DIVERSITY STATEMENT

Community School of Naples is committed to the development of each student's distinct, individual capabilities and personal potential. To be fully engaged in their own learning, every student must have a place of comfort and inclusion in the larger community. At CSN, we know that our lives and the life of our school are enriched by the diverse cultures which exist among and around us. World experiences help shape our students as global citizens both within and outside of our community. As we strive for academic excellence, we also embrace diversity, inclusion, depth, and decency. We achieve this by ensuring that everyone is welcomed. We teach our students how to be open to various perspectives, understand and bridge our differences, learn from them, and then move beyond mere recognition to a genuine celebration of individuality. We respect the many languages, religions, nationalities, ethnicities, identities, backgrounds, and personalities of our students and colleagues. Most of all, we place the highest of values upon the differing perspectives and varied contributions which each member of the community brings to our school, our nation, and our world.
