Milady Red Book WORKBOOK Assignment

Chapter 23: Liquid and Powder Nail Enhancements

Name _____ Session _____ Due Date _____

This breakdown of your workbook assignment is to help you manage assignment completion, especially when there are a lot of questions. The breakdown is done in logical sections so some days may have you answering more questions than others. You may write the dates next to the days if that will help to keep you organized. "Extra" days will help if you get behind.

The workbook question headings correspond to the same sections of the textbook. If you cannot find an answer, be sure to look in the boxes, tables, graphs, and the procedure section. If you still cannot find an answer, move on and go back to the unanswered questions later. Be sure to read the Fun Facts. 😊

All assignments must be turned in upon entering the classroom the day they are due. You may turn it in early. If you are absent, you must turn them in on the first day you return.
