Reid Elementary School Parent Involvement and Family Engagement Policy
2026-2027

Reid Elementary School is dedicated to fostering strong partnerships among the school, families, and the community to support student achievement and growth. This policy outlines the school's approach to promoting meaningful parent involvement and family engagement in accordance with federal and state guidelines, including the Every Student Succeeds Act (ESSA).

Parent and family engagement means the participation of parents and caregivers in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring:

- Parents and guardians play an integral role in supporting their child's learning.
- Parents and guardians are encouraged to be actively involved in their child's education at school.
- Parents are full partners in their child's education.

Reid Elementary School commits to the following actions to encourage parent and family engagement:

- We will communicate in clear, family-friendly language, using multiple platforms, to provide timely information about curriculum, standards, assessments, and student progress.
- We will provide parents with materials and guidance to support their children's learning.
- We will communicate information regarding participation in the School Organization Team and how to become a CCSD Volunteer.
- We will host education events about academic and social-emotional topics.
- We will connect our families with community services and resources when possible.
