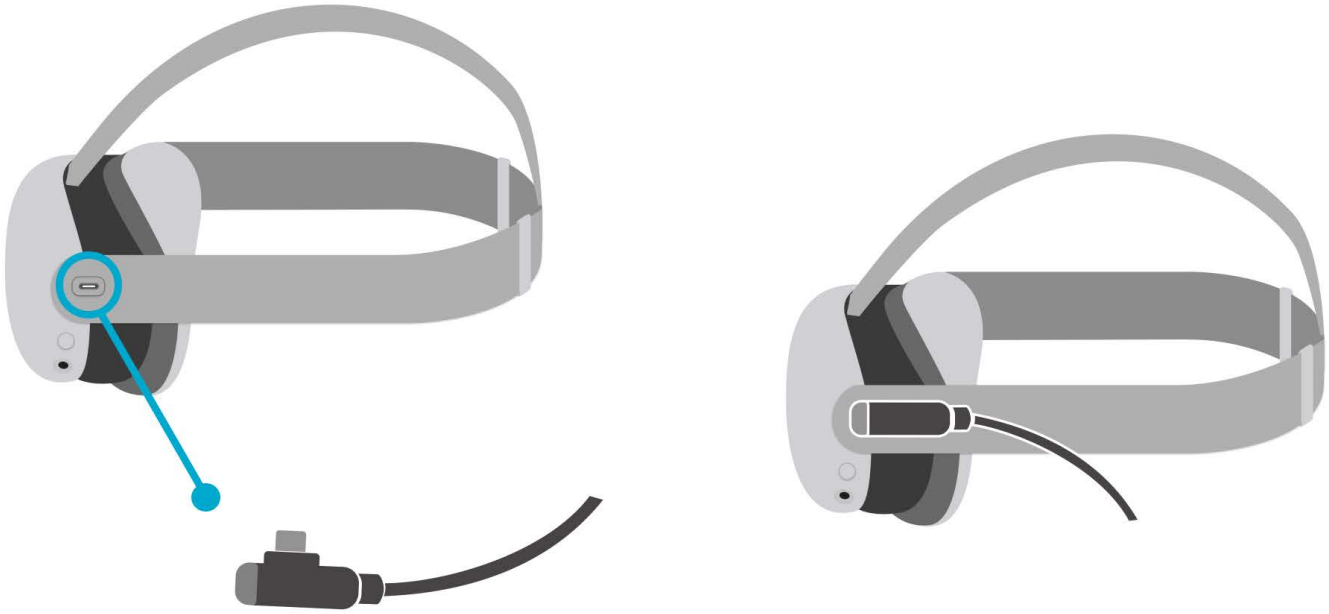
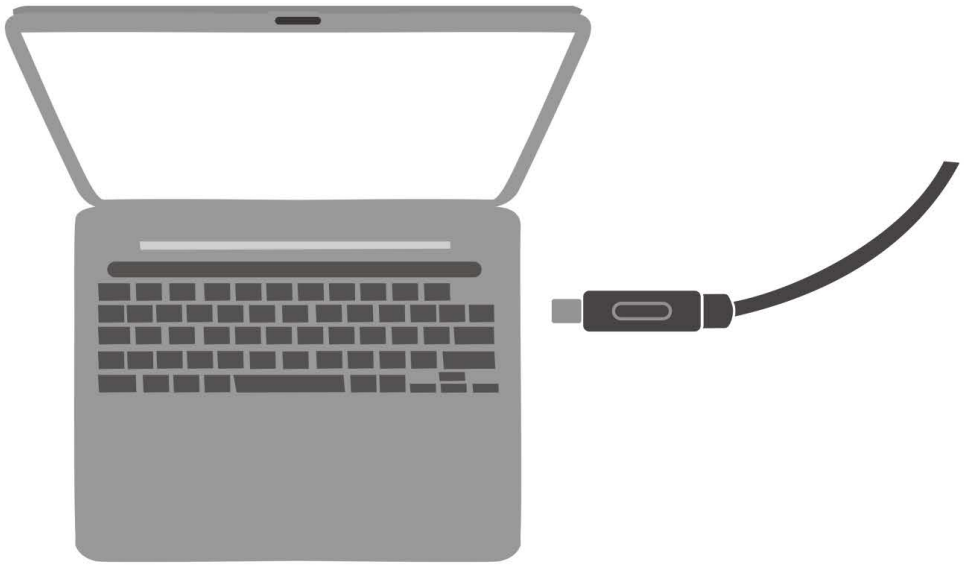
Continue →

Step 1: Plug in link cable to the headset

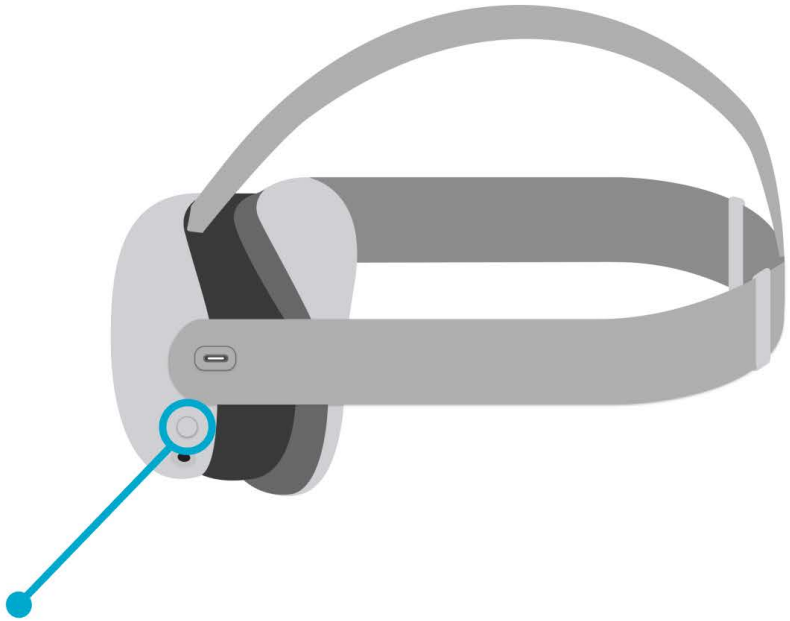


Step 2: Plug in link cable to the laptop



You can plug into any open port on the side of the laptop

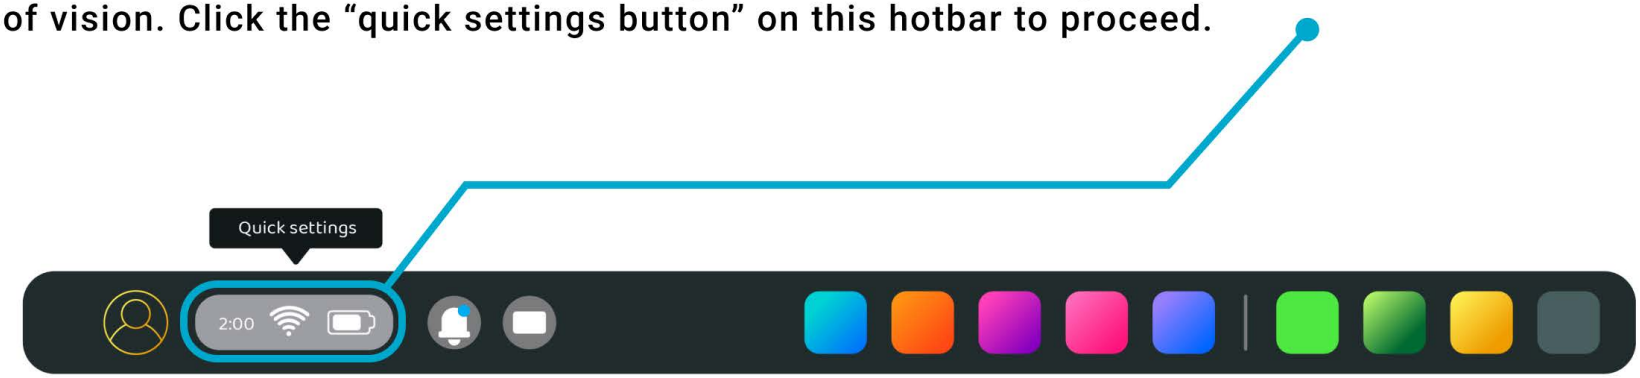
Step 3: Press and hold power button to turn on



Press and hold for 3-4 seconds and the headset screen will turn on

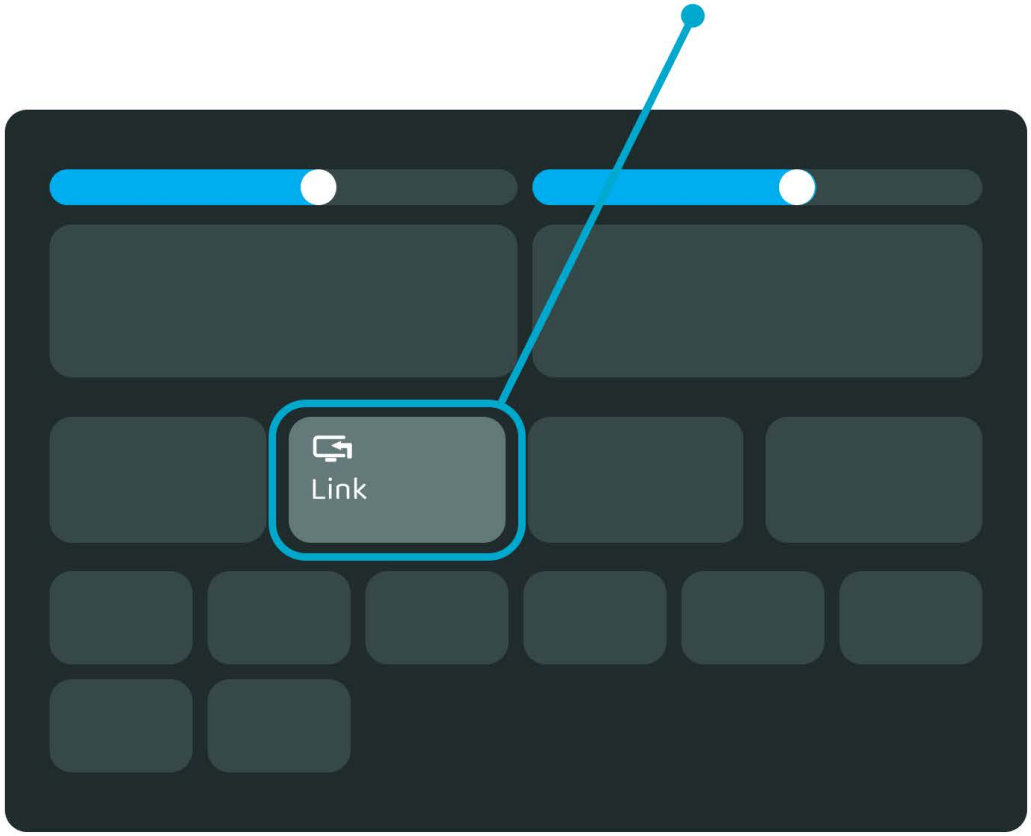
Step 4: Click “Quick Settings” on the hotbar

Once inside The Quest, a hotbar will appear near the base of your field of vision. Click the “quick settings button” on this hotbar to proceed.



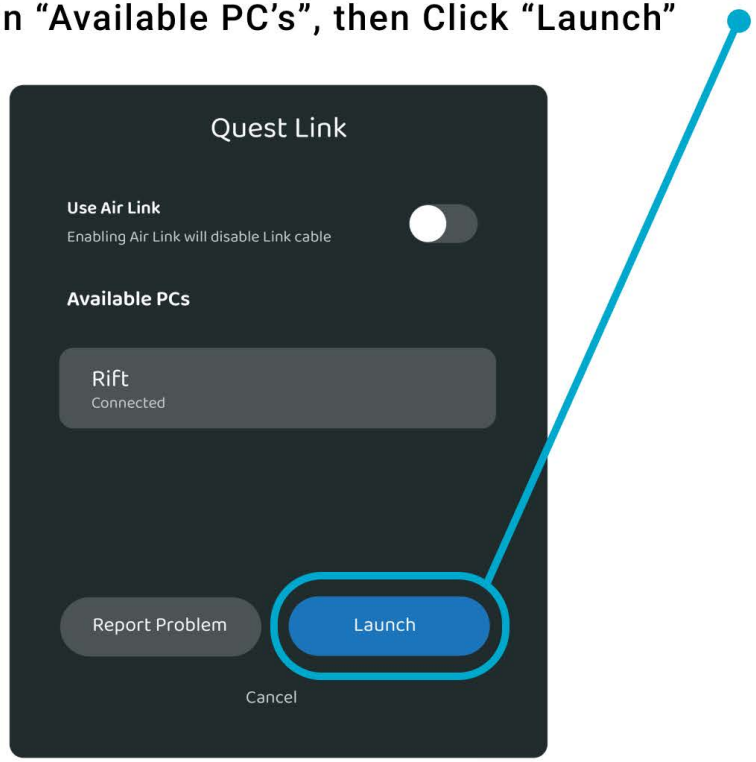
If the hotbar is not present, press the meta button on your right controller to make it appear.

Step 5: Click on “Link”



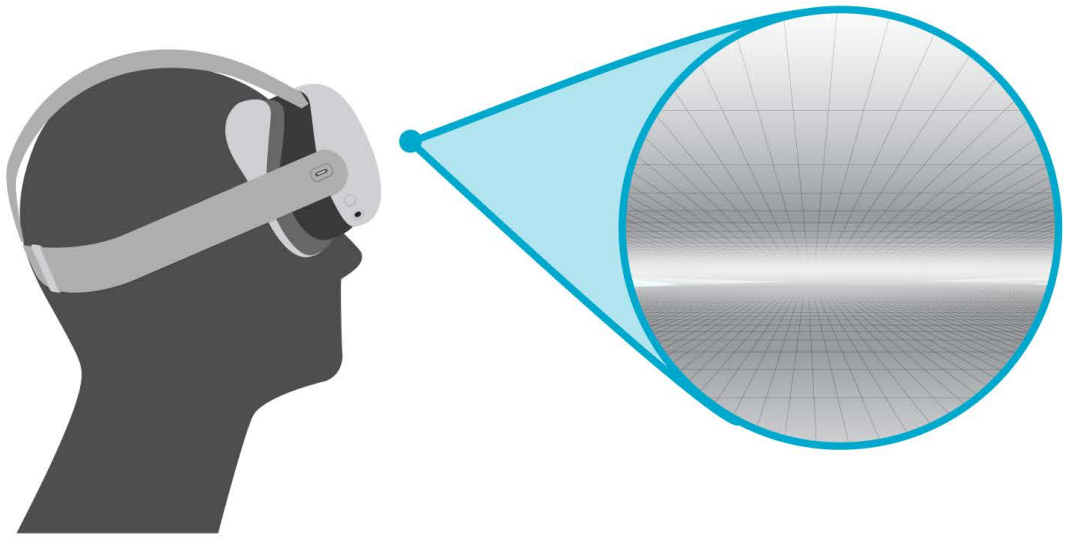
Step 6: Launch with your Computer

Make sure PC shows up within “Available PC’s”, then Click “Launch”



Step 7: Quest Environment

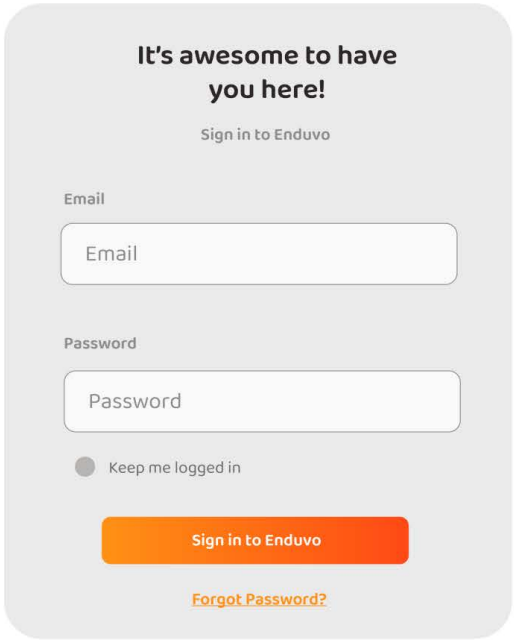
When you see a black and white grid 3D space, then remove the headset and go back to the laptop for Step 8.



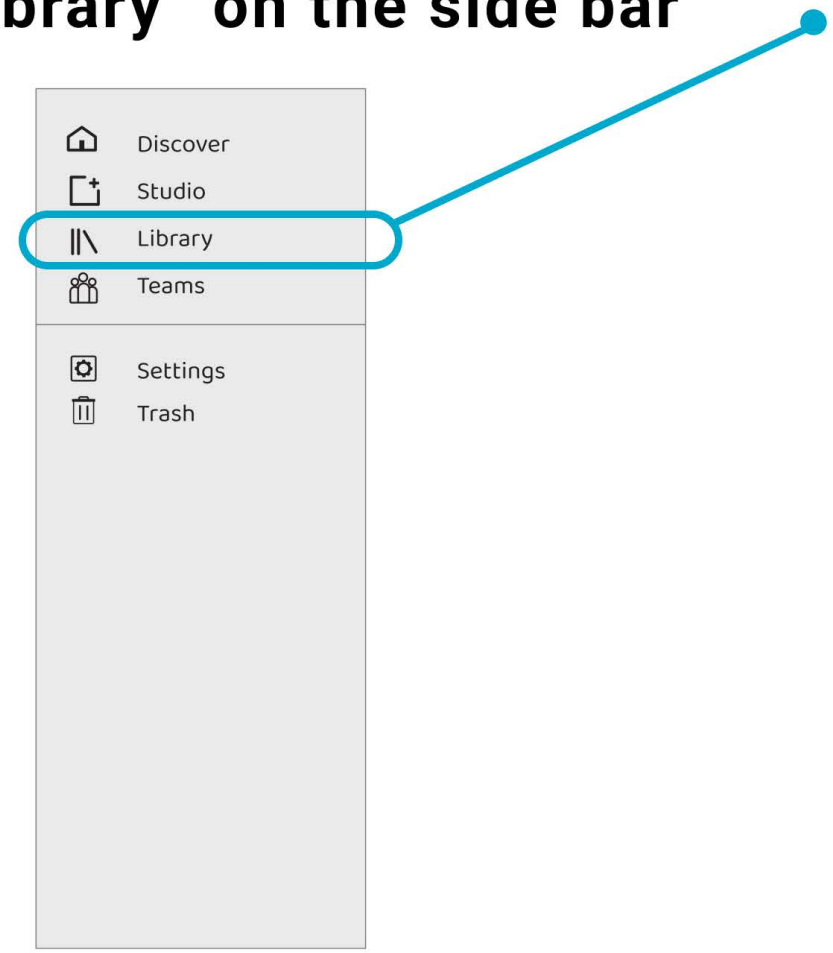
Step 8: Open Enduvo on the Laptop PC

Step 9: Log in to Enduvo

Enter your account email and password



Step 10: Click “Library” on the side bar



Step 11: Click “Play” to launch any experience

Respiratory Therapist

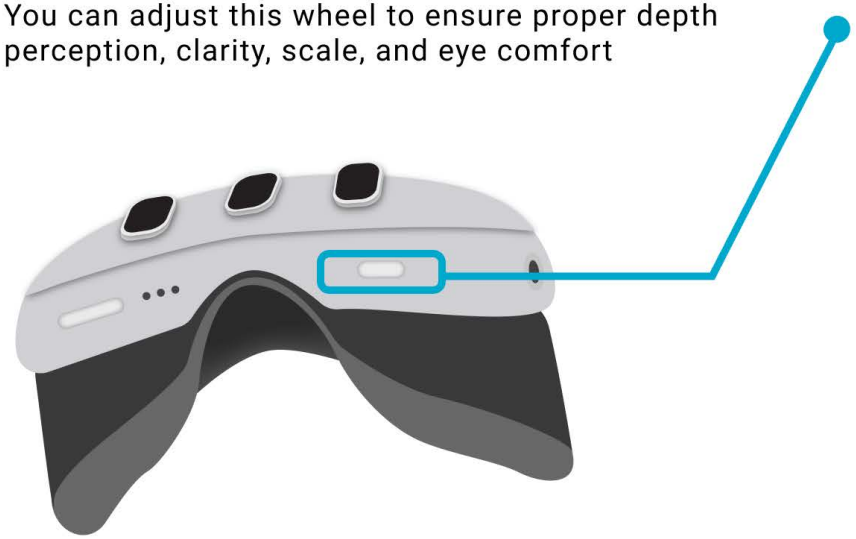
Play

Step 12: Adjust the headset as needed

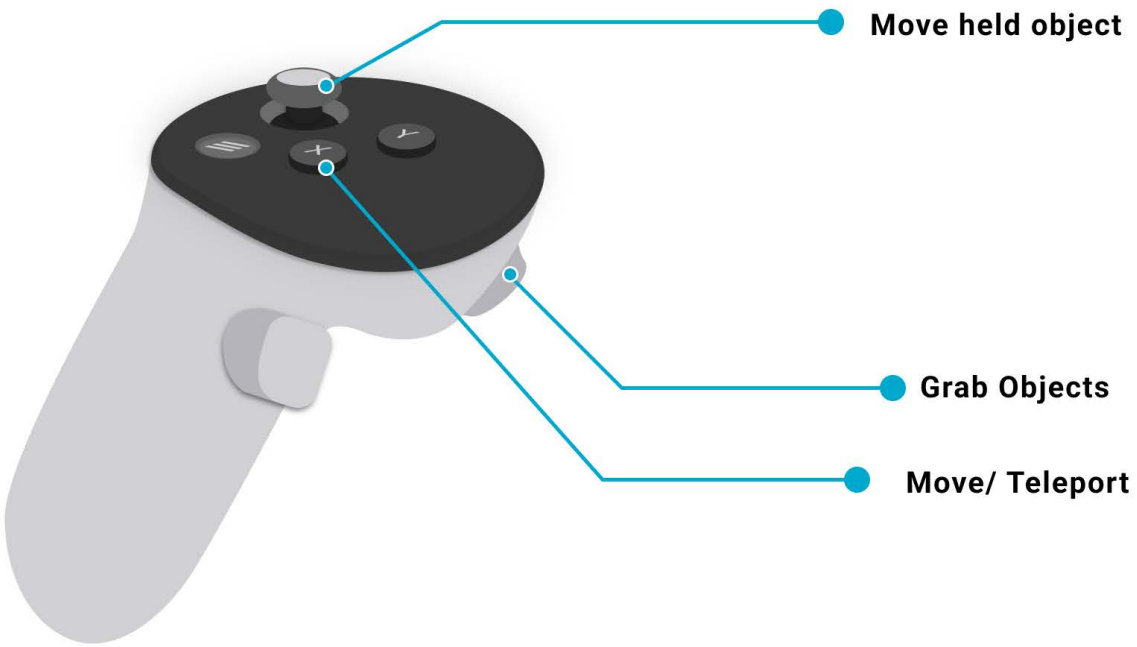
Use the straps to adjust to your head size for comfort

There is an IPD scroll wheel on the bottom right of the headset

You can adjust this wheel to ensure proper depth perception, clarity, scale, and eye comfort



Step 13: Use controllers



Step 14: Enjoy the Experience!

Technical Difficulties Section

If you encounter any errors or issues, please follow these instructions

Step 1: Exit and Restart the Enduvo Experience

Step 2: Reset the Enduvo Application

Right click on the application on the computer to quit. Then reopen the application

Step 3: Restart the Computer and Headset

You'll need to disconnect the link cable and start the whole set up process from step one.
