may participate in that activity/sport at the high school level (i.e. golf, soccer, track and field, etc.). The student is establishing his/her home school in the high school sport when he/she practices, per MHSAA rule.

The above guidelines will be followed beginning in the spring semester of 2022-23. The date on which 8th grade athletes (and **selected** 7th grade athletes) can participate in high school activities/sports practices and/or tryouts for the 2024-2025 school year is **April 22, 2025**. Information regarding selection, transportation, expectations, and tryouts will be communicated by the high school athletic staff.

If middle school students are permitted to participate on a high school team, he/she must meet the same eligibility rules as high school students. He/she cannot participate on a high school team and also participate on a middle school team of the same sport.

STUDENT TRANSPORTATION (*Policy EDA*)

Transportation will be provided for students who live within the Tishomingo County School District, according to the approved regulations of the Division of Transportation of the State Department of Education, applicable laws, and within the financial means of the School District. Transfer students may ride school buses if they meet the bus on its regular route. A student privilege to ride a bus depends upon good behavior. When a student vandalizes a school bus, the student and/or parents/guardians are responsible for paying damages to Tishomingo County School District. The resolution mapping school attendance zones and district provided transportation for out-of-district and out-of-zone students is filed at the Tishomingo County Chancery Clerk's Office. The transportation director utilizes an electronic program in conjunction with the filed mapping in determining school zones.

School transportation services will be provided for students to and from school and for transporting students to and from curricular and extracurricular activities sponsored by the district, transporting from one school or facility to another, school-sponsored field trips that are extensions of classroom learning experiences.

Transportation will be provided for homeless students to and from the student's school of origin (within the district). School of origin means the school that the student attended when permanently housed or the school in which the student was last enrolled. These services shall be provided throughout the regularly scheduled year and during the regular school day as determined by the board.

Students living within specified attendance boundaries shall receive transportation services to their respective schools. In addition, students, including those receiving special education, may be eligible for transportation for health or safety reasons.

INSURANCE

Students participating in athletics, shop or chemistry lab classes must have school insurance or must have a written statement from their parents stating that they have sufficient coverage. Accident insurance will be available to all students who wish to be covered. Soon after school begins, parents will be given information and the opportunity to choose which coverage, if any, they wish for their child.

DRESS CODE (*Policy JCDB*)

In order to promote a good learning environment, students should present themselves appropriately dressed and groomed at all times. It is felt that to some degree dress and grooming have a bearing on behavior and the learning environment of the school. It is presumed that parents and students will accept the basic responsibility of adhering to good taste in the student's dress and appearance. All students are expected to be neat, well groomed and appropriately dressed at school and school activities.

INTERNET/TECHNOLOGY ACCEPTABLE USE POLICY (*Policy IJ-R*)

INTERNET ACCESS:

The Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. Internet access is now available to students and teachers in the Tishomingo County School District (TCSD). We are very pleased to bring this access to TCSD and believe the Internet offers vast, diverse and unique resources to both students and teachers. Our goal in providing this service to teachers and students is to promote educational excellence in our schools by facilitating resource sharing, innovation and communication. This computer technology will help propel our schools through the communication age by allowing students and staff to access and to use resources from distant computers, communicate and collaborate with other individuals and groups, and significantly expand their available information base.

Internet access is coordinated through a complex association of government agencies and regional state networks. In addition, the smooth operation of the network relies upon the proper conduct of the users who must adhere to strict guidelines. To this end, Congress has passed and President signed into law, the Children's Internet Protection Act (CIPA).

CIPA requires that schools receiving certain federal funds, including E-Rate discounts and Title III of the Elementary and Secondary Education Act, put into place Internet Safety policies. These Internet safety policies must include a technology protection measure for blocking access to visual depictions of obscene material, child pornography, and material that is harmful to minors when minors are accessing the computer. CIPA also requires that the Internet safety policy include monitoring of all online activities of minors.

Additionally, the policy must address all of the following: (a) access by minors to inappropriate matter on the Internet and World Wide Web, (b) the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications, (c) unauthorized access, including so-called hacking, and other unlawful activities by minors online, (d) unauthorized disclosure, use, and dissemination of personal information regarding minors; and (e) measures designed to restrict minors access to materials harmful to minors.

Class Ranking, Honor Students, and Valedictorian & Salutatorian will be calculated in the same manner using all High School courses a student attempted.

Class Ranking

In order to encourage students to take rigorous coursework, the following courses will be weighted more in figuring class ranking: all Advanced Placement courses, all Dual Credit courses, Physics, Calculus, Engineering II, and Health Science II.

Honor Roll

Students who have no grades less than 90 will be named to the All A's Honor Roll

Students who have no grades less than 80 will be named to the A/B Honor Roll

Honor Graduates

Eligible students will be considered honor graduates if they have an overall average of 90 or above on all High School coursework attempted, including 8th grade courses carrying Carnegie units, attempted.

To be eligible to be an honor graduate, students must be continuously enrolled in the TCSD high school they are graduating from since September 1st of the current school year.

Each high school has the option of recognizing High Honor Graduates.

Each high school has the option of recognizing a Historian as the student with the 3rd highest GPA.

Valedictorian and Salutatorian

The valedictorian shall be the eligible student with the highest-class ranking.

The salutatorian shall be the eligible student with the 2nd highest-class ranking.

In calculating GPA for students transferring into TCSD, his/her grades with fall under the TCSD weighted policy and not under the weighted policy from the school in which the student transferred.

In the case of a tie for valedictorian or salutatorian, the highest numerically average figured to the fourth decimal for all courses taken during the current year will determine who will be award the honor. If a tie still exists, the student who has taken the most courses from the list of courses with additional weights will determine who receives the honor. If a tie still exists, the student who has earned the most Carnegie units will be awarded the honor.

To be eligible for Valedictorian or Salutatorian, a student must be enrolled in the 4-year cohort (as defined by the Mississippi Department of Education) of the current graduating class.

The method of determining grade averages for test exemption is on file in the office of the Principal.

ATTENDANCE POLICY *(Policy JBD)*

The school board believes that good attendance, with a minimum of tardiness and absenteeism, is essential if students are to gain maximum benefit from the school district's instructional program. The school board thusly directs the superintendent to develop administrative regulations governing tardiness and absences (excused and non-excused).

The administrative regulations shall be based on all applicable state laws governing absenteeism and tardiness and shall include (but not limited to) the counting and reporting of students to the Mississippi Department of Education for attendance purposes, expectations for good student attendance, parent responsibility, excused and unexcused absences, and tardiness. Initial administrative regulations and any future changes to such administrative regulations shall be approved by the school board before implementation.

ATTENDANCE POLICY

Punctual and regular attendance is of the utmost importance to a student's academic success. Tishomingo County School District encourages each student to attend classes daily.

In order for a student to be counted as present according to Average Daily Attendance Guidelines as outlined by the Mississippi State Legislature, the student must be present 63% of his/her instructional day, which is defined by the Board of Trustees.

ABSENCES

When absent from school, it is required the student bring to the office a note from home stating the guardian was aware of the student's absence. This note must be brought within **two (2)** days upon the student's return to school.

The following information is required on all absentee notes:

- student's name
- guardian signature
- date of guardian signature
- guardian acknowledgement of absence
- date(s) of absence

An absence can be excused by administrators without written documentation

Any time a student plans an extended absence from school, the administration and teachers should be notified of this as early as possible

EXCUSED/UNEXCUSED ABSENCES (K-12)

A student will be given an excused absence on a parent note for **three (3)** occurrences per semester. Each parent note will apply to each occurrence (i.e. if a student is out for three days, each day will require a parent note to be excused without other acceptable documentation).

After that, a student must have documentation as defined below, to receive an excused absence.

- Tishomingo County School District adheres to the Mississippi Compulsory School Attendance Law (MS Code 1972 Annotated, Section 37-19-91) which states "when the child has accumulated five (5) unlawful absences during the school year of public school in which the child is enrolled, the school district superintendent or his designee shall report, within two (2) school days or within five (5) calendar days, whichever is less, the absences to the school attendance officer."
- Five (5) or more unexcused absences deems a student as truant and results as the student being reported as such to the attendance officer.
- After twelve (12) or more unexcused absences, the attendance officer will petition the court for excessive absences.
- An excused absence is one which results from a personal illness/injury, medical or dental appointment, isolation ordered by county health officer or appropriate school official, death or serious illness involving an immediate family member (sibling, parent, grandparent), observances of religious holidays of a student's own faith (requires prior approval); or circumstances such as court ordered appearances, family emergencies, extreme weather, etc. that require immediate attention and that the school principal deems necessary.
- An absence is considered unexcused if proper documentation is not received within **two (2)** days of the student's return to school; if the documentation is unacceptable; or, if the absence is the result of Out of School Suspension.
- When students are sent home by the school nurse, the absence is considered excused for that day only.
- Students participating in school-approved or school-sponsored activities are considered present.
- Written documentation concerning an absence must be provided to the school office **within two (2) days** of the student's return to school.
- Written documentation from a doctor/dentist/court officer/etc. must contain dates of service in order for the date(s) of the absence to be excused.
 - a) Upon reaching eight (8) unexcused absences during the 9 weeks, the parent shall meet with the Principal and Counselor to develop a plan of attendance for the student. The plan will determine future consequences and guidelines to improve student attendance.
 - b) Failure of the parent to meet with school officials will result in after-school detention for the student as set and determined by the principal until the meeting occurs.

TARDINESS

All students are required to get to school and class on time. TARDINESS prevents students from achieving all that is academically possible. Parents are encouraged to make sure that their children are prompt.

Students that check-in late or out early will be given a tardy for that particular class (by that class period teacher) if they miss 1/2 or less of that class period/block (late in/early out). Students that miss more than 1/2 of a particular class/block will be counted as absent for that period, but will be allowed to enter the classroom for the remainder of the class. This policy is on a semester by-semester basis. Students are to report to the appropriate class immediately upon checking in. Students are required to sign-in when arriving late and sign-out when leaving early - failure to do so may result in disciplinary action.

Students who are habitually tardy will be subject to the consequences outlined on the following discipline ladder:

1 st TARDY (in a particular class)	Teacher records tardy
2 nd TARDY	Teacher records tardy; student warned, & K-4 parents notified
3 rd TARDY	Teacher records tardy; student warned, & K-4 parents notified
4 th TARDY	One day In-School Detention (grades 5-12) & In-School Detention or After-School Detention for every tardy thereafter per semester; K-4 students lose break/recess and continue to do so for every tardy thereafter per semester

THEREAFTER

- Any student who is present at school but does not attend detention during break will have to make up that break in detention plus an additional break. If a student who is present at school fails again to attend detention at break, that student will be assigned one day of In-School Detention. If a student is late for In-School Detention, he/she will not be admitted and will be assigned two In-School Detentions.
- If a student is tardy due to a doctor/dentist appointment, the student must bring an excuse from the doctor the next day for the tardy to be removed.
- Students who lose a break due to a tardy will makeup the work missed because of that tardy. The work will be completed while remaining inside during the break the student is missing.

MAKE-UP FOR ABSENCES *(Policy JBD)*

If a student is absent, he/she shall be allowed to make-up any test(s) and/or other schoolwork missed during said absence(s). It will be the responsibility of the STUDENT to contact EACH of his/her teachers to arrange for any/all make-up work, tests, and/or exams.

When a student misses a test or any other assigned work due to an absence, the student will have the same number of days to make up the work as the number of days for which he/she was absent. If the work/test was assigned PRIOR to the absence(s), the student will be expected to take the test or have the assigned work on the day that he/she returns to school. (Example: A test is assigned for Friday on Wednesday and the student is absent on Friday. The student will be expected to take the test/work on the next day that he/she is present).

If a student fails to comply with the above, the student will receive a zero (0) on ALL work missed. Again, ALL make-up work should be scheduled at the convenience of the teacher.

This policy also applies to students who missed work, tests, and/or exams due to suspension.

ATTENDANCE REPORTING *(Policy JBD)*

GUIDELINES FOR GIFTED EDUCATION PROGRAM — GEMS (*Policy IDE*)

Mission Statement

The mission of Tishomingo County Schools' Gifted Education Program is to identify and serve the intellectually gifted student. By participating in the GEP, students will develop individual talents both educationally and emotionally through a qualitatively differentiated curriculum in a safe environment.

Mississippi Code Sections 37-23-171 through 37-23-181 shall be known and may be cited as the "Mississippi Gifted Education Act of 1989." Its purpose is to provide for a uniform system of education for gifted children in the public schools of Mississippi. State policy requires all districts to mass screen one grade level each year to assist in identifying gifted students. If a student does not meet criteria for entrance into the gifted program, the following may occur. The student may be re-tested one time, but not in the same school year as the initial testing occurred.

All state guidelines concerning gifted education are to be followed and will be considered a part of this document although they are not present.

A reassessment to determine if each student shall continue in the gifted program will occur at least once a year. A committee made up of the gifted teacher, designated administrative representative, and one additional certified employee would conduct

the reassessment. Students shall not be removed from the gifted program based upon the academic success or lack thereof in the regular education program. Students *may be removed* from the gifted program due to a lack of progress in the program or unsatisfactory participation in the program. If the committee determines a student should be removed from the gifted program, the parent(s) must be notified and given the opportunity to meet with the committee before the student is removed. If the parent does not agree with the student being removed from the program, the parents may request an appeal to the local school board. Students will remain in the gifted program until the appeal process is concluded. The appeal will follow the parental/community appeal policy.

Parental/Community Appeal Process

If a parent or a community member would like to appeal the decision of the school district's superintendent, a district administrator, school administrator, or a committee comprised of an administrator or their designee, they have two options for appeal.

Option 1. The parent or community member must appeal to the school district's superintendent, at which time the superintendent may grant a hearing or defer the appeal directly to the school board. If the superintendent grants a hearing, the parent or community member will be contacted and a meeting will be arranged.

Option 2. If a parent or community member is not satisfied with the decision of the school district's superintendent or if the school district's superintendent defers a decision to the school board, a hearing with the Tishomingo County School Board will be granted. The request to appeal a decision to the school board must be submitted to the school district's superintendent's office in writing specifically identifying a particular decision or course of action all relating to the same incident. The parent will then be notified by the superintendent's office as to when the hearing will occur. The school board may decide to hold a special meeting to address the hearing or to hold the hearing during the next regular school board meeting. If the request is not received before the agenda has been set for the next school board meeting, the hearing may be delayed to the following regular meeting. The school board is not required to hold a special meeting for the hearing. The school superintendent or the designee of his/her choice will present the issue to the board. The school board can grant an appeal and then deny the parent or community member the opportunity to present their argument. Otherwise during the hearing, the parent(s) or community member will be given no more than 15 minutes to present their argument. All information presented must be relevant to the specific decisions being appealed. The school board may enter into an executive session at any time during the hearing. The school board may delay their decision until the next school board meeting if more time is needed to reach a decision or gather pertinent information. The school board will determine to grant or deny the appeal by a simple majority vote.

Parents and community members who wish to appeal the decision of a teacher, coach, bus driver, or any other school employee must first appeal the decision to the administrator or supervisor of that employee and receive a decision concerning the appeal before appealing a decision to the superintendent or school board.

If multiple parents or community members wish to appeal a decision, the superintendent will work with the group to identify a spokesperson for the group. The school board will only be required to allow the spokesperson of the group to present the group's argument.

Once a specific appeal has been denied, other appeals of a very similar nature may be denied in writing by the board without a hearing.

If a parent or community member fails to appear at a hearing, the school board may still overturn the decision of the school employee after reviewing the issue.

The school board is not required to grant another hearing if the parent or community member fails to appear at a hearing. However, tragic circumstances or uncontrollable situations will be taken into consideration if reliable evidence is provided. If a parent or community member requests to reschedule a hearing, the request must be provided no later than the day before the meeting.

SPECIAL EDUCATION GRADING AND GRADUATION (*Policy IDDF*)

GRADING

- Each student with a disability in the Tishomingo County School District will receive grades fairly reflecting the student's achievement on the instructional level on which he/she is functioning. A high grade does not necessarily mean that a disability no longer exists. A high grade should accurately reflect that, based on what is expected of a child with a given ability, he/she is performing well. Actual grading will reflect the familiar A, B, C, D, and F grading pattern based on the Tishomingo County grading system. If a student with a disability attends a regular classroom, the regular education classroom teacher will assign the letter grade for that class. If the student attends a special education class, the special education teacher will report the grades. Each nine weeks the parents/guardians of all students with a disability will receive copies of the IEP Special Education Service Goal pages that denote programs.
- Any student with a disability in the Tishomingo County School District who does not meet course requirements, even though the modifications necessary to adjust for the student's disability have been made, may receive a failing grade. If it is obvious, however, that the student with a disability cannot function socially, emotionally, educationally in a regular education classroom class with supplementary aids and services, the student should be removed from that class and placed appropriately

with a revision of the IEP.

- It may be necessary to provide extra help to a student with a disability or make modifications in the regular education program if a student with a disability is to be successful. The special and regular education teachers must work together so that the special education teacher will know how to reinforce/tutor the student with a disability when the student begins to falter. The special education teacher should provide assistance to the regular education teacher if there is a need for modification of the educational program to insure the success of the student. Although modifications may need to be made, the student should be judged to be successful (graded) in that regular education class in the same manner as other regular education students.

GRADUATION

Students who are disabled shall be issued diplomas or certificates as follows:

1. For every student receiving Special Education services, there will be consideration, during the IEP Review/Revision session prior to the student's entry into ninth grade, as to this student's possibilities for achieving sufficient Carnegie units to earn a regular diploma.
2. Students with a disability may enroll in an occupational course to study aimed at obtaining an occupational diploma. The student must have an approved portfolio containing a collection of evidence of the student's knowledge skills and abilities related to the occupational core curriculum. The primary postgraduate goal for students enrolled in the occupational course of study is competitive employment. A total of 21 credits must be earned.
3. Students who have successfully completed special education and/or regular education credits may obtain a graduation certificate based on their completion of IEP goals and benchmarks. The IEP will reflect this. The instruction will be aimed toward individual and career & technical needs.
4. Students may enroll in an academic course of study to pursue a Mississippi High School Diploma. If the student is to pursue a regular diploma, the IEP will reflect this and special education services will be provided to assist the student in reaching this goal. Every student receiving a regular diploma must meet the subject area test (SATP) requirements & will have met all requirements of the state Accreditation Commission and the Tishomingo County School District.
5. At least annually, the student's IEP will be reviewed and revised as his/her current achievement and needs dictate. The possibility for change from regular diploma to occupational diploma or certificate or vice versa will remain open. Special education credits earned in the occupational or certificate program of study will not count toward an academic diploma if they choose to switch.
6. Every student who completes an approved course of study on or before age twenty-one will receive a diploma or certificate and will be permitted to participate in graduation exercises with no special mention.
7. Every student receiving a diploma will have met requirements of the State Accreditation Commission and his/her local School District.

Note: Beginning with the 2017-2018 School Year, entering 9th graders will not be eligible for the Mississippi Occupational Diploma Pathway. Amended 37-16-11 SB 2432

AMERICANS WITH DISABILITIES ACT (NON-DISCRIMINATION) (Policy IDDH)

The Tishomingo County Special Municipal Separate School District adheres to the provisions under Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794. The district does not discriminate in admission or access to, or treatment or employment in, its programs and activities. The district's 504 coordinator is Mr. Cliff Nunley, who coordinates efforts to comply with this Act.

The following emergency drills will be conducted:

DELIVERIES TO STUDENTS (Policy EL)

The School Board has the responsibility to adopt policies that enhance the safety and learning environment for all students. The Administration and Board have determined that accepting balloons and other gifts for students at school campuses is a hindrance to the educational program. The safety of students as they transport these balloons from school is a great concern. Also, the self-esteem of many students who do not receive gifts at school may be adversely affected. Therefore, the Board adopts the following policy:

In an effort to provide the best educational environment for all students, the Tishomingo Special Municipal Separate School District **does not allow balloons and other gifts to be delivered to the schools.** This policy became effective at the beginning of the 1997-1998 school year.

TEXT BOOKS *(Policy ICFA)*

TEXT BOOKS

Text books are furnished by the State of Mississippi and are paid for by taxpayer's money. Books will be issued by the teacher to each student for courses requiring textbooks each year. The student will be held responsible for the loss or damage of the textbooks issued to them. If a book is lost or damaged, that book must be paid for before another one is issued. Since each school is limited to the number of textbooks available to them, it is important that each student exercise care and caution to books provided for them.

Students will not be issued report cards until all fines have been paid.

LOST BOOKS

If a textbook is lost, the student should make every attempt to locate the book. If the book is not found, the student should report the lost book to the teacher so that a book check may be done. If the book is not found, the lost book must be paid for before another book is issued. **LOST TEXTBOOKS ARE THE RESPONSIBILITY OF THE STUDENT.**

FOOD SERVICE POLICIES AND MEAL PRICES *(Policy JGHR)*

The Tishomingo County School District recognizes that healthy, nutritious meals are an important component to student readiness and ability to learn. The district's Child Nutrition department is a self-supporting fund that shall not have a negative balance at the close of a fiscal year in accordance with FNS Instruction 796-2 (Rev. 3) which lists bad debts as a non-allowable expenditure of Federal Funds. Therefore, losses or meals charged cannot be paid with Child Nutrition Funds. Unpaid charges place a financial strain on the Child Nutrition department and on the district's operating budget. To be fair and equitable and in order to ensure compliance of all who participate in the school meal program, these procedures for charged meals have been established.

CHARGED MEALS:

- Adults are not allowed to charge meals or solicit food from students.
- Charging a reimbursable meal will result in a negative balance on the student's account until funds are added to the student's account.
- Under no circumstances will a student with a negative account balance be allowed to purchase extra food items until the student's account is in good standing.
- Once a student reaches the maximum \$5.00 charge limit, parents will be notified to bring the student's account in good standing. Student accounts over the maximum \$5.00 charge limit will be sent to the Superintendent for collection.
- When a student brings money, that money will first be applied to the purchase of a reimbursable meal; any remainder money will then be applied to negative balances on the student's account.

Free and Reduced Meal Applications can be completed any time during the school year. **A new application is required each year.** Applications are sent home with student at the beginning of the school year. Applications are also available on line at www.heartlandapps.com

Payments may be made on line at myschoolbucks.com

This institution is an equal opportunity provider.

SCHOOL LIBRARIES *(Policy IFBD)*

This board recognizes that school libraries are essential to academic development and high levels of student achievement. The importance of the school library should never be underrated in the school setting nor its importance to the total educational program. Students are highly encouraged to make effective use of books and other library materials for both course requirements and recreational reading. The library is staffed by a full-time librarian and/or student assistants to help in location and selection of library materials.

LIBRARY MATERIALS

It is the desire and intent of the Tishomingo County School District for certain topics of controversy to be discussed at home in a manner deemed appropriate by and in the control of parents and/or guardians. No school or classroom library in the District shall contain books or other material that contains explicit sexual content or is meant to advocate for any position related to controversial issues about topics such as sexual orientation or gender nonconforming lifestyles. All material available to students of the District must be age appropriate.

9-12 STUDENT CLASSIFICATIONS *(Policy IEDB)*

Classification of Students.

Beginning with the 2017-2018 Senior class, students will be classified under the following parameters:

- Senior – 19 or more Carnegie units (credits)
- Junior – at least 14 Carnegie units (credits)
- Sophomore – at least 8 Carnegie units (credits)
- Freshman – less than 8 Carnegie units (credits)

The following enrollment requirements will be used for high school students:

- Freshmen, Sophomores, and Juniors must be actively enrolled in four (4) courses each semester.
- Seniors must be actively enrolled in two (2) courses each semester.

In order for a Senior to participate in extra-curricular activities (i.e. athletics, clubs, drama, etc.), he/she must be actively enrolled in two (2) courses each semester.

PARENTAL INVOLVEMENT POLICY *(Policy LA)*

It is our belief that parental interest and guidance in the promotion and reinforcement of learning in the home are major factors needed to ensure successful school experiences. The Tishomingo County School District endorses the parental involvement goals of Title I and encourages the regular participation of parents of Title I eligible children to join the district-wide effort of all parents at all schools, as well as community members to work cooperatively to improve educational opportunities. In this policy, the word “parent” includes guardians and family members involved in the supervision of the child’s education.

The Title I policy is developed jointly with Title I parents and will be reviewed and revised, as appropriate, at the annual meeting each year.

The District will:

1. Assist schools in planning and implementing effective parental involvement activities to improve student academic achievement and school performance.

2. Build schools' and parents' capacity for strong parental involvement through district-wide activities that will include an annual district-wide parental involvement meeting to inform parents of the results of state assessments from a district perspective.
3. Parental involvement activities will be correlated with activities for parental growth provided by our Families First Resource Center.
4. Use parent surveys and group discussions to evaluate the effectiveness of the parental involvement policy in relation to improving student achievement and school/district resources.
 - a) The evaluation will evaluate the level of participation by parents of diverse background and
 - b) Be used to implement more effective strategies to improve and increase parental involvement.

SCHOOL SEARCHES *(Policy JCDA)*

PERSON, POSSESSIONS, LOCKERS

Searches of a student's person, possessions or lockers may be conducted if a District employee has prior individualized reasonable suspicion that a student has violated or is violating a District policy, school rules or regulations or the law and that the search will result in discovery of evidence of such violation.

DESKS, OTHER SCHOOL PROPERTY

Searches of desks and other school property (except lockers) may be conducted at any time, with or without reasonable suspicion of a violation.

VEHICLES

Searches of vehicles driven to school by or for students may be searched by visual inspection with or without reasonable suspicion of a violation. If a visual search results in individualized reasonable suspicion of a violation, a more intrusive search of the vehicle may be conducted at the direction of the principal.

CANINE SEARCHES

The District may at any time utilize canines to search vehicles, possessions not on the student's person, desks, lockers and other school property, with or without reasonable suspicion of a violation. A canine response indicating the presence of contraband constitutes reasonable suspicion and a more intrusive search may be conducted at the direction of the principal.

GROUP SEARCHES

Caution shall be exercised when a search involving a number of students is conducted. In most instances, in order to justify a search, the District's reasonable suspicion must be particularized to an individual student. Exceptions to this requirement are appropriate only where the intrusiveness of the search is minimal, such as canine searches of lockers, desks or book bags or automobile searches, etc.

USE OF METAL DETECTORS

In an effort to promote the safety of the students, teachers, administrators, and other employees of each campus, and to discourage violation of state law and school board policy, metal detectors either stationary or hand held, may be used on a random basis at each school site in this school district.

The principal in each school, and the chief administrator in each facility, shall be responsible for utilizing the metal detectors in a random manner, and in such a way as not to discriminate on the basis of race, color, age, or sex.

If a stationary metal detector is activated, the person involved shall be subject to a further examination by a hand held detector in order to pinpoint the specific location of the object activating the detector. That person will then be requested to produce the object for inspection.

If the person declines to do so, and (a) if such person is a student, the student's parent(s) or guardian(s), shall be requested by phone to come to the school and participate in the further inspection; and if such student continues to refuse to produce the object for inspection, appropriate disciplinary action, including possible expulsion, shall be taken; (b) if such person is a school district employee, appropriate disciplinary action, including possible termination, shall be taken; and (c) if such person is a visitor, such person shall be denied admittance to the school building or facility.

Any student or employee who feels aggrieved by the action taken shall have the right to appeal to the school board.

STUDENT DISCIPLINE (*Policy JD*)

An organized disciplinary program supports teachers' efforts to teach and addresses the growth of positive student attitudes and behavior. The board has responsibility and authority to establish school rules and procedures for the purpose of maintaining a non-disruptive educational environment.

The discipline policies of this District are in compliance with both federal and state law.

DISCIPLINE PLAN

Discipline is the responsibility of every student, teacher, and administrator. It is characterized by a process of education designed to improve and perfect behavior, and its goal is obedience to rules and regulations based on a high degree of self-discipline.

It is our policy that students shall respect authority which includes conformity to school rules and regulations as well as those provisions of law that apply to the conduct of juveniles. Democracy requires respect for the rights of others, and it is our wish that student conduct shall reflect consideration for the right and privileges of others. A high personal standard of courtesy, decency, morality, clean language, honesty, and a wholesome relationship with others shall be maintained. Respect for property and pride on one's achievement shall be expected of all students. Every student who shows that he or she has a sincere desire to remain in school, is diligent in studies, and wants to profit by educational experiences will be given every opportunity to do so and will be assisted in every way possible by school personnel.

When students fail to exercise self-discipline, it becomes the responsibility of school personnel to take steps to alter behavior. When it is possible, classroom teachers are expected to take care of discipline; but when teachers want or need assistance, students will be sent to the assistant principal's office or the principal's office or the principal's designee. Since discipline is the responsibility of the principal, it is he/she who is the final authority within the school. Disciplinary techniques may be many and varied. Each person responsible may have his/her own methods and practices. Some of the practices that may be used in our schools are special assignments, reprimand, detention hall, in-school detention, after school detention short-term suspension, long-term suspension, punishment, alternative school and recommended expulsion. Our practices are not limited to these, and there are no automatic penalties for any offense.

The principal and assistant principal or designee will institute the appropriate disciplinary action including; but not limited to, special assignments, reprimand, detention hall, in-school detention, after school detention, short-term suspension, long-term suspension, corporal punishment, alternative school and recommended expulsion of any student for disorderly conduct or misconduct including but not limited to the following:

1. Fighting
2. Theft
3. Harassment, intimidation, threats
4. Display of affection (in the school building or school property)
5. Improper language

8. Use or possession of drugs or alcohol (Drug offenders will be advised of available rehabilitation and counseling services.)
9. Vandalism – private or school
10. Gambling
11. Weapons (knives, firearms, or any other weapons)
12. Pornographic materials

14. Possession of any material, which is punishable by law
15. Improper and disorderly conduct, which is disruptive in any school facility or on any school property.
16. Any other offense punishable by law. Corporal punishment may be used in cases where it is deemed as the most appropriate means of dealing with a particular student's behavior.

Any student in any school who possesses any controlled substance in violation of the Uniform Controlled Substances Law, a knife, handgun, other firearm, or any other instrument considered to be dangerous and capable of causing bodily harm or who commits a violent act on school property may be subject to automatic suspension by the superintendent or principal from such

school. Such suspension shall take effect immediately subject to the constitutional rights of due process.

It should be kept in mind that the primary responsibility of conduct rests with the student and parent. However, administrators and teachers shall hold students to strict account for disorderly conduct at school or any school function, to and from school, on the playground, or any place under school supervision. Teachers and administrators have the power to discipline any and all students in a reasonable and acceptable manner.

The superintendent or principal is authorized to institute appropriate disciplinary action, including immediate suspension if warranted, on any student for disorderly conduct or misconduct of any nature.

“The superintendent of a school district and the principal of a school shall have the power to suspend a pupil for good cause or for any other reason for which the pupil might be suspended, dismissed, or expelled by the board of trustees. Such action by the superintendent or principal shall be subject to review by and with the approval or disapproval of the board of trustees.” (MS Code – Section 37-9-71)

CORPORAL PUNISHMENT

Reasonable corporal punishment of a non-disabled student is permitted as a disciplinary measure in order to preserve an effective educational environment which is free from disruption and is conducive to furthering the educational mission of the board. Such factors as the size, age and condition of the student, the type of instrument to be used, and the amount of force to be used and the part of the body to be struck shall be considered before administering any corporal punishment.
4. Corporal punishment may be administered by the school principal, assistant principal, or a teacher.
5. When corporal punishment is administered, it shall be done in the presence of another school employee.

Except in the case of excessive force or cruel and unusual punishment, a teacher, principal or assistant principal shall not be civilly or criminally liable for any action carried out in conformity with state or federal law or rules or regulations of the State Board of Education or the local school board regarding the control, discipline, suspension and expulsion of students. The local school board shall provide any necessary legal defense to a teacher, principal or assistant principal in any action, which may be filed against such school personnel.

A public school teacher, assistant teacher, principal, assistant principal, or other school personnel shall not be granted immunity from liability for the use of corporal punishment on a student with a disability.

Corporal punishment administered in a reasonable manner by a teacher, principal or assistant principal acting within the scope of his employment or function and in accordance with any state or federal laws or rules or regulations of the State Board of Education or the local school board does not constitute assault, simple assault, aggravated assault, battery, negligence or child abuse. No teacher, principal or assistant principal so acting shall be named as an individual defendant or be held liable in a suit for civil damages alleged to have been suffered by a student as a result of the administration of corporal punishment, unless the court determines that the teacher, principal or assistant principal acted in bad faith or with malicious purpose or in a manner exhibiting a wanton and willful disregard of human rights or safety.

Corporal punishment means the reasonable use of physical contact by a teacher, principal or assistant principal as may be necessary to maintain discipline, to enforce a school rule, for self-protection or for the protection of other students from disruptive students. Corporal punishment in the form of paddling shall be witnessed at all times by at least one (1) school employee, and all other acts of corporal punishment, as defined herein, shall be witnessed at all times, if possible, by a school employee. Furthermore, students have the responsibility to obey all rules of conduct while waiting for, riding and leaving the bus.

The school bus driver is authorized and responsible to the school district to maintain student order and to insure safety at all times. Therefore, he is authorized to instruct and otherwise control students while they are on the bus.

The principal will be responsible for disciplining students reported to him by the driver. Questions and inquiries regarding discipline should be directed to the school principal. School spirit and pride are evidenced by the proper use of furniture and instructional equipment. It will be the policy of the school system to require any student to pay for damage to buildings, equipment, or buses when it is determined that any such damage was caused by carelessness or neglect. We need the cooperation of each student to do his/her part to help us maintain a clean and attractive campus.

If the administration can determine that the student acted only in self-defense, a modification in the disciplinary action assignment may occur. Self-defense is defined as a student acting with reason to protect himself from bodily harm and having no part, verbally or physically, in creating the situation. Students and employees in the Tishomingo County Special Municipal Separate School District are protected from bullying or harassing behavior by other students or employees. It is the intent of the Board and the administration to maintain an environment free from bullying and harassing behavior. This complaint procedure provides a process for filing, processing and resolving complaints of such conduct. Adherence to these procedures is mandatory. The failure of any person to follow these procedures will constitute a waiver of the right to pursue a complaint at any level, including review by the Board.

I. Definitions

Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or any physical act or any threatening communication, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic that (a) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property, or (b) creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities or benefits. A "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior. Bullying or harassing behavior will not be condoned or tolerated when it takes place on school property, at any school-sponsored function, or on a school bus, or when it takes place off school property when such conduct, in the determination of the school superintendent or principal, renders the offending person's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole.

Such appeal shall be filed within ten (10) working days after receipt of the results of the initial decision. SERVICE ANIMALS *(Policy IDDHE)*

Overview

This publication provides guidance on the term “service animal” and the service animal provisions in the Department’s revised regulations.

- Beginning on March 15, 2011, only dogs are recognized as service animals under titles II and III of the ADA.
- A service animal is a dog that is individually trained to do work or perform tasks for a person with a disability.
- Generally, title II and title III entities must permit service animals to accompany people with disabilities in all areas where members of the public are allowed to go.

How “Service Animal” Is Defined

Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person’s disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals under the ADA.

This definition does not affect or limit the broader definition of “assistance animal” under the Fair Housing Act or the broader definition of “service animal” under the Air Carrier Access Act.

Some State and local laws also define service animal more broadly than the ADA does. Information about such laws can be obtained from that State’s attorney general’s office.

Service Animals Must Be Under Control

Under the ADA, service animals must be harnessed, leashed, or tethered, unless these devices interfere with the service animal's work or the individual's disability prevents using these devices. In that case, the individual must maintain control of the animal through voice, signal, or other effective controls.

Inquiries, Exclusions, Charges, and Other Specific Rules Related to Service Animals

- a) When it is not obvious what service an animal provides, only limited inquiries are allowed. Staff may ask two questions: (1) is the dog a service animal required because of a disability, and (2) what work or task has the dog been trained to perform. Staff cannot ask about the person's disability, require medical documentation, require a special identification card or training documentation for the dog, or ask that the dog demonstrate its ability to perform the work or task.
- b) Allergies and fear of dogs are not valid reasons for denying access or refusing service to people using service animals. When a person who is allergic to dog dander and a person who uses a service animal must spend time in the same room or facility, for example, in a school classroom or at a homeless shelter, they both should be accommodated by assigning them, if possible, to different locations within the room or different rooms in the facility.
- c) A person with a disability cannot be asked to remove his service animal from the premises unless: (1) the dog is out of control and the handler does not take effective action to control it or (2) the dog is not housebroken. When there is a legitimate reason to ask that a service animal be removed, staff must offer the person with the disability the opportunity to obtain goods or services without the animal's presence.
- d) Establishments that sell or prepare food must allow service animals in public areas even if state or local health codes prohibit animals on the premises.
- e) People with disabilities who use service animals cannot be isolated from other patrons, treated less favorably than other patrons, or charged fees that are not charged to other patrons without animals. In addition, if a business requires a deposit or fee to be paid by patrons with pets, it must waive the charge for service animals.
- f) If a business such as a hotel normally charges guests for damage that they cause, a customer with a disability may also be charged for damage caused by himself or his service animal.
- g) Staff are not required to provide care or food for a service animal.

Miniature Horses

In addition to the provisions about service dogs, the Department's revised ADA regulations have a new, separate provision about miniature horses that have been individually trained to do work or perform tasks for people with disabilities. (Miniature horses generally range in height from 24 inches to 34 inches measured to the shoulders and generally weigh between 70 and 100 pounds.) Entities covered by the ADA must modify their policies to permit miniature horses where reasonable. The regulations set out four assessment factors to assist entities in determining whether miniature horses can be accommodated in their facility. The assessment factors are (1) whether the miniature horse is housebroken; (2) whether the miniature horse is under the owner's control; (3) whether the facility can accommodate the miniature horse's type, size, and weight; and (4) whether the miniature horse's presence will not compromise legitimate safety requirements necessary for safe operation of the facility.

ABSTINENCE-ONLY SEX EDUCATION *(Policy ICG)*

The Tishomingo County Special Municipal Separate School District School Board believes that every student has the right to accurate information concerning the prevention of pregnancy and sexually transmitted infections. The Tishomingo County Special Municipal Separate School District School Board is committed to fostering community partnerships that educate both students and parents about this important topic.

This School District seeks to affirm its commitment to creating healthy and responsible teens in this School District by fully complying with the Mississippi Code of 1972, Annotated, Section 37-13-171, and by:

- Adopting educational programs designed to help students and parents take action to reduce rates of teen birth and sexually transmitted infections and integrating such programs into already established classes, and
- Establishing principles, guidelines, and strategies for implementing effective sex education programs, referred to in state law as "Abstinence-Only" education programs.

The district shall utilize an age-appropriate (7th & 8th grade), evidenced based, medically accurate, Abstinence-Only curriculum from the list of curricula approved and recommended by the Mississippi Department of Education (MDE), including as one choice the curricula of Abstinence-Only developed by the Mississippi Department of Human Services and the Mississippi Department of Health, if such curricula are on the MDE's approved curriculum list.

PARENTS' RIGHT TO KNOW UNDER THE EVERY STUDENT SUCCEEDS ACT

(ESSA) *(Policy GAR)*

Parents have the right to request information on the following:

- Whether the teacher is teaching under emergency or other provisional status through which state qualification or licensing criteria have been waived;

Participation by Homeschool Students *(Policy JTAD)*

The Tishomingo County School District Board of Education recognizes its legal responsibility to ensure that all children of compulsory school age have the opportunity to receive an education that is adequate and equivalent to that which they are entitled under the law. Therefore, the board follows state statutes in cooperating with parents who choose to educate their children in an approved homeschool program.

The state of Mississippi does not have a law granting homeschooled students the right to participate in extracurricular activities or academic programming provided by the district. Therefore, Tishomingo County School District does not allow participation for

homeschooled students in these activities.

The superintendent is charged with the responsibility of developing the necessary regulations to govern student transfers from homeschool programs to public schools.

TECHNOLOGY & INSTRUCTION/ELECTRONIC INFORMATION RESOURCES

(POLICY IJ)

TERMS

All users of district provided laptops, tablets, or other personal computing devices will comply at all times with the Tishomingo County School District (TCSD) School Board policies. Any failure to comply may result in termination of user rights of possession effective immediately and the District may repossess the device. Any lost, stolen and damaged devices must be reported to school authorities immediately.

TITLE

The District has legal title to the property at all times. The user's right of possession and use is limited to and conditioned upon full and complete compliance with this agreement and all District policies and procedures.

LOSS, THEFT OR FULL DAMAGE

If a device is stolen, the employee or parent/guardian (in the case of a student) should immediately notify the school administration. At that time, the user or the parent/guardian will be required to file a police report through campus police. Once a police report has been filed, the district, in conjunction with the local law enforcement agency may deploy locating software to aid authorities in recovering the device. It is imperative that a lost or stolen device be reported immediately. If the stolen device is not reported within three calendar days to a district school administrator, the employee or parent/guardian will be responsible for full replacement cost.

If a device is damaged, lost or stolen as a result of irresponsible behavior, the user or the parent shall be responsible for the full replacement cost. The user or the parent/guardian will be responsible for full replacement cost of the device if not reported to district personnel within three calendar days of missing or damaged device.

In the event that a device is damaged, lost or stolen, the user will be assessed a deductible of \$50 after the first occurrence.

Students or employees who leave the district during the school year must return all devices and additional accessories to the school administrator. If devices are not returned, charges will be filed with local authorities.

REPOSSESSION

If the user does not fully comply with all terms of this Agreement and the TCSD School Board policies, including the timely return of the property, TCSD shall be entitled to declare the user in default and come to the user's place of residence, or other location of the property, to take possession of the property.

TERMS OF AGREEMENT

The user's right to use and possession of the property terminates not later than the last day of enrollment unless earlier terminated by TCSD or upon withdrawal from TCSD.

UNLAWFUL APPROPRIATION

Failure to timely return the property and the continued use of it for non-school purposes without the District's consent may be considered unlawful appropriation of the District's property.

MySchoolBucks

The district will use MySchoolBucks to offer online payment options for technology fee. The parent / guardian would be charged a 3.95% fee to use the online option; this fee is paid directly to MySchoolBucks when the online payment is made. Parents may still pay directly to the school in cash or check and will not be charged the 3.95% fee; only payments processed through the online portal will be charged 3.95% convenience fee.

FEES FOR DEVICE USE

Use and Maintenance Fees

1. Parents/guardians shall pay a \$20 non-refundable technology fee annually per student.
2. The annual fee must be paid immediately upon registration each school year. In addition, annual fees and damage fees that go unpaid will follow the student each year until Paid in Full. Seniors must clear all records and pay all fees before they shall be allowed to participate in commencement exercises.
3. In the event that an iPad is damaged, lost or stolen, the iPad user will be assessed a deductible for the repair or replacement of the iPad. Each repair/replacement deductible is \$50 after the first occurrence unless damage/loss is intentional. If determined to be intentional, repair/replacement will be the actual cost to replace the device. Any damage must be reported to school authorities immediately.
4. If the device is lost, stolen, or totally damaged as a result of irresponsible behavior, the person the device is issued to shall be responsible for the replacement cost. A campus police report will be required for all stolen devices.
5. District may disable the device remotely to protect the device and/or data on the device.

HANDLING AND CARE

1. Keep the device in the district-issued approved sleeve.

2. Keep the device and sleeve free of any writing, drawing, stickers, or labels that are not applied by TCSD.
3. Use the device on a flat, stable surface.
4. Do not place books on the device.
5. Do not have food or drinks around the device.
6. Wipe surfaces with a clean, dry soft cloth.
7. Avoid touching the screen with pens or pencils.
8. Do not leave the device exposed to direct sunlight or near any heat or moisture sources for extended periods of time.

POWER MANAGEMENT

- It is the user's responsibility to recharge the device's battery so it is fully charged by the start of each school day.
- Devices with little or no battery life must be charged in the classroom or at a provided charging station. When charged in the classroom, the student may be required to forfeit use of the device for the entire time it takes to charge it. A student must be present when charging the device at a provided charging station.
- All class work missed because of uncharged batteries must be made up on a student's own time.
- Students may also bring a teacher approved small portable charging device to assist with charging during school hours.

TRANSPORT

- Transport the device in its protective sleeve.
- Do not leave the device in a vehicle for extended periods of time or overnight.
- Do not leave the device in visible sight if left in a vehicle.

MONITORING AND SUPERVISION

- Do not leave the device unattended in an unlocked classroom or during an extracurricular activity.
- Do not lend the device to a classmate, friend, or family member. If any person damages the device, it will be the user's (parent/guardian in the case of a student) responsibility and the damage cost policy will be in effect.
- Any attempt to "jailbreak" or remove the TCSD profile could result in disciplinary action, including suspension.
- Students are responsible for the safety and security of the device and any activity on the device.

USER DATA

All users are responsible for keeping backups of important data. If a device has to be repaired, there may be a need to reset it to the original settings. The technology department will not be responsible for any user data that might be lost as a part of this process.

HELP AND SUPPORT

Each school will have a designated technology support person. Teachers and staff will be the only individuals to submit TCSD technology work orders or call the TCSD Technology Help Desk. Students will contact their teachers as a first level of support. If the student needs additional assistance, they will visit the designated technology support person at their school. An authorized individual will contact the technology department for additional assistance as needed.

USE OF PERSONAL LAPTOPS AND TABLETS

In grades where students are issued a laptop or tablet by the district, students/employees will not be allowed to use their personal laptops or tablets in place of a district device. The goal of the 1:1 initiative is to provide every student with the same device. The district is not able to provide support or install software on personal devices; therefore the use of personal devices is not a viable alternative to a district provided device.

Failure to abide by board policy and administrative regulation governing use of the district's system may result in the suspension and/or revocation of system access. Additionally, student violation may result in disciplinary action up to and including suspension or expulsion. Staff violation may also result in disciplinary action up to and including dismissal. Fees or other charges may be imposed.

INTERNATIONAL/FOREIGN EXCHANGE STUDENTS (*Policy JFABB*)

It is the intent of the Tishomingo County Special Municipal Separate School District to participate in the foreign exchange program whereby students from foreign countries are allowed temporary enrollment in this school district to enhance cultural exchange. In order to facilitate placement of foreign exchange students in the school district, the following criteria will be considered by the building principal upon request of any application.

HOMEcomings MAIDS AND ESCORTS (Policy JHD)

Homecoming maids and escorts are a classroom honor for young women and men of age in the school district. To ensure fairness and equal representation for these honors, each maid shall be a biological female of the grade selected and each escort likewise shall be a biological male of the grade selected (ie, a “Sophomore Maid must be a biological female in the 10th Grade at that particular school and her escort must be a biological male in the 10th Grade at that school). An exception shall be made if the school desires to allow fathers or other parental figures to serve as escorts, so long as those selected as escorts have served in a traditional parental and/or supportive role for a period of time prior to the event. Each school may place additional restrictions such as grades on these honors so long as these restrictions are reasonable and made public within the first two weeks of the school year. Any significant alternative approaches to these events desired by a school must be brought before the school board for approval in advance.

STUDENT SPEAKERS AT GRADUATION CEREMONIES *(Policy IGAA)*

The school district hereby creates a limited public forum consisting of an opportunity for a student to speak to begin graduation ceremonies and another student to speak to end graduation ceremonies. For each speaker, the district shall set a maximum time limit reasonable and appropriate to the occasion (4 minutes for the Valedictorian and Salutatorian and 3 minutes for all other students). The forum shall be limited in the manner provided by law.

Only students who are graduating and who hold one of the following neutral criteria positions of honor shall be eligible to use the limited public forum: senior students who have obtained the honor of Hall of Fame, senior students who have received the honor of Honor Students (for their student career) or a shorter or longer list of student leaders as the school/district may later designate. A student who will otherwise have a speaking role in the graduation ceremonies shall be ineligible to give the opening and closing remarks.

The names of the eligible volunteering students (if so utilized by the school/district) will be randomly drawn. The first name drawn will give the opening and the second name drawn will give the closing.

The topic of the opening and closing remarks must be related to the purpose of the graduation ceremony and to the purpose of marking the opening and closing of the event, honoring the occasion, the participants, and those in attendance, bringing the audience to order, and focusing the audience on the purpose of the event.

In addition to the students giving the opening and closing remarks, certain other students who have attained special positions of honor based on neutral criteria, including, but not limited to, the Valedictorian and Salutatorian (and others determined by the individual school) will have speaking roles at graduation ceremonies. For each speaker, the school district shall set a maximum time limit reasonable and appropriate to the occasion and to the position held by the speaker (4 minutes for the Valedictorian and Salutatorian and 3 minutes for all other students). For this purpose, the district creates a limited public forum for these students to deliver the addresses. The subject of the addresses must be related to the purpose of the graduation ceremony, marking and honoring the occasion, honoring the participants and those in attendance, and the student's perspective on purpose, achievement, life, school, graduation, and looking forward to the future. No controversial topics are to be the subject of a student's speech.

The school principal or his or her designee must receive each speaker's graduation speech at least two weeks prior to graduation practice. The school principal or his or her designee will approve each graduation speech. If a student speaker does not follow his or her approved speech (goes off topic), the microphone will be turned off by a principal assigned designee, and the student will be asked to leave the stage without completing the remainder of his or her speech.

The subject must be designated for each student speaker, the student must stay on the subject, and the student may not engage in obscene, vulgar, offensively lewd or indecent speech. The school district shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the district treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and may not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

A written disclaimer shall be printed in the graduation program that states, "The students who will be speaking at the graduation ceremony were selected based on neutral criteria to deliver messages of the students' own choices. The content of each student speaker's message is the private expression of the individual student and does not reflect any position or expression of the school district or the board of trustees, or the district's administration, or employees of the district, or the views of any other graduate. The contents of these messages were prepared by the student volunteers, and the district refrained from any interaction with student speakers regarding the student speakers' viewpoints on permissible subjects."

TCSD Student Cell Phone/Device Policy Form

VectorStock
VectorStock.com/22961613

After much discussion, the TCSD School Board of Trustees approved changes to the student device/cell phone policy (Policy JE) at the July 18th public board meeting. These changes were made to eliminate the distractions of cell phone use, notifications, smart watches, etc. during the school day in order to provide the best educational setting for learning to occur. The district understands this will be a dramatic change for some of our students and parents. Thus, the district asks parents/guardians/students to read the changes below and sign the acknowledgement at the bottom of the back page. **This form must be signed and returned to the school office.**

- Students are not permitted to have cell phones or smart watches out during the school day. The school day is defined as the time the student arrives at school until 3:30 p.m.
- Students who need cell phones for medical reasons (such as diabetes) will be allowed to use their phones for that purpose and that purpose only.
- The following discipline ladder will be used for cell phones/personal devices/smart watches:
 - **1st Offense:** Warning issued to the student and device taken up; retrieval will be in the front office at the end of the school day
 - **2nd Offense:** Device is taken up and must be retrieved by a parent/guardian or designee (only due to work constraints)
 - **3rd Offense:** Device is taken up and must be retrieved by a parent/guardian or designee (only due to work constraints); In-School Detention will be issued for two (2) days; no personal device is allowed at school for the remainder of the semester
 - **4th Offense:** Device is taken up and must be retrieved by a parent/guardian or designee (only due to work constraints); In-School Detention will be issued for five (5) days; no personal device is allowed at school for the remainder of the semester
 - **5th Offense:** Device is taken up and must be retrieved by a parent/guardian or designee (only due to work constraints); Out-of-School Suspension will be issued for three (3) days and Alternative School placement for 15 days will occur; no personal device will be allowed for the remainder of the school year
 - **6th Offense and Beyond:** Device is taken up and must be retrieved by a parent/guardian or designee (only due to work constraints); Administration will consider additional days to be assigned for Alternative School placement and other discipline options as necessary; no personal device is allowed at school for the remainder of the school year

- Administrators will have the option to move to any step as needed at their discretion. Staff are not responsible for damage to personal devices or lost/stolen personal devices.

If parents need to relay messages to their children, they will need to call the front office of their child's school. Messages will be given to children/teachers as needed. In the event of an emergency, teachers, staff, and administrators will have the capability to contact the office, emergency personnel, etc. The district sends urgent/informative messages to parents/guardians through multiple platforms to keep parents/guardians and the community informed. Questions regarding policy should be directed to the TCSD School Board, as the policy-making body of the school district. Here are the phone numbers of each school's front office for reference:
