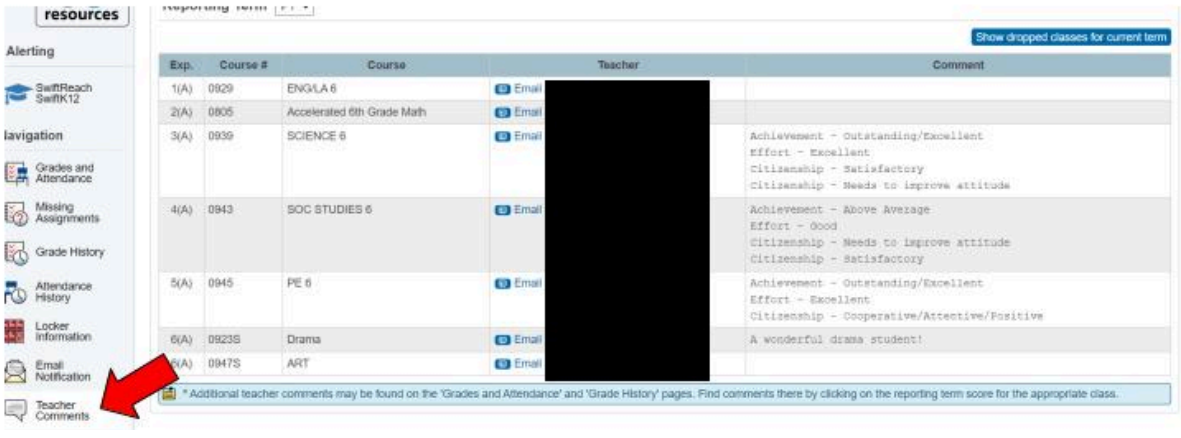
Parent Guide to view Progress Reports in PowerSchool

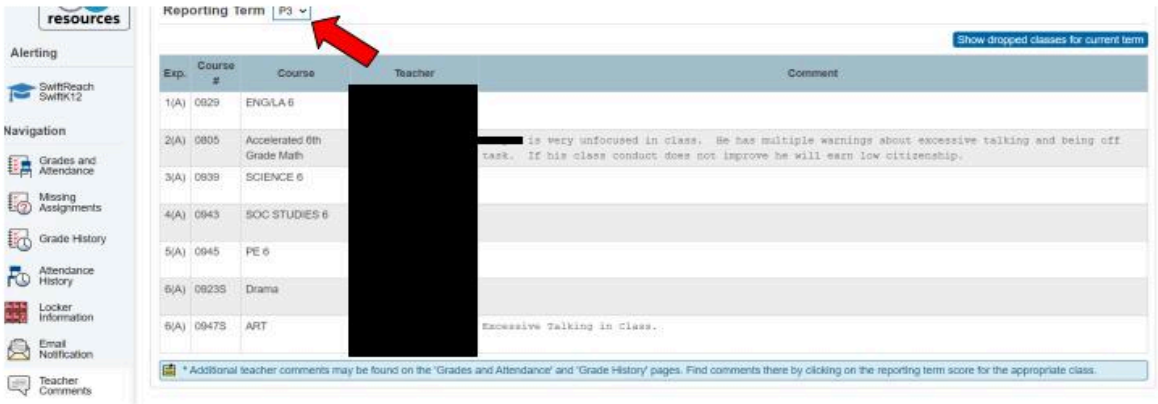
From a computer or desktop:

1. Login to your PowerSchool account at https://ps.tusd.org/public/

2. To view your student's Progress Report grades click on "Grade History" from the menu on the left. P1, P2, P3, P4 are the Progress Reporting periods halfway through each quarter. Q1, Q2, Q3, and Q4 are the official Quarter grades.

3. To view any Teacher Comments, click on "Teacher Comments" from the menu on the left. You can change the term by clicking the drop down menu at the top, "Reporting Term", and toggling between grading periods.





From the PowerSchool Application:

Please note, while parents can still view grades and comments, it is recommended to view grades and comments from an internet browser, not the PowerSchool app.

1. Login to your account in the PowerSchool application
2. From your dashboard, click on each individual class
3. Use the menu at the top to toggle between Quarters and Progress Reporting periods
4. Click “Teacher Comment” to view any teacher comments
